

ALL R. R. MEN MAY QUIT, IS OFFICIAL FEAR

Negotiations Characterized as "Most Serious," While Maintenance Men Get Ready to Go Out.

WILSON IS TO BE TOLD

WASHINGTON, Feb. 10.—Wage negotiations of the railway employees with Director General Hines reached a critical stage today and insofar as the brotherhood of railway trainmen is concerned, a strike loomed unless "pending demands are satisfactorily settled."

Besides this, white house and railroad administration officials regard "as most serious" the railroad situation precipitated by the order for a strike for Feb. 17, issued by officers of the brotherhood of maintenance of way employees.

Secretary Tumulty was to see President Wilson today to lay before him the matter, emphasizing the possibility that this strike may be the opening wedge for a great strike of all railroad employees should the wage demands be refused by Director General Hines, at his conference with union officials now in progress.

Mr. Hines is understood to have conferred with Secretary Tumulty for more than three hours last night, outlining the situation for presentation to the president.

W. G. Lee, president of the union, has served notice on Mr. Hines that his men are "very insistent and must have a definite answer soon." To this Mr. Hines replied that no statement of position could be made until he again had talked to the whole body of labor representatives.

Mr. Hines made a tentative appointment with Mr. Lee for late today to consider the trainmen's demands.

Railroad administration officials understand that a strike vote is being taken by the trainmen. It was admitted that Mr. Lee had informed the director general on Jan. 23 of the union's intention to invalidate its wage agreement on the prescribed 30 days' notice. On that basis, it was presumed that the union would not be re-elected to the position of negotiator for Feb. 23, less than a week in advance of the road's return to private control.

It is understood that Mr. Lee has not the aggressive support of the other train operators' union in enforcing the wage demands with the strike weapon. Most of those attending the conference here, however, were silent on this question, but some of the brotherhood leaders held that they should first receive Mr. Hines' full proposal before determining their future course.

The threatened strike of trainmen and the strike order issued by the brotherhood of maintenance of way employees has created a situation which officials regard as critical.

DETROIT, Mich., Feb. 10.—Executive officers of the United Brotherhood of maintenance of way employees and shop laborers were going ahead with strike plans today while a committee of heads of various divisions of the union were enroute to Washington where they will make a final effort, if called into conference by Director General Hines, to avert the walkout on Feb. 17, of nearly 300,000 railway workers.

Allen E. Barker, president of the brotherhood would make no statement today in reply to the assertion by Mr. Hines that the strike call violated the union's wage agreement but he recalled that a strike was voted last fall set for Nov. 1, and that it had been twice postponed since then in the hope that an agreement might be reached on a new wage scale, or that the government might be able to reduce the cost of living.

"The cost of living continues to rise," Mr. Barker said, "and we are convinced that the railroad administration does not intend to grant increases in wages unless forced to do so. It is ridiculous to think that the government is employing these American laborers who are raising American families would force them to work for an average wage of 35 cents an hour while the same class of laborers throughout the country employed elsewhere are making up to \$1 an hour and while many railroads are bringing Mexican laborers into this country and paying them 25 to 40 per cent more than the men affected by this strike call. We are determined to have fair increases now."

The men involved are all employed on American roads, although the union has a membership of 28,000 in Canada.

Weather Forecast

For Indiana by the United States Weather Bureau—For Indiana, generally fair tonight, colder in the lake and northeast portion; Wednesday unsettled.

Today's Temperatures.

Noon Yesterday 37

Minimum 28

For Wayne County by W. E. Moore

Partly cloudy and unsettled tonight and Wednesday, probably snow or rain in the next 36 hours.

General Conditions—Rain was quite general Monday over Illinois, Indiana and Ohio, with snow over the lake and the St. Lawrence valley. General fair weather now prevails west of the 55th meridian, excepting storms now developing in the southwest with rain and snow. The temperatures are above normal throughout the United States and in no place is there zero weather. The southwestern winds will cause unsettled weather Wednesday or Wednesday night.

Turbine Designer

WILLIAM LEROY EMMET, pioneer developer of the principle of electric propulsion for ships and the designer of the Curtis steam turbine, has been awarded the Edison medal for 1919 for meritorious achievement in electrical science, engineering, or the electrical arts.

The Edison medal was founded by the Edison Medal Association, composed of associates and friends of Thomas A. Edison. It is awarded annually by a committee of 24 members of the American Institute of Electrical Engineers and is among the highest honors in the electrical profession.

W. L. R. Emmet was born at Pelham, N. Y., July 10, 1859. For many years he has been consulting engineer of the General Electric company, where he designed the electric propulsion machinery for the battleship New Mexico, the first warship of any nation to be driven electrically. He also designed electric machinery for the collier Jupiter, the first naval vessel to be electrically propelled.

His home is in Schenectady, N. Y.

W. L. EMMET

EXTRADITION WOULD CAUSE REVOLUTIONS, SAYS GERMAN BODY

(By Associated Press)

BERLIN, Monday, Feb. 9.—Decision was reached by the committee on foreign relations of the National Assembly today to support the government's stand in declaring "the ethical and patriotic indignation of the German people at the allied demand for extradition of Germans accused of war crimes, is such that the carrying out of extradition measures have been made physically impossible and would produce internal insurrection."

