Civil Service

A civil service examination will be held at the Richmond postoffice on March 22 to fill the position of motor rural carrier at Fountain City and other vacancies that may occur on motor rural routes in Wayne county. The salary on rural route ranges from \$1,300 to \$1,500 per annum. This examination is open to men and to women whose husbands are in the service, or who are unmarried. Applicants must be actually domiciled in the territory supplied by mail from a post office in the county, and must meet other requirements set forth in Forms 2121 and 1977. The former may be seen posted at any postoffice where the vacancy exists or the examination is to be held.

The appointee to this position will be required to furnish, maintain and operate a modern motor vehicle with a carrying capacity of not less than 800 pounds and a cubic capacity of not less than 80 feet.

Applicants must file with their applications a statement of the equipment they will be able to provide in the event of the appointment.

Applications will be forwarded from the Richmond postoffice to Washington, D. C., at the earliest possible date, and should be gotten into the local office as soon as possible.

The vacancy for which this examination is announced is caused by the enlistment of the carrier formerly employed on the route. Upon his honorable discharge from the military service of the government he will be entitled to reinstatement to his former position as carrier on this route in accordance with the statute approved July 28, 1916, which is as follows.

"Any postal employee who has entered the military service of the United States or who shall hereafter enter it shall, upon his being honorably discharged therefrom, be permitted to resume his position in the postal department which he left to enter such service."

However, any person appointed to this position, in the discretion of the Postoffice department, be assigned to other parts of the postal service; or transferred to other branches of the classified service for which he is eligible.

With the Clubs

The nominating committee of the Woman's Franchise League of Indiana will meet tomorrow at the Claypool hotel in Indianapolis. Mrs. J. F. Barnhill of Indianapolis, is chairman of the committee. Due to the refusal of Mrs. Richard Edwards of Peru, who has served as president for two years, to be candidate for re-election, there is great uncertainty as to the probable candidates for the presidency. At this time no names have been suggested for the office.

The nominating committee is composed of the thirteen district chairmen of the Franchise League. Miss Betsy Edwards of Shelbyville, is the delegate from this district. Due to the unusual importance of the next year in the history of suffrage, members of the nominating committee feel that it is essential that the right leaders be chosen for the suffrage organization of the state.

The annual state convention of the Franchise League of Indiana will be held in Indianapolis April 1, 2 and 3.

Mrs. Charles J. Gill of Muncie, is general chairman for the convention, and Mrs. Wilmer Christian of Indianapolis is vice chairman. A number of women from this district are named

Women's clubs throughout the country are being enlisted in the work of

carrying the message of hope to the disabled soldier and his dependents. Public spirited women and community leaders are being asked by the federal board for vocational education to report all cases of wounded or disabled men who have re-entered civil life in low grade occupations, or who are occupying semi-charity jobs, in order that these men may be induced to take the proper training and equip themselves so they can earn more than they are at present receiving, and by becoming skilled workmen be independent of the ordinary fluctuations in the labor market, where, as unskilled men they are the first to suffer.

The number of men discharged from the camps and cantonments in this country who have gone back into civil life handicapped by disease or injury from accident or otherwise, is astoundingly large. These men are not suffering from wounds received on the battlefield, but they have disabling injuries which are just as severe in effect and especially is this true of those who have contracted tuberculosis or have systems injured from the effect of meningitis, measles and the like.

The federal board for vocational education is not only endeavoring to interest the club organizations, but is anxious to correspond with individuals

on these subjects, in order to get in touch with all disabled men, and welcomes information regarding all such.
