

WOMAN'S CLUB TO RECONSIDER LEAGUE RESOLVE

Debates Held Over Resolution
—Referred Back—May be
Sent to Senate.

Although a majority of the 220 women present at the luncheon and business meeting of the Women's Departmental club Wednesday rose in favor of a resolution urging the speedy ratification of the League of Nations by the senate, a question was brought up before the vote of the "nos" could be taken, which finally resulted in a reconsideration of the motion. A special meeting will be called by Mrs. Paul Comstock, president of the club, at an early date for final action.

Sponsors of the resolution included Mrs. Stephen Markley, who presented it, Miss Sarah Hill, Mrs. Paul Ross, Mrs. D. W. Dennis, Mrs. S. E. Smith, Mrs. Benjamin Johnson, Mrs. D. W. Scott, Mrs. A. W. Roach, Mrs. W. H. Roney and Mrs. Charles Bond.

The resolution follows: "Whereas, We, the members of the Women's Departmental club of Richmond, Ind., believe that the controversy about the proposed League of Nations is one of the most important that this nation has ever been called upon to decide, and the peace of the world is the legitimate interest of every woman in the world, whether mother, wife, sister or daughter of those who have been or may hereafter be called upon to hold their lives in sacrifice for a nation's freedom; and,

Hope No More War. "Whereas, We hope that the sacrifices of this war may not have been in vain and that future generations may never be the victims of another such wanton attack against their peace; and,

"Whereas, This League of Nations was produced in its present form after many months of earnest labor and conference by the representatives of twenty-seven nations, and the idea of a League of Nations has been the desire of many peoples, and upon it they have placed their hope that the Demon of War might be held in leash."

"Therefore, Be It Resolved, That it is the sentiment of the members of this club that American's hope of peace for the future, as well as that of the rest of the world, can be more fully assured if the proposed League of Nations is successfully established, and we, therefore, pledge it our support and urge that it be speedily ratified by the senate of the United States."

After the words of the resolution itself had been read before the club, Miss Sarah Hill addressed the women, quoting from Republican as well as Democratic sources in its favor emphasizing her belief that America cannot retain her policy of selfish isolation, and that the league will not mean a participation in world wars, but their end.

Miss Hill's speech in part follows: "In this the most critical period of our national history, when we have helped to win the world war, we are face to face with the danger of seeing the fruits of our agonized struggle swept from us and we left standing amid the wreckage in herds to the fear of the recurrence of another hell upon earth at some not far distant time."

"To my mind the League of Nations is the one hope of escape, so far as can be seen; nothing better has been offered us. When it has been ratified and is operative, it will show weak places here and there, just as our own constitution has done; and there will be wise men in the nation leagued together who will have broad enough vision to revise what has been found faulty, as our own statesmen have been doing during the past century and a half that we have been a federation. Henry Ford has pronounced history 'bunk,' but there is comfort now in reading the struggle through which the writers of our constitution passed and the fight made against it by its pessimistic opponents. It has become the almost sacred foundation of our liberty."

"In a club like this there will be diverse opinions, and there may be a number who have very real fears concerning the League. As a club, let us have no heart-burnings over any differences that may arise, for this association must mean education for every member. The thinking, reasoning process is vital. For the purpose of cultivating these we are banded together, and above all, our discussions must be conducted with perfect good temper and with liberality and charity for the opinion of others. I have always felt that 'grownups' who will not control their tempers must step down into the kindergarten class."

Great Men Favor. "And, by the way, is it not under the circumstance that the President, ex-

Everyone Should
Drink Hot Water
in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside, no sick bile to coat your tongue, no sick, sour breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before eating more food. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.—Adv.

President Taft, Root, Hughes, President Lowell and most of the men who are in favor of the League are able to make their statements about it, and present it, in very cool, dispassionate manner, which almost the entire opposition have treated with open contempt and ridicule the President of the United States. They have stooped to personalities and thrown their dignity and courtesy to the winds. Free speech is the inalienable right of every American. The chief executive will always be in line for criticism, as is right, where the criticism is just; but the tactic is a very poor flower of democracy, and speed the day when every American will elevate himself by treating with courtesy the President of our country, whether elected by his own party or by the opposition.

"About the league itself. Locally it was most unfortunate that it should have been presented in the form that it was by Senator Watson. He was committed to its opposition, and in fairness to the community the league should have had a supporter to debate the matter with him. Very few of us knew much about it; we sincerely wanted information; we filled the Coliseum. Senator Watson is popular with Wayne county Republicans. He gave us his interpretation, and most of us accepted it and have kept closed minds on the subject since, for few of us enjoy thinking for ourselves. It is easier to take what is handed to us in the line of thought."

Appealed to Partisans.

"His 'America for the Americans' brought down the house every time, and probably a majority went away with a feeling of enmity towards every one of the Allies, as well as towards our former enemies; and, further, we were impressed with the thought that we Americans are here by Divine right and hold our place against all others by that same right. The ghost of the Kaiser walks in America."

"America is a steward; she is a Samaritan; she has oil and coin (and I am glad to be obliged to omit wine from the quotation); it is her high

One Way To Cultivate
Smiles That Captivate

"Alas for the pretty girl who, when she opens her mouth in a smile, gives a view of teeth more deplorable than the ruins of the Rheims cathedral. Instantly she repels instead of attracting, and she has only the consolation she is in no danger of being kissed," remarks the president of the National Youth Hygiene Association.

