

U. S. WARNS MEX. LEADER; CHANGE IN POLICY COMING

WASHINGTON, Aug. 14.—Warning that there would be a radical change in the policy of the American government regarding Mexico if the Carranza government continued to fail to protect Americans in that country, was contained in a note sent to the Mexican foreign office July 22.

That the note had been dispatched was disclosed today by the state department, together with the information that in its reply, the Mexican government had said that everything possible already was being done to protect foreigners.

There was a suggestion that unless foreigners concentrated in populous places, it would be impossible to afford protection demanded.

Carnegie Never Gave To Morrison-Reeves Library

No contributions for the Morrison Reeves library have ever been received from Andrew Carnegie, as is the impression of some few persons. The Morrison Reeves library is strictly a Richmond library. In 1864 the Morrison and Reeves families gave \$50,000 for a city library. It was remodeled in 1893.

Richmond has had a city library ever since 1824, which always has been considered, a splendid library, comparing favorably with any of the Carnegie libraries in the state.

A finish wrestling match between Frank Chanos, a local wrestler, and Kid Stecher, one of the carnival wrestlers, will be held at the Athletic arena Friday night. As a result of the \$100 purse for the winner, much interest is being taken.

Soot From Ice Company Chimney Annoys Families, Is Plea to Works Board

The resolution for the improvement of the alley between North Twelfth and Thirteenth streets, from C to D streets, was confirmed at the meeting of the Board of Works, Thursday morning. The report of the engineer on the improvement of the alley on South Fourteenth street, was approved and accepted.

A complaint was received from Mrs. Elden Brown that a local ice company blows out flues, causing the soot to be a nuisance to the neighborhood. The board directed the clerk to communicate with the company to determine whether or not anything could be done to evade his.

One week from the date of the letter sent out by the city clerk will be allowed Abraham Harsch to remove the tile which is piled in front of the Tiger Coal and Supply company, 120 South Third street. Complaints have been made that women are afraid to pass there at night.

The request of Mrs. W. H. Middleton to change the alley on West Seventh street was not granted by the board because it felt it would be a detriment to the future of the city park on West Seventh street.

R. LIFORD HAD GIVEN UP ALL HOPE, HE SAYS

Rheumatism Started in His Fingers and Spread Over Entire Body.

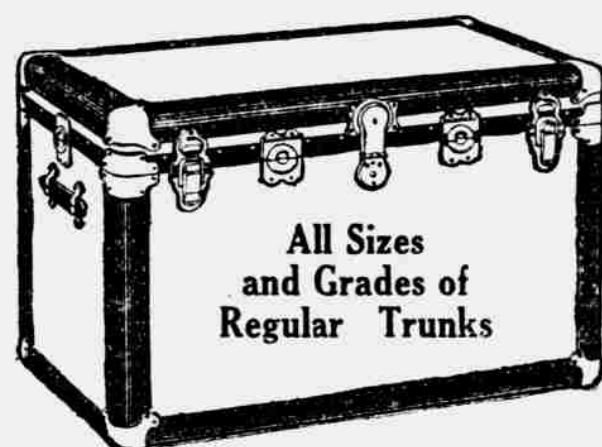

"I have been trying for five years to find a medicine or treatment that would give me some relief from my suffering, but my efforts failed completely until I commenced taking Tanlac," said Robert Liford, a well known employee of the Indianapolis Abattoir company, and who lives at 109 South Concordia street, Indianapolis, the other day.

"During all that time," continued Mr. Liford, "I suffered something awful from rheumatism. The trouble first started in my fingers and just gradually spread over my entire body. My knees and the muscles of my legs would swell terribly, and very often my hands were so badly swollen that I couldn't straighten my fingers out at all. When I commenced taking Tanlac I couldn't put my coat on by myself and couldn't put my hands to the back of my head. My kidneys were out of order all the time, too, and I would have such awful pains in the small of my back that I had to lose lots of time from my work. I couldn't get out of bed in the mornings without a chair or something to lean on. I tell you, I was in bad shape, and the medicine and treatments I took didn't do me any good at all, and I had just reached the point where I had given up all hope of ever getting over my troubles.

"I read in the papers one day about a man who suffered from kidney trouble, and had been greatly relieved by taking Tanlac, so I decided to see what it would do for me. I wasn't thinking about Tanlac doing my rheumatism any good, but was taking it solely for my kidneys. Well, sir, the rheumatism left me just like all the rest of my troubles did, and I am as well and strong now as I ever was. All that soreness and swelling is gone from my joints, and you can see for yourself that I can straighten out my fingers, and they are as nimble as can be. The pain is gone from my back, too, and I just feel fine and dandy all the time. I haven't had such an appetite in years, and have gained ten pounds in weight already. I go to sleep as soon as I hit the bed at night now, and I never open my eyes until I am called for breakfast every morning. I have gotten back my strength and energy, and never lose any time from my work. Tanlac is the best medicine I ever came across. In my life, and I am more than glad to recommend it to others."

Tanlac is sold in Richmond by Clem Thistlethwaite, in Greensfork by C. D. Somrine; in Cambridge City by Mr. Dean House; in Pershing by Souter & Rothenberg; in Centerville by Centerville Pharmacy; and in Milton by W. L. Parkins—Adv.

A Home of Moderate Cost

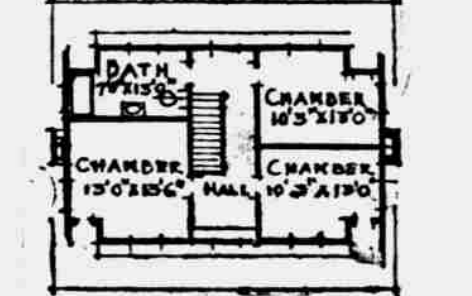

Plain and simple, this house has a very pleasing appearance, and as the architecture tends toward the Colonial, it gives a very homelike effect. The hall is provided with a deep coat closet—a great convenience that is often overlooked in the designing of a small house. The large dining room has a fireplace as the central feature. French casements on both sides of the living room lead to a side porch that overlooks the garden. The dining room, pantry and kitchen are of sufficient dimensions for a house of this size.

The second floor is divided into three bed rooms and a bath, each room containing a closet. The bath room contains a built in tub. The house is of frame construction and costs about \$4,800.
