## FROCK OF FIGURED CALICO IS DEMURE

The time has arrived for the mistress of the house to beg her home dressmaker to please save just a week or two for making over and making new summer frocks. Almost every dressmaker will find that she will have at least one figured calico frock to make this season and this is a charming and simple style to use. Red and white figured calico trimmed with black satin bows, and there you have it.

The would-be women voter in England must sign a form stating: "I hereby declare that I have attained the age of thirty." She does not have to give the exact age. To settle any age dispute, however, the authorities may demand a birth certificate.
