## Goodyears Go 22,000 Miles —Still Serve Local Firm

*"The two Goodyear Solid Truck Tires which were purchased from and applied by you on February 18th, 1918, and used on our No. 5 truck have given us more than twenty-two thousand (22,000) miles and from their present appearance seem good for several thousand miles more. We are so well pleased with Goodyear Truck Tires that we will use no other kind on any of our trucks." —Jesse Hamilton & Sons*

IF you are interested in trucks it will pay you to take a look at the Goodyear Solids on the truck of Jesse Hamilton & Sons.

Those rugged veterans have had 22,000 miles of travel over every kind of road in Kentucky, Indiana and Ohio.

Yet despite this long term of service under maximum loads these tires are smoothly worn and good for many more miles.

Is your trucking any more damaging to tires than this? Can you question, then, the ability of Goodyear Solids to profit you?

Let us put a set of them to work for you. We will give you expert help in selecting the proper size, for we sell tires according to the work they must do.

And tire application will not require great loss of your hauling time; for our

work is both efficient and speedy.

Moreover, with each Goodyear Tire that we apply for you goes a service of inspection that will help you to avoid a lot of common tire destroyers.

Goodyear Truck Tires thus supplemented by Goodyear Service will effect the solution of *your* tire problems. The sooner you adopt them the sooner your profit will begin.
