

## EIGHTY-FIVE OF "FINEST" ARE INSPECTED

Babes of Many Races, Degrees and Ages, But All "Perfect" Examined.

By EMMA L. FETTA.  
Whitewater, Warner, Finley and Sevastopol schools were the scenes of many a smile and a few walls of displeasure Monday afternoon when the babies of the community surrounding each of the schools were weighed, measured and examined by physicians assisted by the young women of the city.

A row of baby buggies parked outside each examination station was the advertisement of a lively time which was going on inside. The lively time was accompanied with good-natured, gurgles, open-mouthed objections, adorable and winning smiles, and a hum of conversation as mothers whispered "sweet things" into her baby's ear.

Consolation and encouragement on the part of mother and the young women who were assisting with the tests was met with various reactions on the part of baby, who was having an afternoon out and appreciated it according to his own notions.

Eighty-five of the "finest babies in town" were up for examination, and more than once a doting parent was told to his own surprise that his baby weighed more than he thought, or that some "mean old trouble" which had been pestering the baby had now disappeared entirely. Such news as this was worth the while of a trip up to the schools, a number of mothers agreed.

Love at First Sight.  
The cosmopolitan virtue of Richmond was no where more directly noticeable than at Whitewater school, where babies and little children of Italian, Austrian, Irish, Hungarian, Polish, colored and just American descent arrived for their yearly "once over."

A vivacious little Irish maid, who will be one year old next fall took a decided liking to a slightly older, but much more demure Italian girl. Although relations were rather strained at first, a complete understanding appeared to reign at the end of the conference. A very well colored baby also showed attachment for the colleen.

Another small baby, a twin emphatically explained to everyone by a generous and lasting howl, that she considered it no place for her and that her carriage should "home James!" immediately.

A beautiful specimen of a man, not yet three years old, employed time waiting for the doctor's attention by singing some operatic airs, or something, for the audience. When all the babies and others up to six took up the tune, the choral effect was beautiful.

No Baby.  
One seven-year-old was accosted as he was entering Warner building. "Are you going in to get weighed and measured?" was the question. "Certainly not," came the answer, cool and crisp. "I am above the age!" Due apologies were tendered.

## FLOWERED CHIFFON IS LINGERIE FAD

The lingerie modes are ever changing, but the flowered chiffon and georgette underthings which made their appearance early in the spring are still in high favor. Here is a set which one of the French shops is showing. It is pale green chiffon with dainty pink rosebuds scattered all over it. Satin fluting of an orchid shade is used with lace for trimming.

The number of babies examined yesterday was not quite equal to that of last year. Miss Ethel Clark, secretary of the Social Service bureau, said Tuesday morning. This is due, it is thought, to the fact that the examination last year was considered a war emergency measure. A large number of babies will be brought for examination at Starr, Valle, Hibberd, Joseph Moore and Baxter schools at 2:30 Wednesday afternoon, it is hoped, however.

The municipality of Portland, Ore., will engage in the construction of 5,000 houses at once as a means of absorbing the surplus labor and of utilizing some of the immense lumber supply of that state.

## Holland Is Warned By Allies To Hold Kaiser

LONDON, July 1.—The allied governments have represented to the government of Holland the necessity of taking steps to prevent the departure of the former German emperor from Holland. C. B. Harnsworth, under secretary of state for foreign affairs, announced in the house of commons this afternoon.

## Indiana News Brevities

EVANSVILLE.—John Likens, patrolman, made a rush at two men in an automobile whom he suspected of being bootleggers. They sped away in their car and left behind a safe belonging to the Newark Shoe company which they had taken from the store. The safe contained a large amount of money.

INDIANAPOLIS.—Six Indianapolis physicians, three Indianapolis dentists and three physicians from other Indiana towns have been indicted by the federal grand jury on a charge of operating "blind tigers."

LAPORTE.—B. F. Counselor and a Mrs. Tuttle, arrested on a charge of forging checks, were married in jail here.

FRANKLIN.—When they learned that the Rev. Mr. Clinard was at work in the harvest field, Addie Hibbs and John Haslam of Edinburg, drove into the field and persuaded the minister to stop shocking long enough to marry them.

EVANSVILLE.—Ten thousand "wets" went to Henderson, Kentucky, Monday, in the last liquor rush before the country went dry.

ANDERSON.—Floyd Flannigan, 22, returned soldier, was found dead in bed after eating half a cherry pie and drinking a pint of cherry juice.

ANDERSON.—Five thousand damages for alleged alienation of his wife's affections is asked in the suit filed by Ethor Mitchell against Herbert Kemple.

## ABINGTON WINS.

ABINGTON, Ind. July 1.—Abington opened its baseball season here Sunday by defeating Brownsville, 6 to 2. The manager of the Abington team has asked that teams wishing to book games address the manager Abington baseball team, Abington, Ind.

## PESKY BED BUGS

A MILLION BED BUGS. Just think a 35c package of the new golden chemical P. D. Q. (Pesky Devil's Quietness) is enough to make a quart and enough to kill a million bedbugs, no matter how large they may be, where they came from, their age, color or sex, and at the same time leaves a coating on their eggs and prevents hatching.

