

BRUSSELS MAY BE CAPITAL OF LEAGUE

WASHINGTON, Jan. 12.—Because the United States did not join the entente powers and Japan in the conclusion of peace yesterday in Paris, the seat of the league of nations may go to Brussels, Belgium, instead of Geneva, Switzerland, as provided in the league covenant. President Wilson was responsible for the selection of Geneva, in the first place, the French and British premiers yielding to his suggestion, though personally they preferred Brussels because it was far more conveniently situated with regard to Paris and London.

Information received here today is to the effect that the secretariat of the league which has been organizing informally in London for many months past now is arranging for the selection of permanent headquarters and is expected to decide within a day or two between the conflicting claims of Geneva and Brussels.

Need for Christians Is Theme of S. S. Meeting

The need for men consecrated for Christian service was pointed out by E. T. Albertson in his address at a men's mass meeting in the Grace Methodist church at 3 p. m. Sunday. He urged that many men take the course in Sunday school teaching to be inaugurated by the church federation. A good crowd was present but those interested hope for larger attendances at the London for many months past now is arranging for the selection of permanent headquarters and is expected to decide within a day or two between the conflicting claims of Geneva and Brussels.

Y. M. C. A. News

Notices are being sent out by the Richmond Y. M. C. A. for the annual meeting next Tuesday evening. This will be the largest annual meeting ever held by the association, as both the senior and intermediate classes will be admitted. The 16 charter members of the "Y" will be guests of honor. Dedication of the enlarged photographs of the late George H. Knollenberg, Benjamin Johnson and Timothy Nicholson will be a feature of this meeting.

The whole purpose of the meeting of the H. Y. club in the Y. M. C. A. Tuesday evening is to define clearly in the minds of the members the real purpose and aims of the organization, according to C. M. Beatty, boys' secretary. The H. Y. club is not a purely social club, but an organization that will live up to the definition of the H. Y. club written into the constitution at its founding.

Tuesday's meeting will be an open forum but special program and talker have been obtained for the meeting on Jan. 20.

To discuss probable nominees for the vacant places on the board of directors and trustees of the Richmond Y. M. C. A., the nominating committee, composed of Dr. Charles Bond, E. H. Scott and H. C. Hasemeier, held a luncheon meeting in the "Y" at noon Monday.

Perfume received its first real development in Persia.

Good Crowd Attends First Art Exhibit

Among the pictures which attracted much attention Sunday afternoon at the exhibit by Indiana artists in the public art gallery, was "The Knitter" by Maude Kauffman Eggeneyer. The painting is that of Mrs. Mary Frame Selby, one of the most faithful Red Cross workers at the local rooms, and because of the local color, attracted much attention. The painting shows the red star service pin worn by Mrs. Selby as a reward for her work.

Howard Hitz gave several vocal selections and Prof. F. K. Hicks rendered a number of violin selections. There was an unusually good attendance at the opening exhibit. The pictures are now open to the public at the gallery in high school.

County Spent \$77,000 on Roads in 1919, Jones' Report

County Superintendent of Highways W. O. Jones spent \$77,423.59 during the year 1919 in keeping the roads of Wayne among the best in the state, according to his annual report made public Monday. This is approximately \$9,000 more than he expended in 1918, when \$68,292.64 was used.

With the increased cost of labor and material the county feels very fortunate in having roads in such excellent shape. An increase of \$1 per day for all team labor and \$3 a day for single labor had to be paid by the county last year.

With all expenditures made County Superintendent Jones had \$16,733.65 left in his fund Jan. 1, 1920.

For the 429 miles of road making last year, at \$180 per mile, approximately 30,000 yards of material was used. The increased cost of essentials was the reason for the advanced price of road making per mile this year. In 1918 it cost \$158 per mile.

The itemized account of the money expended follows:

Tools and machinery, \$7,972; supplies, \$2,991.32; team labor, \$42,606.65; single labor, \$3,557.30; gravel, \$9,240.70; freight, \$121.06; coal, \$621.14; cement and lumber, \$363.84; tar, for resurfacing, \$2,481.66; sewers, \$122.92; piling, \$77.50, and superintendent's salary, \$1,550.

Shoe Retailers of Nation Hold Convention at Boston

BOSTON, Jan. 12.—More than four thousand delegates from all parts of the country and from Canada and South America attended the opening session here today of the ninth annual convention of the National Shoe Retailers' Association. Additional retailers expected before the final session on Thursday will make the convention one of the largest ever held in this city and the greatest single purchasing body ever assembled at one time, it is said. Many delegates yesterday and today were forced to find hotel accommodations in nearby cities.

Visits to such manufacturing centers as Brockton, Lynn and Haverhill, several exhibitions of model shoe manufacturing plants; sample shoes on nearly two hundred live models and motion pictures of the industry gave the retailers first hand information concerning their merchandise.

UPHOLSTERS NEWBURY INDICTMENT

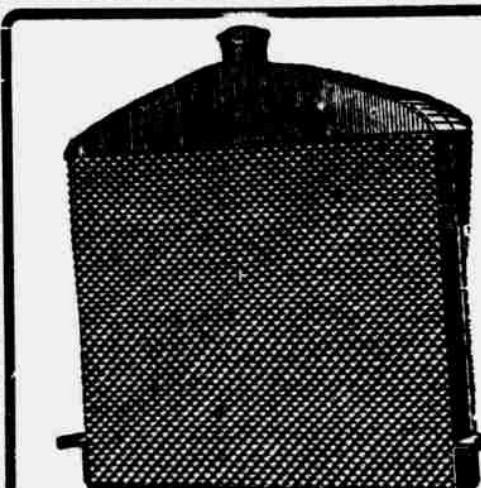

GRAND JURY, Mich., Jan. 12.—Validity of the indictments of Senator Newberry and 134 others charged with violation of the election law in the 1918 elections was upheld by Federal Judge Sessions here today, in dismissing a demurrer filed by counsel for the indicted men.

SECOND INDUSTRIAL CONFERENCE REOPENS

(By Associated Press)

WASHINGTON, Jan. 12.—President Wilson's second industrial conference reassembled today after a several weeks' recess prepared to consider the mass of suggestions and proposals for stabilization of the nation's industrial situation. These accumulated during the holiday adjournment and came in response to a request to the public for constructive criticism of the conference's tentative plan made public Dec. 29. Several of those who had suggestions to make offered to appear in person and the program for hearing these probably will be announced later today or tomorrow.

The plan for settling industrial disputes favored by the conference proposed a national conciliation tribunal at Washington and regional boards of inquiry and adjustment. Some of its suggestions have been adversely criticized by officials of the American Federation of Labor and representatives of other union labor organizations.

California's Governor Opposes Bout in State

SAN DIEGO, Cal., Jan. 12.—Little promotion of the proposed Jack Dempsey-Georges Carpentier boxing match for the world's heavyweight championship has been done in California, said James W. Coffroth, who offered a purse of \$400,000 for the bout, in commenting today upon opposition of Governor William D. Stephens of California to staging the meeting at Tia Juana, Lower California. Coffroth said he was "not greatly concerned" over the announcement last night of gubernatorial opposition.

"I have been up against the same thing practically every time I have promoted a prize ring match in the last 15 or 20 years," he said. "As for the fight being promoted in California, that is wrong. The work of promotion has gone on in almost all other parts of the world, but little of it has been done in California."

Governor Stephens said that he would be obliged, if necessary, to request the federal government through control of the international border to prevent the contest being held.
