

EARLHAM WORRIES STATE SCOUTS; WINS FROM DENTALS, 38-13

Realizing that Friday's game with Wabash, at Crawfordsville, will either make or break the Earlham basketball team, Coach Mowes will start a special training, calculated to prepare the Quakers for the Scarlet tilt.

Formerly, it was a tough proposition to trim Wabash on the Crawfordsville floor, as the arena was made of dirt. Wabash now has a hardwood floor larger than the coliseum.

A complete reversal of form was exhibited in the 38 to 13 victory over the Indiana Dentals Saturday night. The five seldom missed a shot at the basket. Hall and Carey, both of form in the Rose Poly game, played like demons. Hall scoring 18 points, and Carey totalling 10. The Dental guards, remembering the first tilt with the Quakers, smothered Lawler. The best he could do was one field goal.

Earlham started to win the game early and displayed a whirlwind attack that completely baffled Hox Clark's warriors. Carey would get the tilt-off and the Pitts, Lawler to Hall combination would net two points.

Earlham's performance caused considerable worry among Franklin, Wabash and DePaula scouts at the game. These expected inferior basketball on account of the Rose Poly defeat, but Mowes' cohorts displayed state championship form.

The Indianapolis Em-Ross will be seen in action against the Quakers on Wednesday, January 21. Arrangements for a curtain raiser are being made. Probably a high school team will be brought here for a game against the Quaker freshman team. Score of Saturday night's game:

Earlham.

Player	Gis.	Fls.	Md.	Pts.
Lawler, f.	1	2	2	4
Hall, f.	8	0	0	16
Gar, f.	2	4	2	8
Huff, f.	0	0	0	0
Carey, c.	5	0	0	10

PURDUE LOSES, 33-31. CHAMPAIGN, Ill., Jan. 12.—Coach Piggy Lambert's basketball team dropped a heart-breaking game Saturday night when Illinois came from behind and nosed out the Hoosiers in the first conference game for the two schools by a score of 33 to 31. The famous Orange and Blue football combination, Carney and Walquist, was the main factor for the victors.

MILLIKEN BEATS ROSE POLY QUINTET, 31 TO 17. DECATUR, Ill., Jan. 12.—Milliken university defeated Rose Poly, 31 to 17, Saturday night in a game characterized by the poor basket shooting on the part of both teams. Milliken's defense and floor work were features of the game. Milliken led at the end of the first half, 17 to 8. Rose showed better form in the second half, but failure to secure baskets was apparent throughout.

MAYBE SMELL OF GUNPOWDER CAUSED CHAMPION TO SKUNK. EL PASO, Tex., Jan. 12.—Jack Dempsey, world's heavyweight champion, was charged with having "apparently stalked in hiding from the draft board" during the late war, and Georges Carpenter, his French rival for championship honors, was made a life honorary member of the post at a meeting of the El Paso Post of the American Legion held here. The local post also appropriated \$25, to be wagged on Carpenter in his coming fight with Dempsey.

Gatherings From the World of Sport

A trophy to be awarded annually to the winner of the Big Ten inter-collegiate football championship has been announced by the Illini association. The trophy is to be the gift of E. C. Patterson and George Ade and will be awarded to Coach Zuppke's championship Illinois team for its 1919 title. The emblem is to be a full-sized football of silver, standing placed for a kickoff, on a brass mound. It will become the permanent possession of the Big Ten team that wins three championships, which must not come in succession. In case of a disputed title, a committee will be appointed to award the trophy. Members of the winning team will be given medals.

E. C. Patterson, in making the announcement said: "I have said in print, and I will say it again, that I think Illinois could win decisively from any team the east showed this year."

Coach Zuppke said: "Illinois greatest team was her 1914 eleven, but her 1919 team was her greatest. We refused Harvard a one game contract, and in doing so we were fighting for the middle west, and not for Illinois."

The Illinois mentor also said: "I protest the all-American team chosen by Walter Camp, and I will say openly that I do not think he is sincere. I think it is a slur on western football that one of Minnesota was not an All-American selection."

Richard Loftus, a promising young outfielder, has been signed by Manager Pat Morris of the champion Reds, and will receive an extensive trial in the south next spring. Last summer Loftus started out as a member of the Fitchburg club of the New England league, but the season was about half over when he broke his ankle and was forced to remain idle during the rest of the race. He took part in fifty-three

games and was charged with three errors. His fielding average was .975, and it enabled him to lead the league.

He was also the organization's champion batter, with an average of .356.

Loftus, who made his debut as a professional last season, made quite a reputation as a semi-pro player in Concord, Mass.

Democratic Women Heads of Sixth are Named

With Mrs. Minnie M. Dudding, of Greenfield, Ind., named as district chairman, the Democratic women's organization of the Sixth district has been completed, according to an announcement made by the state organization.

In the state, practically every county has organized, and in some districts the women have organized into precincts and started the poll of voters.

Mrs. J. B. Rush is named as the Wayne county women's chairman. Other county chairmen are: Hancock county, Mrs. O. S. Heller, Greenfield; Henry, Mrs. Luvena Myers, Newcastle; Union, Miss Jennie Coughlin, Liberty; Fayette, Mrs. John Carlos, Connersville, and Franklin, Mrs. I. N. McCarty, Brookville.

