

Complete Cost Saving Service for Truck Owners

Our service is based upon three fundamental things which affect trucking costs:

1. Selection of Tires.
2. Application of Tires.
3. Inspection and Care of Tires.

We analyze your loads, your roads and your work, and determine accurately the proper type and size of tire needed.

We sell Goodyear Solid Tires, Goodyear Cushion Tires, and Goodyear Pneumatic Cord Truck Tires because we believe in their quality and know they do wear a long time.

Then the tires are applied according to a carefully worked-out method which means absolute accuracy as well as speed and safety.

We have ample parking space, a big hydraulic press, capable workmen and well-equipped workshop. Arrangements can be made, if desired, to do the

work at night or on Sunday to save layup.

After the tires are in use we inspect them for you at regular intervals. Tires need care just like the engine and we know of many ways to help you prevent tire trouble and consequent loss.

Our men make regular reports to you of each tire's condition and watch for signs of driving abuse.

This service does keep truck costs down. It does give you better cartage results. So let us send a man—an expert—who can go over your trucking problems with you and explain further the savings we can effect.
