U.S. RETRAINS THOUSANDS OF DISABLED MEN

Positions Are Found for Men by Federal Bureau after Re-education.

WASHINGTON, March 3.—Figures indicating progress in reeducating and placing disabled soldiers, sailors and marines show that the work is going forward at a satisfying pace. The statement of February 15 reveals the total number of cases the federal board for vocational education was in contact with was 22,851. Of these 6,552 were reported from the war risk insurance bureau; 9,020 from hospitals; 4,494 from the red cross; 73 from the United States department of labor; 1,652 from the men direct, and from other sources, 1,060.

Not every wounded man is entitled to retraining. First, under the law, he must have been awarded compensation by the war risk insurance bureau and thus far 3,655 have been awarded compensation, 79 having been denied it, and 19,117 are cases in process of determination.

Trained for Trade.

It is necessary to have the war risk insurance bureau pass upon a case as the essential preliminary, and the agents of the federal board assist all disabled men to make their applications to the war risk insurance bureau. In the last thirty days 2,855 men have been assisted in filing their applications. Nine thousand four hundred and twenty-five men have been interviewed by the various agents of the federal board and 9,162 were awaiting interview.

There were 6,286 prospectives for retraining. During the last month 490 cases have been awarded training and entered upon the various lines of study fitting them for useful work in the skilled trades, occupations, professions and other callings, the total available to be selected from being about 500.

The placement division of the federal board is busy locating employment opportunities for the retrained men and when they have finished their courses places will be awaiting them.

The Theater

WASHINGTON

Nazimova, who is called upon to do some palm-reading in "Toys of Fate," the Screen Classics' de luxe feature, which will be presented at the Washington theatre today and tomorrow, really has a deep knowledge of this art. Palmistry has always had a keen fascination for her and she has studied it with great interest. The great actress believes that life and character are clearly depicted in the lines of the hand. When every one in the company learned of this gift of Nazimova's, she was besieged upon all sides to "read my palm."

MURRETTE.

The Murrette theatre announces that it will have another splendid William Farnum de luxe production to offer next Monday and Tuesday. The play is called "The Man Hunter," and was written for Mr. Farnum by his director, Frank Lloyd, whose genius put on celluloid such photoplays as "Les Misérables," "A Tale of Two Cities," "When a Man Sees Red," "Riders of the Purple Sage," and "The Rainbow Trail."

This photoplay has scenes on land and sea. It is certainly a thriller and gives Mr. Farnum exceptional opportunity to show his fine dramatic ability. It is a case of from riches to poverty with many stirring incidents in the decline and fall and the "come-back." This picture is awaited with peculiar interest because not only has Mr. Farnum never made a poor picture, but his pictures are always satisfying.

MURRAY.

Some time ago Priscilla Dean, Universal Special Attraction star, made a flat denial of the stories that have been printed concerning her engagement to Captain Eddie Rickenbacker, America's famous ace, who has just returned with twenty-six downed Hun planes to his credit.

"My friends mistook my sturdy friendship for 'Rick' for a romantic love affair," Priscilla declares stoutly. "Rick and I are just pals that's all. We had a solemn pact when he went away, but wedding bells did not figure in it. It was for war work. Rick has sure done his bit winging the Teuton airplanes, while I am trying to do my bit here in America, by appearing as a modern Joan of Arc in 'The Wildcat of Paris,' a stirring war drama built around the battle of the Marne, selling Liberty bonds, appearing at Red Cross benefits and adopting both an army and navy fighting unit. I have denied this story three times now and I don't see what gives it such a remarkable lease on life. I am sure it is very embarrassing both to Captain Rickenbacker and myself."

Miss Dean is now vacationing between the completion of "The Wicked Darling," which comes to the Murray Monday, Tuesday and Wednesday, and her next story, which is being prepared under the direction of Director Tod Browning.

Property Damage Caused By Storm at Eldorado

The heavy wind last Friday afternoon caused considerable damage at Eldorado, O., where doors and windows were blown off several barns and roofs lifted off several houses. On the farm of W. W. Eikenberry a tool and implement shed was demolished.

Mrs. A. J. Hamilton, of Eldorado, who underwent an operation recently at Reid Memorial hospital, has returned to her home.

