

INDIANA TROOPS WILL BE GIVEN WELCOME HOME

Military Review of Returning
Artillerymen to be Held in
Indianapolis.

INDIANAPOLIS, Jan. 8.—Indiana citizens will welcome home her gallant artillerymen of the One Hundred and Thirty-seventh and One Hundred and Thirty-ninth Regiments of field artillery in a review of the troops in Indianapolis Friday afternoon. These soldiers have been in service seventeen months, a part of that time overseas.

Adj. Gen. Harry B. Smith, head of the state's activities for a reception for the returning artillerymen, announced plans for the parade yesterday.

The artillerymen will be brought to the city by special trains from Fort Benjamin Harrison, where they are camped awaiting demobilization. The band of the One Hundred and Thirty-ninth Field Artillery will be in the procession.

All units of the One Hundred and Thirty-ninth Regiment and most of the One Hundred and Thirty-seventh Regiment will be in the demonstration, which is expected to be the biggest military event in the history of the state.

Governor Goodrich, the welcoming committees from twenty-two Indiana cities were members of the units were recruited, members of the Indiana legislature and members of the general reception committee will be in the reviewing stand.

All units of the One Hundred and Thirty-ninth Regiment and most of the One Hundred and Thirty-seventh Regiment will be in the demonstration during the day. Batteries A and B and the Regimental Headquarters Company, with Col. Robert L. Moorehead and other officers of the regiment, arrived Monday evening and the remaining troops came in during the early morning.

URGE CHURCH AID IN RECONSTRUCTION

The second evening of the Week of Prayer was devoted to a service at the English Lutheran church. The theme of the meeting was "Mobilizing the Church for Her Task," with the Rev. H. L. Overdeer as speaker. The devotional service was in charge of the Rev. C. Raymond Isley of the Second English Lutheran church.

A quartet composed of Mrs. Fred Bartel, Miss Corinne Nuebaum, Ernst Renk and Clyde Gardner furnished the musical program.

Mr. Overdeer defined "Mobilization," and said that after all the war has accomplished unregenerated human nature still remains.

"The spirit of the Hun and the Turk are still with us," he said. "The great task before the church is to turn this world into a real brotherhood. We must use the resources of the church in the work of reconstruction, and the essentials that must be used are the heart of the church, the service of the church, the support of the church, and the prayers of the church. If the church fails in her task—what then?"

The prayer services Wednesday evening will be at the First M. E. church. The speakers will be the Rev. A. F. Mitchell and Rev. F. A. Dressel upon the theme, "Assets and Liabilities in the War." The Rev. R. J. Webb will lead the devotional service.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength,
Energy and Ambition
Return Very Slowly to Grippe
Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance. Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here is list: Lecithin; Calcium Glycophosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Oicardin Capsicum. Kolo.

Wilson Asks Honors for Roosevelt

WASHINGTON, Jan. 8.—The following proclamation on the death of Theodore Roosevelt was cabled from Paris today by President Wilson and issued at the state department:

"Woodrow Wilson, president of the United States of America.

"A proclamation to the people of the United States:

"It becomes my sad duty to announce officially the death of Theodore Roosevelt, president of the United States from Sept. 14, 1901, to March 4, 1909, which occurred at his home at Sagamore Hill, Oyster Bay, New York, at 4:15 o'clock in the morning of Jan. 6, 1919. In his death the United States has lost one of its most distinguished and patriotic citizens, who endeared himself to the people by his strenuous devotion to their interests of his country."

"As president of the police board of his native city, as member of the legislature and governor of his state, as civil service commissioner, as assistant secretary of the navy, as vice president and as president of the United States, he displayed administrative powers of a signal order and conducted the affairs of these various offices with a concentration of effort and a watchful care which permitted no divergence from the line of duty he had definitely set for himself.

"In the war with Spain he displayed singular initiative and energy and distinguished himself among the commanders of the army in the field. As president he awoke the nation to the dangers of private control, which lurked in our financial and industrial systems. It was by thus arresting the attention and stimulating the purpose of the country that he opened the way for subsequent and beneficent reforms.

