The strongest recommendation any talking-machine can have is the artists who make records for it.

The greatest artists of all the world make records for the Victrola. They all agree the Victrola is the only instrument that presents their interpretations with a fidelity that does full justice to their art.

Give your family the pleasure that comes with the possession of such an instrument! But be sure it is a Victrola.

Any Victor dealer will gladly play any music you wish to hear and demonstrate the various styles of the Victrola—\$25 to \$950. New Victor Records are on sale at all dealers on the 1st of each month.

Who Wants His Ad "Thrown Together?"

An ad can be "thrown together" rather quickly in a pinch. But no one wants his ad to look as if it had been thrown together.

And so the man who wants to get his copy in at the "last possible minute" really cheats himself. He doesn't get the biggest possible money's worth out of the space he buys.

The Advertiser who gets his copy in early gets the best we have in the shop. The "last minute" advertiser gets the speediest composition—but not the best.

The Early Ad gets the Work at Our End
and the Returns at Your End.

Notice to All Advertisers

In keeping with the general conservation policy in labor and white paper consumption, the Palladium on and after January 1st, 1920 will only accept advertising copy which is in the office of The Palladium by 3:00 p. m. on the day prior to the scheduled day of publication.

This does not include Classified Want ads which will be taken up to 11 a. m. on publication day. This action is necessary on account of it being possible to secure only a limited amount of white paper and also on account of the increasing labor shortage.
