

CAMPAIGN FOR INDUSTRIAL GROWTH URGED BY EATON COMMERCE BODY

By WILLIAM R. SANBORN.

EATON, O., Jan. 18.—The Eaton Commercial club is about to make a campaign for new members. Those who have always been loyal boosters of this substantial little city are sending up a Macedonian cry for help. They want to bring the membership up to its one time record of 200 contributors and co-workers.

New Officers Elected.
The annual meeting for the election of officers was held on Thursday night. Every business man was invited and the club rooms overflowed with visitors. The officers elected were: president, Dr. Riley Spitzer; vice president, Wm. Reel; secretary, The secretary was re-elected, the other officers being new men whom it is hoped and expected will put life and energy into the work of the organization.

The Eaton Commercial club has done much for Eaton, according to the following advertised claims in their bid for popular support. They say, for instance:

"This is what we have done for Eaton: We started the court house; we started paved streets; we started the sewer system; we brought the Ernst Nurseries; we brought city letter carriers; we brought a crowd when the boys went to war; we brought gas to the town; we brought a crowd here home coming week; we brought the armory here and we are bringing a federal building here."

Eaton is not an industrial city. The factory whistle never disturbs the late sleeper, nor are labor leaders or strike committees ever in evidence. In this rich old farm trading center. Many are inclined to let conditions continue as they are and as they have been for a hundred years of steady, solid growth.

But the greater number of the business men favor the bringing of industrial plants. They are not content with a large volume of Saturday dustrial plants. They are not content with the idle youth employed and a new start toward city growth and civic greatness. The secretary of the Commercial club states that a number of propositions are before that body from concerns seeking the advantages new locations may afford in these days of reconstruction. Money is needed to investigate and to help when assistance is deserved.

"In view of the purposes of our organization, and its record of achievement, it should not be compelled to plead for support and cooperation, more particularly in a town almost entirely dependent on the farmer." This statement was made by one of the boosters who will assist in the campaign for a larger club, more business every day, and a greater population.

The campaign for a largely increased membership is expected to create the public enthusiasm necessary to an overflowing treasury. The people of Eaton are proud of their home town, and with good reason.

A Good Place to Live.
If the visitor to Eaton hails from a dry district, where a trip to Eaton is supposed to be purely a quest for "wet goods" he will soon discover that this is in no sense a "whiskey town." The saloons have not made Eaton nor will they be greatly mourned when the lid goes on. Eaton is a city of broad, shady streets, and comfortable modern homes. It is a city of good schools, fine churches and of substantial merchants.

There is much wealth in Eaton and in Preble county. The liquor interests

FARM QUESTIONS TO BE DISCUSSED

GRATIS, O., Jan. 18.—The farmers' institute, which opens a two-day session at Gratis on Monday, Jan. 20, is the first of five institutes to be held in Preble county, this winter, under the auspices of and through the aid of the state.

The interesting character of the program should insure large attendance and considerable competition for the numerous premiums. The program follows:

Monday morning—Invocation, Rev. C. E. Beekley; "Value and Care of Manure," J. F. Brown; "A Study in Live Stock Farming," C. R. Wagner. Monday afternoon—Song, by audience; "Opportunities of Rural Life," J. F. Brown; "Practical Swine Husbandry for Ohio Farmers," C. R. Wagner.

Monday evening—"The Other Fellow," J. F. Brown; address, F. D. Phillips, state food representative.

Tuesday morning—Invocation, Rev. Aaron Brubaker; "Shall We Use Commercial Fertilizer?" J. F. Brown; "Preparing and Serving the Farm Meals," Mrs. Ida Durbin.

Tuesday afternoon—"My Friend, the Hog," J. F. Brown; "Sanitation in the Country Home and School," Mrs. Ida Durbin.

The program at each session will be enlivened with music.

cut mighty little ice in this community, financially speaking. There are two strong banks here, the Eaton National and the Preble County National, both wide awake and popular institutions and each overflowing with deposits, the largest possibly, in their histories.

In statements published as to conditions on December 31, their combined resources were: Preble County National, \$1,827,484.39; Eaton National, \$1,231,330.49; a total exceeding \$3,000,000, and this in a town claiming only 3,500 population. Few towns of similar size, in any state, can point with pride to such an enviable financial and commercial record as can this prosperous and historical old town.