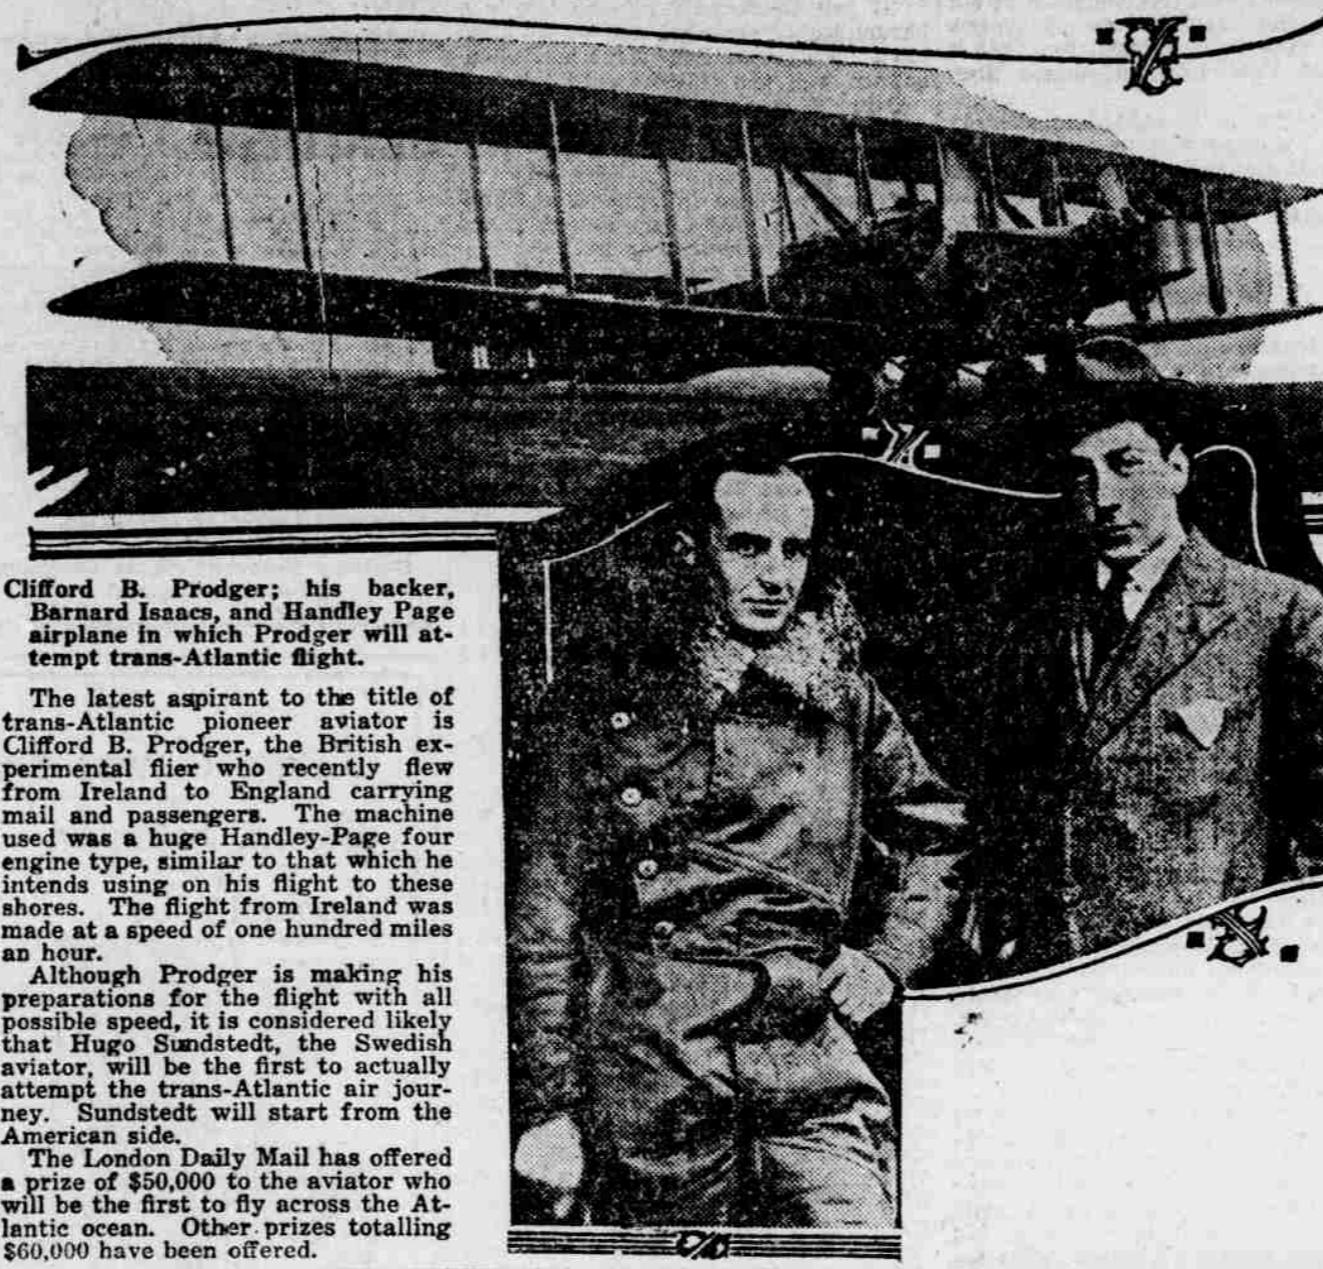

EMBARGO RESOLUTION DIES.

WASHINGTON, Mar. 3.—When the resolution of Senator Weeks of Massachusetts, calling upon the state department for information as to any steps taken in regard to Great Britain's import embargo was reached today on the senate calendar there was no effort to call it up. It died with the adjournment of Congress.

ANNOUNCEMENT TO THEATRE PATRONS

Interesting and considerable importance to lovers of the best in moving pictures will be the announcement that the Washington Theatre has just completed installation of the "Simplex Machine," with the famous "Extra-Lite" Shutter. This improved machine assures our patrons of the maximum in perfect picture projection and assures Washington patrons absolute protection against a fire, and has the endorsement of the National Association of Insurance Underwriters.

With this new scientific invention, all flicker is eliminated and a brighter, yet more "restful" effect is obtained. The equipment is identical with that placed on the "George Washington," the ship that carried President Wilson and his party to the Peace Conference.

Tests by foremost experts and critics have proven this newest invention an achievement that marks the greatest progress and development in the business since the first invention of a motion picture projector. With the "Simplex" it is possible for a greater amount of light to reach the screen than with other projectors as it has a carrying capacity that insures a strong, clear picture.

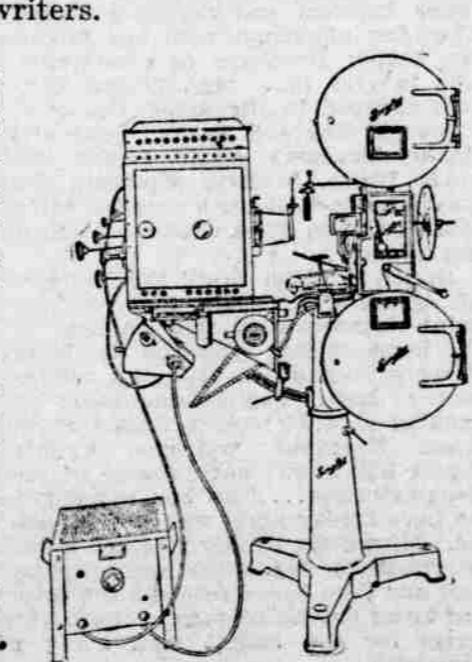

