

# PREDICTS ERA OF DEPRESSION OVER AMERICA

Little Business Expansion for Long Time, Declares Charles Schwab.

(By Associated Press.)  
AMERICAN HEADQUARTERS IN GERMANY, Jan. 22.—Charles M. Schwab, American steam magnate, declared here that he expects an era of industrial depression in the United States after the war and that there will be little business expansion for a long time.

Despite expectations, America will not obtain much business from reconstruction work in the devastated regions, inasmuch as most of the materials will be produced locally, stone being used in place of wood, Schwab said.

He forecasts that America need have no fear of competition from Germany in any line.

**Describes Sub Construction.**  
Schwab arrived here after an extensive tour of the war zone, and had dinner with the American correspondents in Coblenz. He related several interesting incidents in connection with the construction of submarines for Great Britain during the early days of the war. When the British asked how long it would take to build 25 submarines, Schwab said that the shortest period in which Great Britain had built them. He was told 14 months. He astonished them by promising delivery in nine months.

Despite the fact that he was forced suddenly to move his factory into Canada, because the United States government considered it was unadvisable to build submarines for belligerent powers in his country, the boats were completed in five and a half months, winning him a bonus of \$4,000,000.

These submarines crossed the Atlantic under their own power before the Deutschland made its famous voyage, and later appeared at the Dardanelles.

## LEGISLATURE

(Continued From Page One.)

ures soon to be presented in the Indiana legislature. Principal of the conditions is that women shall be entitled to vote upon meeting the same requirements as demanded of men. The presidential suffrage bill, as introduced, follows:

"Section 1. All women citizens of the United States of the age of 21 years and upward, who shall have resided in the state during the six months and in the township sixty days, immediately preceding any presidential election, shall be entitled to vote at such election for presidential electors, subject to the provisions of law regarding the vote of male electors, if she shall have been duly registered according to law.

"Section 2. Separate ballot boxes and ballots shall be provided for women citizens in each election precinct, which ballots shall contain the names of the candidates for presidential electors who are to be voted for and the ballots cast by women citizens shall be canvassed with the other ballots cast for presidential electors.

"Section 3. Prior to any presidential election for which male voters are required to register, women citizens shall also register in the same place and manner as male voters, provision being made for women citizens to register separately by those whose duty it is to provide for registration of male voters."

**Text of Amendment.**  
The proposed constitutional amendment providing equal suffrage reads: "Be it resolved by the general assembly of the state of Indiana that the following amendments to the constitution of the state of Indiana be hereby proposed and agreed to by this seventy-first (71) General Assembly of the state of Indiana and is referred to the next General Assembly of the state for consideration and agreement.

"Section 2. That Section Two (2), Article Eleven (11) of the Constitution of the state of Indiana be amended to read as follows: "In all elections not otherwise provided for by this constitution, every citizen of the United States of age of twenty-one years and upward, who shall have resided in the state during the six months, in the township sixty days and in the ward or precinct thirty days, immediately preceding such election, shall be entitled to vote in the township or precinct where they may reside if they shall have been duly registered according to law."

This would bar aliens from voting.

## When Your Little Child

cries at night, tosses restlessly and mutters in its sleep, is constipated, fretful and feverish, or has symptoms of worms, you feel worried and have your night's rest disturbed by the little one's crying, or perhaps because of your own anxiety.

Many thousands of mothers rely at such times upon a tried and trusted remedy always kept in the house.  
**Mother Gray's Sweet Powders for Children.**  
Used by mothers for 30 years. These powders cleanse the stomach, act on the liver and give healthful sleep by regulating the child's system. Easy to give and pleasant for the child to take.  
Happy mothers in every community are using them with splendid results.  
Mother, if your child has the symptoms here described, you should try these powders. Trade Mark. Your druggist has described you should not accept them.  
**Be sure you ask for, and obtain, Mother Gray's Sweet Powders FOR CHILDREN.**

## Hotels Give Employment to Former Soldiers

NEW YORK, Jan. 22.—Discharged soldiers, sailors, and marines in large numbers are being employed by the Hotel Association of New York, which announces that during the past few weeks it has given jobs to 401 of these men, and that they include one lieutenant colonel, one major, and first and second lieutenants galore.

Subsidies, which are voted to public utilities, especially common carriers, for the development of a community would be recovered in part at least, if ever the benefit utility failed or was sold, according to provisions of a bill, Representative Davis, of Jay county has introduced in the legislature.

**\$500,000 For Land.**  
An appropriation of \$500,000 from the Indiana treasury is provided in a bill, ready to be introduced by Representative Miller, of Indianapolis, with which to locate Indiana reformatory on 1200 acres or more ground in a central part of the state.

A large part of the reformatory, which years ago was erected at Jeffersonville, was destroyed by fire last winter, and Governor Goodrich has asked that it be relocated and rebuilt in a more nearly central part of the state. The bill was introduced by Representative Miller, of Indianapolis, and was named by the governor to consider the question of rebuilding the institution.

