NO TONIC LIKE HOOD'S
Sarsaparilla For a Time Like This, After Influenza, the Grip, When purified blood, rebuilt strength and regulated bowels are essential. In the after-effects of influenza, the grip and other prostrating diseases, Hood's Sarsaparilla has remarkable health-helping effect. It expels the poisons that have weakened and depleted the blood, causing pallor, anemia, flabby flesh and lax muscles. It is the standard blood remedy with a successful record of nearly fifty years.

Many people—it is really astonishing how many—need a fine, gentle, easy cathartic in these trying times. We recommend Hood's Pills, as one of the best families, and equally effective with delicate women or robust men. Easy to take, easy to operate.—Adv.

Most Heat for a Dollar

Here and there you find a man who swears by Indiana Coal. Says he knows by experience that it

- Gives a quick, hot fire.
- Is clean. Doesn't soot up his furnace.
- Burns freely and long.
- Leaves little ashes, but clean ashes. No clinkers!
- Gives a thin, light smoke when fired with reasonable care.
- Doesn't require any special equipment. Any furnace, stove or grate will do!
- Doesn't burn up his pocket-book!
- Gives more heat for a dollar than any other coal!

That man was lucky! He merely ordered Indiana coal, but he drew

FOURTH VEIN

Aristocrat of Bituminous Coals

And genuine Fourth Vein will always make good on every claim he made for it, and more. Away back, ages and ages ago, Nature did a beautiful job in the Fourth Vein. Here she mixed and solidified a compound of fixed carbon (holds the fire) and volatile gases (heat producers) that knows no superior among all the soft coals. The big plants in this territory, where coal runs into money fast, are using Fourth Vein. They've tested all

coals and know that it gives most heat for a dollar.

There are all kinds and grades of bituminous coal in Indiana, from "surface strippings" to the splendid Fourth Vein. So, when ordering, demand the genuine Fourth Vein—and if you don't think you're getting it, write us and we'll investigate for you. Why so much cheaper than Eastern coal? Western coal is as costly in the East as Eastern coal is here. The answer is freight charges! They're a mighty big share of the price of coal.

SERVICE If your coal is not right, or your contract is not kept to the letter, write us.
