

## AIR SERVICE AFTER WAR PROPHESIED

LONDON, Nov. 11.—Correspondence of The Associated Press.—"America will become within reach of England in a day and a half and the time will come when an Englishman in New York will see his London paper the morning after its publication," said Handley Page, the airplane constructor, recently.

He prophesied that immediately on the declaration of peace it would be possible to begin an air service between Marseilles and London with a single stop at Paris for an overhaul and taking in gasoline. Mr. Page continued:

"Constantinople could be reached in twenty hours, Rome in twelve and a half hours, and Marseilles in eight," he said.

"An 800-mile service could be run at a profit, both for mails and passengers, at a rate but little in excess of that at present in force."

"I base my calculations on the use of medium-sized machine making non-stop flights of 400 miles. Each would carry 4,400 pounds of revenue-earning load. There would be first-class aerodromes at each end of the route, and another in the middle. Second-class aerodromes would be provided every 100 miles."

"A minimum service of six machines each way per day could be provided for a capital of under £500,000. The annual cost would be under £600,000."

### TRAINED NURSE TELLS OF TREATMENT FOR INFLUENZA

Gentlemen:—For the benefit of thousands who are suffering from La Grippe or Influenza I feel it my duty to tell others about your wonderful remedy, Hull's Superlative Compound. It was through this remedy that I became interested in medicine and nursing and 17 years ago entered the City Hospital at Indianapolis, Ind., from which I graduated and became a registered nurse of Indiana. I believe Hull's Superlative to be the best of many remedies for Family Medicine on the market, as it has never failed in families to whom I have recommended it to break up Colds, La Grippe, Tonitritis, Influenza, Bilious fever, acute meningitis and pain. It also to a wonderful blood purifier. Every family in the country now especially needs Hull's Superlative for by having this remedy in the home and beginning to take it on the first symptoms of colds it will save the most preventable pain. I received the best results for influenza by taking 1-2 teaspoonfuls every two hours for five doses, following with from 1 to 2 tablespoonfuls of castor oil or camomile salts, then continuing the medicine by taking from 4 to 6 droplets 3 times a day. The patient goes into a heavy perspiration and should be kept under cover not allowing the draft to reach them, although plenty of fresh air in the room. I must say that I thought I would relish the idea of having my name used for advertising but I feel it my duty in this crisis of the dreadful disease Influenza which is proving so fatal to so many to recommend it to others for the same. I wish I could tell thousands of mothers of the merit of this wonderful medicine.

Yours very sincerely,

MRS. J. H. DIXON, R. N.