The measure provides that a bipartisan commission of four persons appointed by the governor, shall select a site for the institution and shall acquire a tract of land, having all or as many as practicable of the following advantages and resources: The land selected and purchased shall be of varied topography and natural resources and advantages for varied forms of industry, fruit growing and stock raising, for brick making and the preparation of road and paving material and shall have good railroads, drainage, sewerage and water facilities. In selecting and deciding upon said site the commission shall not take into consideration any offer of land or other donation or inducement. Said site shall be known hereinafter as the new reformatory site."

**Must Have Approval.**  
After the site has been selected, the bill provides that the board of state charities shall approve it before the purchase of the land can be made. Upon its purchase the real estate would be turned over to the trustees of the reformatory, who would cause prisoners of the penal institutions to be transferred there "to work in connection with the development of the land and the construction of the institution buildings."

The structures erected "shall be plain and inexpensive in character," says the bill. When the reformatory shall be equipped with buildings and other facilities sufficient in the opinion of the trustees to receive prisoners, the governor must be notified and he must declare by proclamation the new site is ready to receive prisoners, the bill says. Thereafter judges in committing prisoners to the reformatory must direct that they be taken to the institution at its new location.

The proposed appropriation would be available in the sum of \$10,000 on April 1, next, and the remaining \$490,000 on June 1, 1919. The trustees would be authorized to sell the present property of the reformatory which includes 228 acres of land.

**Lobbyists at Work.**  
The silent lobbyist—the letter writer—is busily engaged during this session of the Indiana legislature, according to members.

Among the subjects for which "this lobby" is seeking legislation is the enactment of a law which will protect sheep raisers from the ravages of dogs. Farmers desire a heavy dog tax be provided. They point out that in certain counties of the state the damages paid for sheep killed last year exceeded the revenue received for this purpose.

**HOW'S THIS? 27 EGGS A DAY FROM 28 HENS**

And this was in February, in Kansas, Mrs. Davidson's Plan is Simple.

"I fed a 50-cent box of Don Sung to my flock of 28 hens that were not laying. But they are laying now. I receive as high as 27 eggs a day and never less than 22."—Mrs. Jennie Davidson, Yates Center, Kansas.

Mrs. Davidson wrote this letter Feb. 18, 1918. Figure her profit on two dozen eggs a day from hens that "were not laying" last January and February. Why don't you try it? We'll make you the same offer we made her. Here it is:

Give your hens Don Sung and watch results for one month. If you don't find that Don Sung pays for itself and pays you a good profit besides, simply tell us and your money will be refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer, or send 50 cents today for a package by mail prepaid. Burrell-Dugger Co., 168 Columbia Bldg., Indianapolis, Ind.—Adv.

## Three Carloads Wheat Substitutes Sent to Europe From Wayne County

Three carloads of wheat flour substitutes were assembled here, as part of the 9,000,000 pounds of surplus stock collected in Indiana for the starving countries of Europe. The cars contain barley flour, white and yellow corn flour, which were obtained from grain dealers and grocery dealers of Wayne county.

The substitutes were assembled under the direction of Harry W. Gilbert, food administrator. The cars will be shipped to the seaboard.

The supplies purchased in Indiana consisted of barley flour, rye flour, corn flour, corn meal and Victory flour and they represent the surplus stocks of the mills, elevators, jobbers and retail food dealers on hand at the time the ban against the use of wheat flour was lifted a few weeks ago.

More than 15 cars of wheat flour substitutes costing approximately \$405,000 have been purchased from the mills, jobbers, bakers and retailers of Indiana. Most of this big supply has been assembled and shipped direct to Atlantic seaports by the various mills, while about forty-five cars are being held at storehouses at Ooshen, South Bend, Fort Wayne, Evansville, Richmond, Terre Haute and Indianapolis and will be shipped, probably next week, to the seaboard.

This great purchasing campaign was conducted so quietly that there was little opportunity for holders to take advantage of the situation and force advances in prices. The action also solved a serious question, so far

## Lutherans Propose to Raise a Big Fund For Work Abroad

Plans for raising a million dollars fund to carry out Lutheran reconstruction work in Europe, were discussed at the organization conference of the National Lutheran council in Chicago yesterday. The original plan had been to set the figure at half a million, but so enthusiastic were the delegates that it was decided to double the amount. Dr. H. C. Stubbs, of New York presided.

"This is one of the most urgent calls which has ever come to the Lutheran church," said the Rev. Lauritz Larson, secretary of the executive committee.

"There are 2,800,000 Lutherans in the ravaged sections of France alone. There are more than 6,000,000 Lutherans in Finland and eastern Russia. It is for the American Lutheran church to bring to these people a spiritual democracy."

## IN INDIANAPOLIS FOR 25 YEARS

Dr. Culver, the Venerable Old Specialist of the Inter-State Doctors' Local Office, Has Noted Career.

