Great Change In Naval Aviation, Says McNeely

Commercial aviation is in its infancy and hundreds of young men throughout the country are taking the navy training with a view of getting in on the ground floor of this most modern profession, says Recruiter McNeely. This year the Navy department has decided to pick a large number of pilots from the enlisted force, while the navy aviation schools are turning out trained mechanics, photographers, gunners and etc., who find quick promotion waiting for them. McNeely sees a big chance for promotion in this branch.

Cost Of Living Soars For Mexicans, Too

MEXICO CITY, July 22.—In the past nine years the cost of living in Mexico has shown an average of 212 percent, according to figures recently made public by the Department of Industry, Labor and Commerce. Several staples have greatly increased. Lard has advanced 525 percent. in price; sugar 233 percent and eggs 266 percent.

Woolen fabrics now cost 471 percent more than in 1910; cotton goods 300 percent, more and shoes 165 percent more. House rents have increased 140 percent; trolley fares 65 percent and railroad fares 20 percent. Native shoes cost \$4.50 a pair in 1910. Today they are \$12.90 a pair.

INFORMAL GOWN OF CREPE METEOR HAS GRACE AND BEAUTY

The woman who is starting her fall wardrobe could not find a more charming and graceful afternoon or informal gown than this model of crepe meteor. Heavy flat cord applied in oriental design forms the trimming and the vestee and collar are of cluny lace. The mandarin blouse with its loose kimono sleeves is a feature which will be seen on many of the newer afternoon gowns.

Pomerene Condemns Plumb's Rail Plan

WASHINGTON, Aug. 11.—Severe condemnation of the plan of railroad ownership advocated by the railroad brotherhoods, known as the Plumb plan, was voiced by Senator Pomerene, of Ohio, Democrat, in a letter sent to the Ohio railroad men yesterday.

Senator Pomerene's letter was in reply to a communication from a committee composed of James C. Harkins, Frank Spicer, J. W. McDonald, H. E. Wright, G. A. Stephenson and S. T. Hamilton, representing the Hocking Valley Federated System No. 51, with headquarters in Columbus. Writing to the senator, they said that "no doubt he would be pleased to know of the interest their membership is manifesting in the masses of the public."

"The Plumb plan," said Senator Pomerene in his reply, "is the most vicious piece of legislation that has been presented to congress since I have been in the senate."

President To Give Peace Documents To Senate

(By Associated Press) WASHINGTON, August 2.—Documents used by American used by the peace delegation at Paris and which have been sent to this country will be transmitted to the senate Monday by President Wilson in response to requests of the Foreign Relations committee. The president had intended to send the papers to the capitol today but the senate was not in session.

Musicians And Stage Hands To Join Strike

(By Associated Press) NEW YORK, Aug. 11.—The probability of the musician and stage hands striking in sympathy with the actors, members of the Actor's Equity Association, who have been able to close ten New York theatres, added interest to the situation today.

At a conference at the offices of the Actor's Equity association, attended by Joe Weber, head of the musicians' union; Charles C. Shay, president of the International Alliance of Theatrical Stage Employees, and Hugh Frayne, organizer for the American Federation of Labor, and officials of the Actor's organization, the question of the sympathy movement was to be decided.

One more playhouse will be dark tonight owing to the strike but two or three of the ten already closed have been reclaimed by the managers, it was announced today.

A series of strike benefits probably will begin this week. The shows will be given by the stars and other players now on strike. For these entertainments of course the actors will not be able to secure any Broadway theatres and may reopen Daly's or appear in one of the Hebrew houses affiliated with the American Federation of Labor.

WILSON TO REVIEW MARINES.

BAKERS TO RESUME WORK.

LONDON, Aug. 11.—The bakers' strike, which had been in progress a long time, ended Sunday. The men agreed to resume work Sunday on the understanding that the strikers would not be penalized for refusing to work and that the Government introduce a bill at the earliest possible moment abolishing night baking.

NEW ANGLE GIVEN AMERICAN FIGHT

(By Associated Press) NEW YORK, August 11.—The rival forces in the American league fight occasioned by President Ban Johnson's suspension of Pitched Mays, engaged in parliamentary skirmishing today preparatory to the hearing in the supreme court tomorrow on the injunction to restrain Johnson from interfering with Mays playing with the Yankees.

The New, Chicago and Boston clubs had representatives here for the meeting called by the New York owners to discuss the Mays case. Johnson arrived in New York yesterday from Chicago. One of the employees of the New York American league club was waiting on the platform and as soon as Johnson appeared he was served with papers in the injunction proceedings. The announcement by Tris Speaker, manager of the Cleveland club, that he would protest the Yankee's victory at the polo grounds yesterday, on the ground a field rule had been violated, provided a new angle to the already bitter controversy. Speaker holds that the ground rule was violated in the first inning when Pipp went from first base to third on a hit to left field, when Graney, the Indian outfielder, threw the ball over Steve O'Neill's head into the Yankee dugout in an effort to catch Frank Baker at the plate. Speaker contends that as the ball rolled into the players' bench, Pipp should have been allowed to go only to second and that Baker should have stopped at third.

Pick Cucumbers Often

F. W. Wesler, Garden Supervisor. Pick your cucumbers as soon and as often as they have developed to a desirable size. Use some of the small ones for pickling, and leave only a few to develop for table use. By continually picking the cucumbers you will give the vines a chance to develop new ones and thus harvest a larger crop from your plants.

The buds of the flowering cucumber plants as well as tomatoes, peppers and squash are very apt to drop before they set their fruit; this happens on account of too much rain or giving plants too much artificial water. Too much heat may affect them in the same way. Be careful not to apply too much water, and never direct a forced stream against the flowering plant. A screen of lattice work or cheesecloth will help to protect these plants from the intense heat.

Keep up the battle against the weeds. This is the best time to kill them, before they develop seeds that

will propagate thousands of new weeds.

Whiskey No Asset, Is Ruling In Law Suit

(By Associated Press) LOUISVILLE, Ky., Aug. 11.—Under war-time prohibition whiskey is not property, or at least has no marketable value, and hence cannot be included in a schedule of assets submitted to a referee in bankruptcy, according to the plea submitted for a bankrupt Louisville saloonkeeper, by counsel who asserts that such liquor can only be held by a person for his own use.

The plea is regarded as extremely novel and one which might add considerably to the war-time prohibition legal tangle.

"There's a Reason"

Not new —simply washed with Fels-Naptha Soap

Fels-Naptha may add an extra season's wear to those waists, skirts and dresses you are thinking of throwing away.

Give Fels-Naptha a chance. Set the clothes to soak for about a half hour in a tub or washing machine. The naptha will dissolve the dirt. You will find no boiling is necessary.

When your washing machine churns naptha through the clothes every single thread gets some naptha and a complete cleansing is the result.

No wonder the garments come from your tub or washing machine fresh and bright when Fels-Naptha is used.

"Some Hints on Keeping Things Clean"—a helpful book sent free on request to Fels & Co., Philadelphia.
