

"MOONSHINING" IS SHIFTED TO CITIES IN EAST

Private Still Is Located in Many Residences Along Atlantic Seaboard.

WASHINGTON, April 9.—Moonshining rapidly is shifting from its traditional habitat in the mountain fastnesses of the South and Southwest to centers of culture in the thriving cities of the East, Treasury Department officials in charge of the enforcement of prohibition laws said today. Field officials are reporting a tremendous increase in the number of stills of less than five gallons capacity now being sold. They are locating them almost daily in full operation in residences, garages and other places in large cities.

Twenty-four of these "home" distilleries were seized in one town within a period of three weeks. The name of the town is withheld in order not to handicap the raiding officers, who are continuing the search. It is located on the Atlantic seaboard.

Outfits Found in Garage.
Four large outfits were found in one week in New York City recently. Three were found in a private garage in one of the largest Southern cities.

The manufacturers of small "home" stills are doing a thriving business as a result of the "dry" wave now sweeping over the country, officials reports indicate. The most popular is the kind that can be used in the kitchen. The stills are modern in all respects. Copper stills make them out of copper after the most approved methods. The purchasers almost invariably obtain them for water filters. "Have you a little filter in your home?" is becoming a popular slogan, Treasury officials declare.

A drive on city moonshining now is being planned. "Revenuers," who have spent years snooping about from one mountain top to another, doling the bullets from a hostile mountaineer's rifle, temporarily will abandon the chase for the telltale trail of thin smoke and odor of mash and slops, and seek their prey in the new scenes of moonshine activity.

Get Back Your Strength Quickly After the "Flu"

The System Needs Help in Repairing the Damage.

When you have finally recovered from the severest stage of the "flu" you find it almost impossible to get back your strength and vigor, and for weeks and weeks you still feel the disabling effects of the disease.

For the after-effects of the "flu" pervade the entire system, and leave the body out of gear. You are weak and sore and the nervous system seems thoroughly out of tune. Often the appetite is badly impaired, the stomach upset, and a run-down, good for nothing feeling seems to have possession of the entire body.

You must realize that you are not entirely out of danger until your full strength and vitality is renewed, and the system restored to such perfect condition that it will have its former ability to throw off disease germs that are always present.

But you cannot hope to regain your old-time vigor and strength unless you give nature assistance in repairing the damage that has been done to your system by this severe disease. Then, too, you want to avoid another attack of the flu, which is another important reason why you should do everything to put the body in such robust and perfect condition that you will not fall a victim to the epidemic which medical authorities predict will return next winter, with renewed severity.

New tissue must be supplied to renew the waste that has taken place, and this can only be

SEATTLE BUYS ENTIRE STREET CAR SYSTEM IN BIGGEST DEAL OF KIND ON RECORD

A. W. Leonard, left, handing Thomas F. Murphine the equivalent of \$15,000,000.

The city of Seattle is said to be the only city of its class in this country to acquire an entire street railway system. The largest transaction of its kind took place recently when President A. W. Leonard of the Puget Sound Traction, Light and Power Company transferred to Thomas F. Murphine, superintendent of public utilities of Seattle, the equivalent of \$15,000,000 in street cars, tracks, real estate and buildings. By the deal the city becomes the owner of 210 miles of tracks with the overhead and transmission systems, 540 street cars, \$1,068,000 worth of real estate and buildings and about \$500,000 worth of supplies and equipment.

REV. HILL ATTENDS OXFORD PRESBYTERY

OXFORD, O., April 9.—The semi-annual meeting of the First Ohio Presbytery of the United Presbyterian church, which includes southwestern Ohio and Wayne county, Indiana, was held here yesterday. Thirty-five congregations were represented by delegates. The Rev. J. S. Hill, of Richmond, was here for his church. The Rev. S. A. Livingstone, of Monroe, was

the moderator, and the Rev. R. A. Jamieson, of Morning Sun, clerk.

The delegates were entertained at dinner at the homes of Oxford members of the church, after which they enjoyed a ride through the village, and the grounds of the educational institutions. The principal feature of the meeting was the ordination of the Rev. E. N. Chandler of Stanton, Ky., who will be graduated this year from the Xenia Theological Seminary. Mr. Chandler preached two sermons, one in the morning and the other last evening.

Equal Rights for Women

Every woman has the right to be as healthy, vigorous and efficient as her husband, son, brother, or friend. Nature intended woman to be unhampered and unhandicapped by any sex weakness. But, unfortunately, woman is very predisposed to constipation, not of necessity, but due to faults or bad habits of omission or commission.

Constipation is nothing but a bad habit. Taking purgative, cathartic, or laxative medicines to force the bowels to move is another bad habit—even a worse habit.

But Nujol is particularly suitable for the overcoming of constipation and its resulting evils in women.

Nujol is not a drug—does not act like any drug.

Nujol acts by bringing about a readjustment of the mechanism provided and intended by Nature for the removal of food waste from the body.

Nujol is effective at any age, under any conditions, especially during those periods and conditions in which the use of purgatives, cathartic or laxative medicines is not only harmful, but dangerous. Nujol is safe, pleasant to take, sensible, agreeable in effects, never forms a bad habit.

Get a bottle of Nujol from your druggist today, and send coupon for free booklet, "Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
