

SEPTEMBER 4 IS TIME LIMIT FOR PREBLE PRIMARY

Candidates Expected to Rush
for Petitions First of Next
Week.

EATON, O., Aug. 28.—Candidates for village and township officers, outside of Eaton, at the November election must be selected, or nominating petitions filed on or before September 4, the time limit.

Eaton's nominating primary was held early in August. All villages other than Eaton, in Preble county have less than 2,000 population and candidates for office must circulate petitions and secure a certain per cent of the electorate in order to get on the official ballot in the November election.

C. O. Fisher, clerk of the county election board, states that each candidate must secure at least twenty-five names of electors on his petition in order to get on the ballot in the coming general election.

As the time limit for filing petitions with the election board is not more than one week ahead, it is expected there will be a grand rush of candidates the forepart of next week.

The Republican of Lewisburg and Harrison township have at this time a complete corporation and township ticket that are ready for certifying to the election board. The other villages and townships have not completed their tickets, so far as can be learned.

CAMPAIGN ON PRICES BRINGING RESULTS

(By Associated Press)
WASHINGTON, Aug. 28.—Belief that definite progress in the government's campaign against the high cost of living is expressed by Attorney General Palmer in announcing last night that the Department of Justice is meeting with success in obtaining from shoe manufacturers promises as to fixing a maximum price on shoes.

With reports to the department indicating that a slight downward trend in prices already has set in, although it is not yet sufficient to be reflected in spot purchases on the retail market.

Mr. Palmer declared that given a fair chance efforts of the government to squeeze the inflation out of prices soon will show substantial results. Expressing satisfaction with the success so far attained, the attorney general said he believed cumulative results will follow enactment by congress of amendments to the food control law providing criminal penalties for profiteers and hoarders.

Efforts of retail merchants to stimulate buying by predicting higher prices next season on clothing and other non-perishable articles were condemned by Mr. Palmer, who warned the public not to be stampeded by this propaganda into a "buying hysteria." Extensive purchasing now, he said would make such predictions come true.

For Skin Made Flabby and Wrinkled by Heat

Sun, winds and flying dust often cause skinning and other contortions which make wrinkles. You can quickly get rid of every line, however caused, by using a harmless wash lotion made by dissolving an ounce of powdered salolite in a half pint of witch hazel. The ingredients can of course be had at any drug store.

When depressed by the heat and you want to freshen up quickly, for the afternoon or evening, bathe the face for a few moments in the salolite lotion. You'll find this more refreshing than an hour's rest. It is fine for overcoming that appearance of flabbiness so common in hot weather.—Adv.