HERBERT SMITH TO PLAY AT LOCAL H. S. CONCERT

Hubert Conover Smith, one of the finest cello players in this part of the country, has been engaged as soloist for the High school orchestra concert next Thursday. Smith, who is at the present time a teacher of music in the High schools of Pittsburg, is recognized as a prominent artist in the East having appeared numerous times in city recitals. Smith is a Richmond man, having graduated from the local High school ten years ago. He studied in Chicago with the solo cellist of the Theodore Thomas Orchestra.

A classical program has been arranged by Conductor Sloane, including the "William Tell" Overture, by Rossini. This famous overture, recognized by many critics as one of the hardest and most beautiful overtures ever written, has not been heard in Richmond, and its rendition by the orchestra is being anticipated with much interest.

The auditorium will be brilliantly decorated with the flags of the allies, while the place of honor will be held by the High school service flag.

Tickets for the concert may be purchased from members of the orchestra or from members of the High school.

Fountain City Woman Active at Legislature

Miss Mary Woodard of Fountain City, is one of the W. C. T. U. women of the state who is assisting with the legislative work in Indianapolis.

The Indiana W. C. T. U. is making a fight on a bill that would legalize Sunday motion picture shows, which is pending the senate. The legislative council of Indiana women, with which the W. C. T. U. is affiliated, is especially opposed to the measure. This is the first time the council has gone on record in a case of this kind, but the bill is regarded as the opening wedge of a movement that might create a "wide open" Sunday in Indiana, the W. C. T. U. delegates say.

A number of church federations in the state also are actively engaged fighting the bill.

Richmond Considered for Next Commerce Meeting

L. C. Niewoehner of this city, was elected a member of the board of governors for this district at the State Chamber of Commerce Convention in Anderson Thursday and Friday of this week.

Although no definite decision was reached, Richmond was given consideration as the place of meeting for the annual convention of the State Chamber of Commerce next year.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 37 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

Many Persons Attend the Spencer-Eikenberry Sale

About 250 persons attended the Eikenberry and Spencer sale held Friday, January 17, one mile north of Eldorado. Among the buyers were William Braiser, Clarence Fudge, John Walden, Jr., Albert Geeting, Walter Beaty, V. Eikenberry and H. C. Covert.

By noon \$1,200 in cash had been collected.

Ten head of horses were sold in the afternoon.

Warren Bunker bought a sorrel mare for \$20. G. W. Lankford bought a black mare for \$74; Esta House purchased a three year old mare for \$100, and a seven-year-old sorrel mare was purchased for \$185 by Clenden Christman. John Schlotterbeck bought a team of horses for \$300. Warren Bunker bought a three-year-old mare for \$25. A three-year-old mare was purchased by Frank Lyons for \$55.00. Charles Henderson bought a sorrel mare for \$10. A sorrel horse was bought by C. Wilhelm for \$122.

H. B. Sell was clerk and Colonel Troutwine was auctioneer.

Coming to Washington

Yank Wears Silk Flag, Gift of French Woman

Lafe Goldman of Straughlin, who helped the Americans put a stop to Kaiserism, has written from France that he values highly a silk flag which an elderly French woman pinned on him as he went up to the front lines. He wrote that he saw many towns and cities destroyed by the Huns.

LEVI CAMPBELL DEAD

CAMPBELLTOWN, O., Jan. 18.—Levi Clinton Campbell, 76 years old, died at his home west of here Tuesday afternoon. Mr. Campbell had been in poor health for six weeks. He is survived by one brother, Leander Campbell. Mr. Campbell was born and raised in this township. Funeral services were held here Friday morning from the Christian church. Burial was in State Line cemetery.

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a Little Salt in water may save you from dread attack.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.—Adv.

JACKSON INSTITUTE TO FEATURE BOYS' JUDGING CONTEST

CAMPBELLTOWN, O., Jan. 18.—

A new feature of the Jackson township Farmers Institute which will be held in Campbelltown Wednesday and Thursday, January 22-23, will be a Corn Judging contest for boys under 21 years of age. The corn will first be judged by the boys by the score card system. Then the samples will be judged by a competent judge, and to the winners will be given the following prizes: Two dollars for first, one dollar for second, and fifty cents for the third. This contest will be conducted by Committeemen Adam Reid and Frank House.