Doctor Culver, the specialist in charge of the Richmond office on the second floor of the Starr building, has had twenty-five years' practical experience as a general practitioner in Indianapolis, besides having been a lecturer on pathology for a number of years in one of the standard medical colleges, a branch in medicine that peculiarly fits a teacher for differentiating diseases.

There are plenty of doctors who can treat a case if they know what is the matter with the patient. But it is an admitted fact in medical circles that there are few good diagnosticians.

No invalid can afford to be experimented with, for in most chronic cases a month's loss of time means drifting into a hopeless case. Besides all physicians agree that medicines that don't benefit you are sure to harm you in one way or another. The Inter-State Doctors make their diagnosis absolutely certain before they commence to treat a case, even going so far as to make a complete examination of the secretions, excretions and the blood, both by microscope and scientific chemical means. This being an established fact, anyone is safe in going to their office for they give you this rigid \$10 examination absolutely free and hold out no false hopes to the individual. No contracts to sign, no red tape—just plain matter-of-fact talk. They solicit difficult and complicated cases, and any one calling at their office will meet with a cordial reception by Dr. Culver.

They have thousands of letters on file from cured patients, and will produce one here, feeling quite sure that the people can rely with confidence on their friends and neighbors right here in Indiana. Mr. Johnson is a cultured man of high standing, both in church and among his neighbors, and wouldn't allow his name to appear to any signed document unless it was absolutely genuine.

"Elkhart, Ind.  
"Gentlemen—I wish to add my testimony to the many others which you have in the hope it may guide other sufferers to the right place to be cured."

"I suffered with stomach and bowel trouble for months and could get no relief. I finally went to your office and Doctor Culver, the physician in charge, gave me a very careful and rigid examination. He told me there were many kinds of indigestion, and that my trouble was intestinal indigestion. I never had been told that before. I placed myself under his care, and he dismissed me in one month as sound as a dollar, showing that your methods are honorable and you don't hang on to a case just to get the money."

"I now can eat any and everything. Have no more pains and work every day and have had no return of my trouble."

"For honesty, sincerity and thorough management of a case I shall always recommend the Inter-State Doctors."

(Signed) "J. W. JOHNSON."  
Doctor Culver is in personal attendance at the Richmond office, 10th and Main St., every Friday from 9 a. m. to 8 p. m.

They furnish their drugs from their own drug room, thus insuring purity and precision.—Adv.

## Three Million Protests Against Tax on Theatres

Three million protests against the increase in the theatre tax rate, the result of the campaign which has been waged by theatrical managers all over the United States, are beginning to pour into Washington, according to word received today by Richmond managers.

They say that an average of 1,000,000 signatures will be obtained from various playhouses of the country during the present week.

Y. W. C. A. ORGANIZED.

OXFORD, O., Jan. 22.—The social service committee of the Miami University Y. W. C. A. yesterday organized a "Y" among the young women of the village high school. The organization starts off with a membership of about thirty, and the following officers: president, Miss Marjorie Woodruff; vice president, Miss Eliza both; secretary, Miss Edna Tuttle; treasurer, Miss Mary Sheard. The high school girls are enthusiastic over the movement.

The following letter has been sent out from headquarters by the president, Ben C. Bartel:

"Dear T. P. A. Member:  
"The war has left in its wake many new problems to be solved in these coming years, but we can still 'do a bit' by returning, as nearly as possible, to a normal mode of living."

"Aside from doing our patriotic duty in the way of bonds and war saving stamps, Post C has been rather inactive, but with the entrance of a new year and the normal resumption of business, it behooves us to arouse ourselves in order to create new interest and enthusiasm in our Post."

"The State T. P. A. has gained in membership, but the local post is not equal in number to a year ago. Many of our most active members have been lost by enlistment and death during this last year. This means that old members, heretofore inactive, must assume more interest and responsibility and new members must be added. A campaign for new members has been launched this month. Do your best to boost it."

"It would not only be a great personal pleasure to me, but would be your gain if you would avail yourself of the T. P. A. rooms and attend our monthly meetings, held the last Saturday night in each month."

"The memorial service for our deceased members will be held the last Sunday in January, the 26th, at 2:30 p. m., in the First English Lutheran church. An interesting program has been prepared. These men were all unusually interested and loyal members of Post C. Do them honor by attending their memorial services."

These Two Mothers Have Proved This.

Bainbridge, N. Y.  
"My little daughter, 13 years old, overworked and was run-down, tired all the time, nervous, had headaches, couldn't eat and had to stay out of school. Vinol has built her up. She has a good appetite, no more headaches and has returned to school again."—Mrs. Lester Andrews.

Williamson, W. Va.  
"My little boy was weak, puny, and tired all the time, did not want to do anything. Vinol was recommended and it built up his strength and made him healthy. Now he romps and plays like other children. We certainly believe in Vinol for children."—Harley Clay.

Frail, Sickly Children Improve Rapidly on Vinol

The reason we so strongly recommend Vinol for frail, sickly children is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycophosphates—but no oil—the very elements needed to build them up. It is delicious to the taste, and children love it.