Demonstrations of the same picture thrown on a screen by two machines—one a Simplex—shows a wonderful difference. The picture thrown by the Simplex is much clearer, more distinct and gives great display of detail and it does this with a most surprising and agreeable "smoothness". All so-called eye-strain is eliminated and patrons are permitted to enjoy the pictures with the maximum degree of satisfaction.

This machine was installed in conformance of the policy of the management to at all times, regardless of the cost, to give Washington patrons the very best both in pictures and service.

Storm Causes Damage In Monroe Township

NEW PARIS, March 3.—The storm Friday afternoon did considerable damage to property in this vicinity in unroofing outbuildings and sheds, blowing down chimneys and smashing windows. In Monroe township, two school hacks at centralized schools were blown over and virtually demolished. Russell House was driving along the road in his buggy when the wind overturned the vehicle. Mr. House succeeded in keeping control of the horse but sustained some minor bruises. The buggy was not badly damaged.

On Friday evening, March 6, there will be a meeting of the Jefferson township Parent-Teachers' organization at the school house. Chairman E. R. Clark will explain the objects which the organization hopes to attain. County Superintendent W. S. Fogarty will be present and will talk on "Community Welfare." A round table discussion will follow on the subject, "How to Decorate the School Grounds." A committee has been at work drafting a constitution and by-laws. The president, Ed R. Clark, was for four years a member of the board of education of the township before centralization.
