Cattle Prices Drop;
Greater Fall Predicted

CHICAGO, Aug. 28.—A drop of \$1 per 100 pounds on the average for hogs, with lower prices for beef cattle at the stockyards today was ascribed to several reasons, including the general protest against the high cost of living. Market men said that tendency was for still lower hog prices, particularly after the fall marketing, and they professed to see a break in high living costs.

The public has curtailed its buying of pork and beef recently while livestock receipts are large. The Eastern market failed to act as an emergency outlet and the packers virtually withdrew their demand from the pens today, leaving thousands of hogs and cattle without buyers. Speculators were hit hard.

MOVE AGAINST

(Continued from Page One)

advice, especially because of a public statement recently made by him, in which he accused the Mexican people of lack of patriotism at this time. This statement was made in view of the recently published declaration that eighty percent of the Mexican people would look upon American intervention with indifference and ninety percent of the educated class would welcome it. One of the Mexico City papers said that from the first year children in school are taught to "bear ill will toward the United States."

"As years go by," continues the article, "and we grow older," they talk of us about the two sister republics inspired by the same ideals, economic and diplomatic relations. Then one day along comes a government official who for his own improper ends attempts to incite and excite the people by demanding that we organize manifestations against the white house. Why? Because of the errors committed by our own government. Then the next day, because it suits a new turn in political affairs, we are told to go easy, and we never know the reason."

It is pointed out that Huerta used this maneuver to increase his military force saying that they would be sent against the Americans then occupying Vera Cruz; but the recruits were sent against Villa and Carranza in the north. The newspaper article continues:

"The complaint about patriotism, which is non-existent in Mexico, is only called up by such fellows as Carranza. Everyone in Mexico wants an honest settlement of the petroleum question but Carranza and his allies tries to antagonize the people's wishes."

CONCESSION IS MADE

MEXICO CITY, Aug. 28.—The petroleum committee of the Mexican senate today presented a report on legislation regulating article 27 of the constitution of 1917, which nationalized oil lands and at the time laid before the senate a draft of a law regulating this article and eliminating all retroactive effects of proposed oil legislation. The report is a concession for which foreign oil interests have been contending. The proposals submitted by President Carranza last November, looking to the regulation of article 27 are now being considered by the Chamber of Deputies without decisive action as yet.

The senate committee's draft of the law is based on the president's proposals but makes important changes in the plan of the chief executive. These are embodied in section four of article three, which provides that oil lands privately owned or leased shall be nationalized except all private properties regarding which there have not been made contracts for the exploration and exploitation of the subsoil before May 1, 1917 (the date when the president's constitution became effective) and also those where the owner of the surface has not shown by positive acts before this date that his intention has been to use substances derived from the subsoil.

Eldorado and Eaton
To Clash at Eldorado

ELDORADO, O., Aug. 27.—Eldorado meets the newly organized Eaton team Sunday, August 31, at Eikenberry Field. This is the first out-of-town game the Eaton team has booked, but judging from the few games it has played, it is thought a fast game will be staged Sunday.

Labor Day, Eldorado plays the Liberty Miller-Kempers a double header at Liberty.

GRAIN QUOTATIONS

WAGNER'S GRAIN LETTER

CHICAGO, Aug. 28.—Hogs reported one to two dollars lower and the \$16 hog appears to be near. The action of the rail shop men leaders in ordering the men back to work is also an acceptance of the government's promise to cut living costs. Best hogs are now \$15.25 to \$18.75; lower grades near \$15 to \$18. More Texas corn is being offered the north. A difficulty in providing rallies rests the idea that this liquidation is really a national move to restore labor calm. From this angle bulges may be small.
