## FARMER CLARK COULD HARDLY DRESS HIMSELF

Tanlac Ends Ten Years Rheumatism for Farmer Clark—Gains Eighteen Pounds.

"There; that's the stuff that set my stomach and kidneys right and drove the rheumatism out of my arms and legs after I had suffered torture for over ten years," said L. H. Clark, a well known farmer of Brimfield, Illinois, as he pointed to the Tanlac display in the Suttiff & Case store at Peoria, recently.

"My neighbors will tell you," he continued, "just any time you ask them, that they never saw a man come out like I have. Why, I have gained eighteen pounds in weight and can do more work than at any time in ten years. Before I started on Tanlac my stomach seemed to be almost completely played out. Every bite I would eat would get as sour as vinegar and pretty soon gas would form and cause such awful cramping pains that I could hardly stand it. Then I would get so dizzy that everything seemed to be whirling around. The minute I would lie down at night and close my eyes everything seemed to start turning over. I finally got so I couldn't eat much of anything and I was so run down and weak that I couldn't work regular. I always managed to drag around and do the little work about the barn until my kidneys got out of order and I got the rheumatism, and then I was laid up for weeks at a time. I've seen the time when I couldn't have walked from the house to a barn to save the best horse I've got. I was just so crippled up with rheumatism. My legs were swollen up twice their natural size and I couldn't take a step without suffering like 'blue blazes'."

"My back was in such a bad shape with rheumatism that if I stooped over to pick up anything I would just see stars, and there were weeks at a time when I had to be perfectly quiet. I could hardly dress myself, and went down so fast that no one thought I would ever be well again. Well, I was just about ready to give up the fight when at last I ran across this Tanlac. After I commenced taking the medicine I soon started gaining ground, and it wasn't long until I was well on the road to recovery. I found that it was just what I needed and I never allowed myself to miss a dose. Well, the results are that I am now perfectly sound and well and know what good health is for the first time in ten years. My kidneys don't bother me any more and I never feel a sign of rheumatism, and I sleep so sound that the horses might kick the barn down and I don't believe I would hear them. Yes, sir, it's Tanlac and nothing else that put me on my feet, and I appreciate it enough to tell the world what I think about it."

Tanlac is sold in Richmond by Clem Thistlethwaite; in Greensfork by C. D. Sornine; in Cambridge City by Mr. Dean House; in Pershing by Sourbeer & Rodenberg; in Centerville by Centerville Pharmacy; and in Milton by W. L. Parkins.—Adv.

Simms, Mrs. Anna Davis and Mrs. Elkins Maroe will leave tomorrow morning for Muncie where they will attend the state convention of Daughters of America.

## Three Popular Acts Appear on Murray Theater Bill

If the vaudeville bill which opened yesterday at The Murray for the first half is any criterion of what will be booked this season, then local vaudeville devotees may be assured of something extraordinarily good. This show fairly captured a capacity house last evening, all three acts going over immensely. Gilbert and Sany two young men with "the talking violin" and an accordion scored the first hit. One of the boys really makes the instrument "talk" and this novelty scored tremendously. Davis and Walker, a colored team offered songs, dances and comedy talk in a manner which delighted the house. They took six bows in acknowledgement of the applause. Tom Brown lives up to his reputation as a producer in offering "The Seven Musical Highlanders." For distinct class and ability, this act will rate with any of a similar nature on the Keith circuit, and the audience quickly recognized their standard quality. They dress in the conventional kilts, and offer selections upon various instruments including their native bagpipes. A number of solos, vocal and instrumental are introduced, each being warmly received. Their closing scene the songs of the nation's dis-closing the Statue of Liberty in New York harbor brought rounds of applause. This bill closes Wednesday night.

**Circuit Court Records**

Suit to recover \$540 for work and service has been filed in circuit court by George and Charles Petty against George M. Sowers. According to the complaint Petty brothers were hired as agents to purchase a farm for Sowers, but after the purchase had been made, Sowers refused to pay the agent's commission for their work.

Oil firing under boilers is now universally used in Mesopotamia, and coal which is extremely dear, will finally be displaced everywhere.

## Vegetables Travel by Mail; Make Traffic Heavy

The mail for the month of August, this year, is heavier than any time in the history of the local postoffice, for the same month, said Postmaster Beck, Monday.

"Much of this is due," said the postmaster, "to the vast amount of shipping of home grown products, such as melons, tomatoes, etc., and the fact that people have enough wealth to enable them to ship such commodities via the mail route."

"Also this is the month when many of the mail order houses send out their fall catalogues."

## Demand for Fruits Grows; Lemons Lead

C. Mercurio, proprietor of Mercurio & Sons, commission merchants, reports that the sale of lemons has increased 20 per cent this year. The former drinkers have taken lemonade as a substitute, says Mercurio. Because of the increased demand, merchants predict a shortage of this fruit. All fruits have increased sales within the last two years, and according to Mercurio, the sale of fruits on Saturday, which is the largest selling day for the retail trade, has increased fifty per cent this year.

## A Coal Summer or A Cold Winter?

The talk of a COAL SHORTAGE is no idle jest—already it has appeared in the papers.

The wise man is taking the hint. He FILLS his bin now.

There are not very many "tomorrows" between summer and winter—between coal and no coal—between comfort and discomfort.

Is there any reason for delaying?