CUT THIS OUT. This new chemical can be had at any first-class drug store. A 35c cent package makes a quart of P. D. Q., and will go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.

KILLS FLEAS ON DOGS. It's fun to see the fleas drop off your pet dogs. KILLS CHICKEN LICE. No use for your chickens to have lice. A 35c package makes a gallon of chicken lice killer. Your druggist has it, or can get it for you.—Adv.

## News Dispatches From Surrounding Communities

## MRS. ROACH IS HONORED

Mrs. A. W. Roach has been appointed Indiana Director of Finances for the Central Division of the National Board of the Y. W. C. A. She received her appointment May 15, and has been visiting the various counties in Indiana making plans for drives similar to the one conducted in Wayne county. Mrs. Roach said Tuesday she would have further announcements concerning the work at a later date.

## Children's Ailments

DISORDERS of the stomach and constipation are the most common diseases of children. To correct them you will find nothing better than Chamberlain's Tablets. One tablet at bed time will do the work and will make your child bright and cheerful the following morning. Do not punish your children by giving them castor oil. Chamberlain's Tablets are better and more pleasant to take.

## C C CENTENARY CELEBRATION COLUMBUS (OHIO)

Described by William C. F. man, Associated with Paul B. Inc., New York, Chicago, Detroit, Boston.

God bless the women of world!

What wonderful work they perform—and how gently, genuine and unselfishly they perform it met in the Main Exhibition Building at the CENTENARY CELEBRATION COLUMBUS a fine, motherly lady who has devoted her life to directing a mission in San Francisco, where she gathers under her wing little children, most of whom have been abandoned by their parents, and the nurtures them and watches them and sees that they grow to young womanhood, protected with all the care and love that they would get if they were in homes of their own and loved by their parents as so many millions of other little children are.

This fine lady brought with her, as exhibits of the work done by her Mission, two little baby girls, just able to toddle around—one of them a little Chinese girl and the other a little Japanese girl. While I was talking to her the little Japanese girl toddled up alongside of me, took hold of my hand, looked into my face with the sweetest smile I ever saw—as much as to say, "You will protect and love me, won't you?"

And a little child shall lead them. This little baby girl led me around the quarters of the San Francisco Mission, trying to tell me in her own little way, "See how we are taken care of by this good lady. Look at me—a little waif, now wanted by either my parents or mamma's stranger, yet she took me in and clothed me and fed me, just as she does other little girls like me."

Am I too sentimental?

I confess that the confidence this little baby girl showed she had in me was a great inspiration and made me feel as it will you when you see her, what a grand work is being done under the auspices of the Methodist Church, which originated this Centenary Celebration, solely for the purpose of demonstrating to you, good people, what can be done for the helpless and homeless in countries throughout the world by just showing heart and interest in humankind.

I believe that this and other exhibits at the CENTENARY CELEBRATION COLUMBUS will profoundly impress you, besides giving you a liberal education as to conditions that exist in countries other than America, and will teach you how necessary it is for the American people, endowed beyond all other peoples with the world with rich blessings and opportunities, to give serious thought to the unfortunate and to help them in every way they can.

There is nothing but brightness, to be seen everywhere at the Ohio State Fairgrounds, where the Centenary Celebration is staged. None of the gruesome things of life are shown. You see everywhere the evolution that has taken place in many countries of the globe where human hearts and hands and brains and human sacrifices have been employed to uplift humanity.

All of these good things are impressed on your mind without any attempt on the part of anybody to do so. The pictures are there—the blackboards, so to speak; and pictures and blackboards never misrepresent.

You cannot fail to get into the spirit of this great Centenary Celebration Columbus. You are bound to think that it is the most wonderful exposition you have ever seen. Just as I think it is—and as anybody else that has seen it thinks it is.

With the strains of music from the "Brotherhood of the Future" Band of Colored Boys—from the Trombone Chorus of one hundred pieces—from sixteen negro quartets—from the great pipe organ in the Coliseum that peals forth wonderful strains under the artistic touch of one of the greatest organists in the world—from the great chorus of 3000 human voices that sing while the great pageant is shown in the Coliseum—and finally from Cincinnati's Symphony Orchestra, consisting of seventy-five pieces—you can understand why everybody who visits this wonderful exposition goes away thrilled—and filled with deep appreciation of the master minds that planned the Centenary Celebration Columbus.

You will miss the greatest opportunity of your life if you fail to witness this Centenary Celebration.

We are in the summer season, when the days are long and happy—when it is easy to drop our work for a day or two—so why not set aside the time necessary to visit Columbus and spend all the time there witnessing the marvelous features of this really Big Show.

General admission is only 50 cents, which carries you through the whole day, but in the evening you will wish to see the great pageant in the Coliseum and that will cost you 50 cents extra—that's all—but if you start early in the morning and continue until 11 o'clock at night—costing you one dollar all told, you will gather for yourself a greater amount of pleasure and contentment and information than one dollar has ever bought you before in all your life.

But it's not the dollar—it's not the receipt the management wants for they do not plan to make one penny out of it. IT WANTS YOU to see for yourself what great good is accomplished in the world when heart and brain co-operate.
