Special Cruise of the U. S. Battleship Fleet

Plans are now being formulated for an extensive cruise of the U. S. Fleet in the fall, to give the men in the service an opportunity to visit various ports, as a reward for the excellent service performed during the period of hostilities; and it is believed that a large number of men in civil life may wish to avail themselves of the opportunity to enlist for this cruise. Plans are now being made so as to enable men to enlist for this cruise, but at present are not complete.