What a pity women generally are not more familiar with this feature of beauty culture. Consider the more than a hundred varieties of micro-organisms are found in the mouth. Is it any wonder so many have ugly teeth and gums, unsightly fillings, crowns and artificial teeth? Germs not only cause tooth decay but serious gum affections. Tooth and gum troubles generally result from fatty films under which germs accumulate. And this remarkable Once-a-Week Tooth Polish, which any druggist can supply, completely removes all discolorations, keeping the teeth beautifully white and sparkling.—Adv.

3 Million Dollars but— It bought MUSIC

No finer example of courage is known to the world of science than Thomas A. Edison's work in perfecting the phonograph. The skeptics rose in full chorus when he proposed a better phonograph,—an instrument "that could produce music as human as the artists who first gave it utterance."

Mr. Edison's experiments exhausted the entire field of research in sound reproduction. He built and rebuilt until his final, perfected model cost him Three Million Dollars.

And the result?

Ask some one who attended the Amy Ellerman-Fleming Sisters recital Wednesday evening. There was the public proof. Miss Ellerman sang in comparison with the RECREATION of her voice by the New Edison. The Fleming Sisters Instrumental Trio played in comparison with the RECREATION of their art by the New Edison. And no one could distinguish the living art from its RECREATION.

The NEW EDISON "The Phonograph with a Soul"

If you love music, you will agree with Wednesday's enthusiastic audience:—The New Edison represents Three Million Dollars well spent. The soul of song is cheap at any price. Yet it is now brought within reach of your pocketbook. The instrument used in Wednesday's conclusive test is a duplicate of Mr. Edison's Three Million Dollar Model. It sells for \$255.

In the Westcott Pharmacy

Frank Bowers, Farmer, Dies at Home Wednesday

HAGERSTOWN, Oct. 2.—Frank Bowers, age 79, died at his farm home five miles southeast of Hagerstown Wednesday and his funeral will be held Friday at 10:30 at the Church of the Brethren, of which he was a member.

Mr. Bowers had lived on this farm for over thirty years and he had grown in favor with all who knew him. He had no children but Mr. and Mrs. Bowers reared from infancy Prof. W. O. Wissler, now a teacher in the Richmond schools. Burial will be in the cemetery adjoining the church.

212 FROM INDIANA IN COLLEGES OF OXFORD

OXFORD, O., Oct. 2.—Two hundred and twelve young men and women from Indiana are registered this year at the three educational institutions of this village—the largest number in the history of the schools. These students are divided as follows: Miami University, 66; Oxford College for Women, 81; Western College for Women, 65.

STRONG MEN AND WOMEN WIN OUT

In business, at work, or at home, you must "make good" or be a failure. The healthy red-blooded man or woman tackles every task fearlessly, with the joy and the "pep" that wins. Plenty of red blood, rich in Iron and Phosphate, is needed if you would win in life's battle.

One of our leading doctors has often remarked, "Life is full of needless failures, all because men and women do not keep their blood and nerves charged with rich Iron and Phosphates; there is no cause for the thousands of run-down, weak and nervous men and women when Phosphated Iron, the Red Blood and Nerve Builder, is within reach of all. It will bring back the joy of living and doing; give you rugged health, strength and restful sleep."

If you are all run down, weak, thin or nervous, Phosphated Iron will build you up and make you feel like a live one; it never disappoints. No matter what anyone says you owe it to your self to take Phosphated Iron. Try it and note for yourself how after only a few days it increases your health and strength one hundred per cent.

Ask for Phosphated Iron Capsules, and be sure you get capsules. For sale by Conkey Drug Co. and leading druggists everywhere.—Adv.

IMPROVEMENT OF STREET IS STARTED

OXFORD, O., Oct. 2.—After numerous delays, the principal one being an injunction suit brought by property owners who didn't want brick used in street paving, the work of paving East

High street, between Campus & Patterson avenue, has begun. The contractors, J. M. Hennessey & Bro., of Piqua, have a large gang of men at work on the improvement.

Waterproof tents, bags and rugs can be made from camel's hair.

It is a far cry from the world war to a child's roller skates, but according to a fashion expert roller skates of the latest approved model are after the style of British fighting tanks.

FORERUNNERS OF SICKNESS
Medical authorities agree that indigestion and constipation are the forerunners of half the ills of mankind. Don't let a mass of partly digested, decomposing food poison your whole system. When your food is being properly digested, you are free from biliousness, gas, bloating, sick headache, sour stomach, bad breath, coated tongue, Foley Cathartic Tablets, a wholesome physic, thoroughly cleanse the bowels without gripping or nausea, sweeten the stomach and invigorate the liver. For sale by A. G. Luken & Co.—Adv.

D.D.D. Prescription for Eczema
—for 15 years the standard skin remedy—a liquid used externally—relief from itching, the mildest of cleansers—keeps the skin always clean and healthy. Ask your druggist about both.

REED'S

Pluck- Not Luck BUILT THIS BUSINESS

A few days ago a bride and groom came into our store to be shown thru, as they wished to furnish their new home. Of course, the salesman gladly did so and as a result sold them their outfit, and before leaving asked them what induced them most to come to "Reed's". This is the answer: "Well, we had thought of going elsewhere, but mamma has purchased everything for her home of you since you opened this store; and she has been so well pleased with the QUALITY, PRICES and SERVICE that we felt we could take no chances on going elsewhere." Of course, we felt highly elated, but frankly, we would have been disappointed with any other answer, because this is the end to which we constantly strive—to please each customer to their entire satisfaction and make every transaction as important as the our future business depended on that particular sale. Our prices, quality and service are the only reasons for this, together with our faith in the trade. That's the reason the trade have faith in us. We invite you to our store whether buying or not.
