**Use Bread For Higher Priced Foods, Advice**

NEW YORK, Aug. 12.—The revival of the American housewife's war-time conscience in administration of the family table and substitution of bread for higher priced foods such as meat, eggs and butter, as a means of reducing the high cost of living, were advocated by Julius H. Barnes, United States wheat director, in a statement today.

Commenting on the government crop report for July, which shows the unprecedented loss in crop prospects of 221,000,000 bushels, Mr. Barnes declared that any further reduction in flour prices "must be based frankly upon a policy of food subsidy," not authorized by congress in the wheat act.

"The American housewife can work out substantial relief in a natural way. The flour consumption of America fell from its normal of 235 pounds per capita to 171 pounds during the last year. This proves conclusively that bread, which is cheap and wholesome, was displaced in the diet by higher priced goods."

"More than that, the reduction of strain on higher priced foods such as meats, eggs, butter, would by very reduction of demand probably secure a lowering of the price level in these foods."

**British Government Is Plotting Against Labor Charges Workers Organ**

(By Associated Press)  
LONDON, Monday, Aug. 11.—That the British government is organizing a sinister secret plot against Labor and is conducting systematic spying activities on the actions of workers is a charge that is featured today in the Daily Herald, the labor organ, which connects with this alleged movement recent official reports of Bolshevik conspiracies as part of the scheme.

According to the story printed by the Herald, the military intelligence department of the war office is being used for industrial spying under the control of the home office and Scotland yard.

Every attempt, say the newspapers, is being made to undermine the labor movement by sowing mutual distrust in the ranks of the workers at the same time that the police force and the army are being "purged."

Over a third of the population of Dublin consists of families living in a single room.

**CONDUCTOR PAID OUT HUNDREDS OF DOLLARS, HE SAYS**

Nothing Helped Him Until He Took Tanlac—He Gains Twenty-two Pounds.

"I have not only gotten rid of one of the worst cases of stomach trouble a man ever had, but I have also gained twenty-two pounds in weight besides, and you may know by that what I think of Tanlac," said Robert Surges of 663 Herman street, Burlington, Wisconsin, in a conversation with a special Tanlac representative at the Central Drug Store in Milwaukee, recently.

Mr. Surges, who is running as conductor on the East Troy and Burlington Electric Line, between Milwaukee and Burlington, has been with his company for many years.

"For the past thirteen years, that is until Tanlac straightened me out," he continued, "my stomach had been in such a bad fix that I could not eat a meal without bloating all up with gas, and many a night I have been up walking the floor on account of the misery caused by it. Last winter I was in such a bad shape and so run down that it took me twenty minutes, after leaving my run, to walk home, a distance of only four blocks. I was dreadfully short winded and the gas pressure on my heart was frightful. I was very bilious and had frequent dizzy spells and terrible headaches. I couldn't sleep, was afraid to eat and had dropped down fifty pounds in weight, and hardly had energy and strength to ring up the fares on my car."

"I have been treated by specialists, took all sorts of medicines, and paid out hundreds of dollars trying to get something to set me right, but nothing seemed to reach my trouble until I got hold of Tanlac, and this medicine has proven to be just what I have needed so long. I am never troubled with gas in my stomach, pains, shortness of breath or any other bad feelings after meals now, and I can sit down to the table and eat just anything and enjoy it. I sleep good and sound every night and have gotten so strong and well that my work is no trouble to me any more. I am just like a new man and have heard lots of people who ride my car remark about my wonderful improvement. Tanlac is great and I have the best of reasons for praising it."

Tanlac is sold in Richmond by Clem Thielthwaite, in Greensfork by C. D. Somie, in Cambridge City by Mr. Dean House, in Pershing by Sourbeer & Rodenberg, in Centerville by Centerville Pharmacy, and in Milton by W. L. Parkins.—Adv.

## Easthaven Given Relief By Stansbury Ruling

The opportunity given state institutions now in need of immediate funds, to draw upon their appropriations for the next fiscal year will give much temporary relief to the situation at the Eastern Indiana Hospital for the Insane, Dr. S. E. Smith, medical superintendent of the hospital said Tuesday morning.

As the special session of the legislature was not called the opportunity for passing a state emergency fund for the suffering state institutions was lost, and the method of drawing on next year's appropriations was adopted and announced recently by Attorney General Stansbury as the best way out of the situation.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. ## TOWNSHIP RATE \$.60 NEXT YEAR

Wayne township's tax rate for next year, outside the city of Richmond, will be approximately 60 cents on each \$100 valuation, according to J. O. Edgerton, township trustee. Although the township budget has not been completed, Edgerton based his estimate on the increase in valuations and the tax rate of last year.

The township's rate will be the lowest in the county, and much lower than last year, in the opinion of the trustee. Increases in the valuation of Richmond corporations, and in personal property will greatly reduce the township rate, where the increase in the total valuation was not so great.

**Ohio Electric Strike Not To Affect Interurban Here**

Richmond's interurban connections with the east are not to be affected in case of a strike, for which men belonging to the interurban workers' union, are said to have voted Monday night in Dayton.

The men belonging to the union all work on the Dayton-Springfield division, and the service on the Richmond-Dayton will probably be uninterrupted.

The men ask for wage increases of 10 cents an hour. The men have been granted recognition of their union so far as the carmen are concerned, union officials said, but it has been refused to shopmen and sub-station men. A strike vote, taken in Zanesville, indicates that they will strike there also.