Lovers Quarrel of Many Years Ago Ends in Wedding

HAGERSTOWN, Ind., Jan. 12.—A lover's quarrel of many years ago had a rose tinted ending here today when Mrs. Florence Newcomer, daughter of Elias Hoover, of this place, and Glenn R. Millikan, of Newcastle, were married here by the Rev. A. B. Hartley, pastor of the First Christian church.

Following a disagreement several years ago each had married another. The husband of Mrs. Newcomer died two years ago and when Mr. Millikan, whose wife had died, learned she was a widow, he renewed his suit. They will live in Newcastle.

Wayne to Send 25 Men To State G. O. P. Convention

Beth the Republican and Democratic state conventions will have a much smaller number of delegates this year than at the last conventions. The reason for this is that the number of delegates is governed by the vote for the office of secretary of state, and the vote at the election in 1918, on account of war conditions and the absence of young voters serving in the army, was smaller than usual in both parties.

The last Republican state convention had more than 1,700 delegates, but this year will have only 1,521, according to figures compiled by the Republican state committee. Wayne county's delegation will consist of 25

persons, Fayette's of 14, Henry's of 19, Randolph's 20, Union's 5.

Delegate for 200 Voters.

One delegate is allotted for each 200 votes cast for the candidate for secretary of state, or major fraction of 200 in each county.

VULCANS BEAT K.D.'S

Cameron, pitching for the Vulcans in the "Y" gym, Saturday night, whiffed 14 men and incidentally shut out the K.D. team, while his teammates were pounding Bortow for 7 counters. The game was said to have been the best staged in the Industrial indoor league this season. The Vulcans included several classy play-

ers and is being picked by many as probable cup winners. Frank Gilmore umpired.

SEVEN HIGH SCHOOLS IN BAD WITH STATE BODY

VINCENNES, Ind., Jan. 12.—A. L. Trese, secretary of the Indiana High School Athletic Association, has informed William Halton, president of the Vincennes University; B. E. Myers, principal of the Vincennes Senior High School, and the principals of the Oatkawn, Emerson, Decker, Fritchton, Monroe City, Edwardsport and Ferdinandville High schools that they are to appear before the state board to show cause why the basketball teams of these schools should not be barred

from further athletics with schools affiliated with the state organization. This announcement caused a sensation in local high school athletic circles and it is said resulted because the officials refused to secure the permission of the state board to play a county tournament which was held here under the auspices of the Vincennes university. The journey it is said was played under the regular rules and regulations affecting basketball games.

LOCAL STENOGRAHPER SAYS PEPPEN IS THE BEST TONIC FOR A NERVOUS CONDITION

There is no greater barometer of the nervous system than your sleep. If your nerves are composed your sleep is generally sound, your dreams peaceful. You arise in the morning feeling refreshed and ready for the day's work. On the contrary if your nerves are drawn like fiddle strings your sleep is not sound and dreams are generally of a vicious nature. When morning comes you are often more tired than when you went to bed. Your occupation which should be interesting, is a hardship instead. This condition of the nerves is well described

by Miss Ruby C. Wushaupt, stenographer for the Pilot Motor Co., who lives at 44 South 6th Street, Richmond. She says:

"My nerves were very easily upset. Often during the night I would have frightful dreams and would wake up trembling. Then I couldn't compose myself for several hours.

"I heard so much about Peppen that I tried it. I can truthfully say that my nerves are now in better condition than they have been for a long time."

Peppen is sold at Thistlethwaite's drug store, or any other first class drug store.—Adv.

THERE'S a goodness to Crusader Milk Bread that you can see in the tender brown crust, taste in the rich milk flavor and enjoy in the smooth, even texture.

Crusader Milk Bread
LARGE AND SMALL LOAVES
NATIONAL BISCUIT COMPANY

THE successful farmer raises bigger crops and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

Acid-Stomach Makes Bad Blood, Headaches and Nervousness

Many times you have seen an awfully bad, oozy-looking face that makes you think—"It's blood poison." You are wrong, for about nine times out of ten it is caused by an acid-stomach, which upsets the digestion. This makes the blood impure and it shows up in the face, with a red nose and pimply, blotchy, muddy, bad-looking complexion.

Remember, too, if the digestion is faulty, you cannot escape the penalty in the loss of mental and physical power. Then again if you eat more food than the body needs, it makes gas by fermentation.

This fermentation creates toxic poisons which, taken into the blood, irritate the nerves and affect the entire nervous system. This is the frequent cause of severe attacks of headache and other nervous disorders such as extreme nervousness, irritability, insomnia, mental depression, melancholia, dizziness and vertigo.

Thousands, yes, millions of men and women suffer daily from these troubles and never dream that Acid-Stomach is the cause of their wretched health. But for that matter any number of people have endless trouble with their teeth not knowing that a condition called acid-mouth is causing all the damage. If a tasteless acid is powerful enough to eat through the hard enamel of the teeth and cause them to decay, you can easily imagine that Acid-

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and ameliorations of the common lot. Upon it the world must depend for the process of reconstruction in which all have to share.

—JAMES J. HILL