Wednesday morning's lecture will be given by Mrs. Ida A. Durbin on "Mother and the Girl." The address of the morning session will be given by the superintendent of the township schools, J. S. McDivitt. County Agent A. J. Swift will lead a tractor discussion. A lecture, "Opportunities of the Rural" will be given by J. T. Brown. During the noon hour committeemen will be appointed. Music will be furnished by Pryor's Orchestra from Eaton.

Wednesday afternoon J. T. Brown will lecture on "The Value and Care of Manure," and Mrs. Ida A. Durbin will lecture on "How to be Young at Fifty."

Wednesday evening J. T. Brown will lecture on "The Other Fellow" and the Rev. S. Masterson will talk on "The Grange."

Thursday morning the Jefferson high school orchestra will give a concert. J. T. Brown will lecture on "My Friend the Hog." The superintendent of Jefferson township schools, C. R. Coblenz will give the address of this session. C. R. Wagner will talk on "Animal Breeding—Principles that Must be Recognized."

Thursday afternoon C. R. Wagner will lecture on "A More Thorough Acquaintance" and J. T. Brown will lecture on "Practical Ideas in Lecturing." The reports of all committees will be submitted at this time.

Waterproof knapsacks made of horsehair have been invented by a Japanese army officer.

CAPT. KIMBER WAS READY TO DIE OF CONSUMPTION

Doctors Told Him So, But He Is Gaining Strength and Health—Tells How.

"My case of tuberculosis was an advanced one, of over five years' standing. Was in a tuberculosis hospital for over a year and returned home worse than when I went. I had to give up a good position in New York City and move up into the Catskill mountains on the advice of my physician."

"The doctors said I was ready to die a year ago. I was so weak I could hardly stand up."

"I began taking Milks Emulsion last October. I have now taken 18 large bottles and my gain in health and strength has been very steady. I am now able to walk to the village three miles and back, and chop a little wood every day."

"I used to fill a sputum box once a day and my cough was continual. Now I do not raise enough to fill a sputum box in a week. I do not cough any during the day, only when I get up in the morning."

"When I first began taking Milks Emulsion, and for some time after that, I couldn't take a long breath without coughing. Now I can take in draughts of fresh air without any of the previous irritation. I had six hemorrhages prior to last October, but since taking Milks Emulsion I have not spit up a bit of blood and have been practically free from temperature."

"I have been treated by thirteen different doctors and had spent all my money trying to find a cure. The doctors all told me that there was no medicine that could do this, so I was very skeptical about trying even the first bottle of Milks Emulsion. But I was persuaded to do so by a nurse who told me of two positive cures it had effected in her own family."

"Thank God I tried it. I began to feel beneficial effect only ten hours after I started taking it. I am continuing its use, feeling pretty sure it will effect a cure. In my case, as I am steadily improving. The advanced stage of my disease had arrived before I heard of Milks Emulsion, and this is making my recovery slower than if I had started taking it a few years sooner."

—Capt. Frederick E. Kimber, Dunton Lodge, Cairo, N. Y.
Capt. Kimber wrote this letter August 1, 1918. His constant gain in strength and health through this wonderful food medicine had been duplicated in hundreds of other advanced cases. Under the maker's guarantee, every sufferer is welcome to try it without risking a cent.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy natural bowel action, doing away with all need of pills and physio. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, chronic bronchitis, tuberculosis of the lungs, chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 80c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Thistlethwaite's & Drug Stores.—Adv.

the Driver's Tool-kit

A DRIVER brought his Clydesdale Truck into the Service Station the other day to have a couple of cracked spark plugs replaced.

"Haven't seen you around here much," our service man remarked.

"No reason for coming," replied the driver.

"Do your own repair work?" suggested the service man, just to see what he would say.

"Repairs—h—l," snapped the driver. "I have been on 'er for 3 months, haven't touched a tool to 'er with the exception of this. Here's my tool kit," and he hauled a pair of pliers out of his hip pocket.

This driver seemed to think that his record was unusual. But this was only average Clydesdale service.

Things don't get out of order about a Clydesdale simply because every part and feature of the Clydesdale Truck is designed to stand considerably more strain than it will ever be called upon to endure in service.

There isn't a guess or experiment about the truck. Every part and feature has proven itself by from three to ten years

of service on thousands of trucks in the hardest motor truck service in the world.

So it naturally follows the Clydesdale Truck runs month after month without getting out of order.

Let us explain to you the interesting way in which the durable, dependable design of the Clydesdale Truck was evolved. You can't afford to select new truck equipment, until you know all about the Clydesdale