"His private life was characterized by a simplicity, a virtue and an affection worthy of all admiration and emulation by the people of America."

AFTER SUFFERING A WHOLE YEAR

Mrs. King Was Made Well by
Lydia E. Pinkham's Veg-
etable Compound.

Iola, Kansas.—"I was a constant sufferer from female trouble for about a year. I had pains in back and stomach, in fact all over me, and was all run down. A friend of mine was cured of the same trouble by Lydia E. Pinkham's Vegetable Compound. I took it and it gave me health and strength and made a new woman of me. I cannot praise your Vegetable Compound too highly, and you may publish my testimonial as it may be the means of helping some other suffering woman."—Mrs. IRENE KING, 105 West Campbell Street, Iola, Kansas.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, ready to bring you health and may save your life.

The Expectant Mother

"The Shadow of Coming Events" often darkens the days of the expectant mother.

Constipation, always a handicap to the health and happiness of every woman, becomes doubly dangerous to the woman who is preparing to fulfill her highest duty—maternity.

The expectant mother must nourish two. She must be able to get rid of a double waste. Failure to do so poisons herself and the child that she is to bring into the world.

Constipation means more than mere failure to have a regular thorough bowel evacuation. It means stagnation of waste matter in the bowels, production of irritant and poisonous matter, its absorption into the blood and distribution all over the body.

It means aggravation of all these discomforts that attend the period of pregnancy. It contributes to the tragedies of childbirth. It prejudices the ability of the mother to nurse her child after it has been born.

And, it is dangerous to employ pills, castor oil, purgative mineral waters, salts, etc., that force the bowels to act.

But the Nujol Treatment for Constipation is not only harmless but in every way efficient.

Nujol helps Nature to re-establish natural, thorough, bowel evacuation, regular as clockwork.

Nujol is absolutely harmless.

Nujol is not absorbed. It cannot affect the child. It is easy and pleasant to take.

Best of all, Nujol not only overcomes constipation, but it hinders the formation of poisons in the bowels, absorbs and carries them out of the body, thus preventing complications.

Get Nujol from your druggist and take according to directions.

Warning: NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

Thin, Nervous, Run-Down People Should Take Bitro-Phosphate

Remarkable Substance Discovered by French Scientist
Closely Resembles Natural Composition of
Nerve Cells in Human Body

Creates New Flesh, Strength and Energy in Two Weeks' Time in Many Instances.

New York.—Physicians and druggists all over the country have been intensely interested in reports concerning the nerve and strength-building properties of Bitro-Phosphate, discovered by the French scientist, Peloux, and later so successfully used and introduced to the medical world by Dr. Protessor Robin, of the Academy of Medicine, Paris. It is said that the constituent elements of Bitro-Phosphate are the nearest in composition to the materials naturally found in the nerve cells of the human body of any known substance, and that it furnishes an immediate supply of food and energy to the nervous system as soon as it is taken. Frederick Kolbe, M. D., Editor of New York Physician, "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood." Joseph D. Harrigan, former Visiting Specialist to North Eastern Dispensary, says: "Let those who are nerv-

ous, thin, weak, or run down, take a natural, unadulterated substance such as Bitro-Phosphate, and you will soon see some astonishing results in increase of nerve energy, strength of mind and power of endurance. Those who are inclined toward nervousness, thinness, weakness, nervous debility, sleeplessness, will greatly appreciate the opportunity to secure such certain relief and aid as is afforded by this discovery. In order that the public may always be saved from deception, it has been arranged that the laboratories bottling Bitro-Phosphate will sell it under no other name in this country, and nothing else should be accepted. Very complete information relating to its use in the treatment of nervous disorders is contained in every package, so that it may be understood and correctly applied by anyone. So certain is it to assist those who are nervous to regain their health and vitality that the manufacturers guarantee to refund its cost to any who are dissatisfied after using it. It is sold by Cooker Drug Co., in Richmond and most all good druggists.—Adv.