Independent Socialist members refused to subscribe to this declaration, which was adopted at the meeting of the committee which lasted for the three hours this afternoon.

The government has decided to submit the official extradition list to the first attorney-general at Leipzig with instructions to investigate the offenses listed and determine whether the charges made by the allies can be punished under the German criminal or civil codes. He will also be asked to determine to what extent these charges trespass upon the rules of warfare.

It is presumed the attorney-general will proceed on the ground that the article in the allied demand for extradition against German subjects and may prosecute the accused in the same manner as if the charges had been filed in any other way.

Enlisted Men Given Majority of Medals Army Report Shows

(By Associated Press)

WASHINGTON, Feb. 10.—Enlisted men of this country received 63 per cent of the medals awarded for service in the world war, it is shown in statistics made public today by the war department.

To enlisted men went 57 of the total of 78 congressional medals of honor awarded while 15.3 per cent of the 5,109 distinguished service crosses conferred were given to enlisted men. All of the 641 distinguished service medals awarded for meritorious service and not for acts of valor, were conferred on officers.

The thirty-seventh division which broke the famous Hindenburg line, received 12 medals of honor or 15 per cent of the total of those decorations awarded.

Preliminary Reid Hospital Plans Ordered by Board

Preliminary plans for additional buildings at Reid Memorial hospital have been ordered drawn by the hospital board.

The plans will be made by Edward Stevens, of Boston, Mass., who met with the board some time ago to consider the needs of the hospital.

As soon as the plans are completed and received by the board, definite steps will be taken to raise funds for the new buildings and plans for enlarging the hospital will be started. No action will be taken, however, until the plans to be made by Mr. Stevens are submitted to the board.

Five Eaton Men Fined For Stealing R. R. Coal

EATON, O., Feb. 10.—Five local men charged with stealing coal from Pennsylvania railway cars were fined and one man was dismissed in Mayor Harvey Rinsinger's police court Monday evening. A boy of minor years was directed to appear in juvenile court Tuesday. The men fined entered pleas of guilty.

Fines of \$5 and costs, \$7.45 in all, were assessed against five men: Tuttle, Everett West, Mode Thompson and John Carico. George White was fined \$15 and costs, \$17.45 in all.

Ed Shaffer, local section railway foreman, was dismissed. His son, Ralph Shaffer, 16, was ordered to appear in juvenile court, where disposition of his case will be made.

The accused appearing in court were implicated in a raid made on coal cars of a freight train last Saturday night.

Those against whom fines were imposed were given until next Saturday to pay their fines and the costs. The men were rounded up by Police Chief Willard Armstrong and Night Patrolman Charles Clear.

BOTH JUNIOR H. S. BUILDINGS WILL BE RUSHED, DECISION

If permission can be gained from the state board of tax commissioners to use the Richmond board of education will push work on the west side junior high schools, and start work on the previously proposed east side junior high school, at Twenty-Second and South A street, this spring, Charles W. Jordan, president, announced Tuesday. The question will be brought before the tax board next Monday, Feb. 16. Jordan and L. A. Handley, member of the school board, explained that more school space, in the least possible time, seems imperative.

"Although the industrial board, which recently condemned the third floor of the Garfield building, has granted us temporarily occupation of this floor, the general congested condition in all the schools makes it seem necessary that we start work on both junior high schools this spring," said Superintendent Bentley, Tuesday upon his arrival from Chicago, where he was in consultation Monday with Perkins, Fellows, and Hamilton, architects for the buildings.

"East Side Plans Discussed." Talked over plans with the architects for the twenty-second street school, which will be made up of several departmental buildings. The first step is, however, to complete the one academic building in which the other departments, which will be ultimately housed alone, may be temporarily housed. The building will accommodate from 750 to 1,000 pupils, it is planned. The entire plans include modern, attractive buildings for the shop department, the gymnasium, the auditorium, and other departments," said the superintendent.

School officials explain that the biggest problem is to get the west side building and the east side building, and then to turn Garfield School over to the elementary overflow. Practically every building in the city is too crowded, it is said.

Murphy Approved by Purdue; Ratification by County Board Expected

Members of the county board of education will be called within 10 days to approve the appointment of E. F. Murphy as county agricultural agent, according to an announcement made Tuesday by County Superintendent C. O. Williams.

The last meeting of the board was postponed on account of illness, but Williams said Tuesday that a special meeting will be called to make an appointment of a county agent effective March 1.

Approval of Murphy's appointment has been received from T. A. Coleman, Purdue county agent leader, and the appointment has already been recommended to the county board of education to be effective March 1. There is practically no opposition to Murphy's appointment, according to Superintendent Williams and a majority of the board members have already expressed their approval.

Murphy is now in Iowa studying the various problems connected with the county agent. He has been spending the last few weeks in Illinois, Wisconsin and Minnesota with most successful county agents.

Washington and Cincinnati Race for Census Honors

(By Associated Press)

WASHINGTON, Feb. 10.—For the honor of being the first city to report in the decennial census, Cincinnati and Washington are running a neck-and-neck race, census bureau officials said today.

In computing the population of Washington, which was the first city to report in the 1910 census, only the checking of several districts and the final tabulation remains. Reports from Cincinnati it was said, also are virtually completed, and announcement of the first census returns, either of that city or Washington, may be expected either tomorrow or Thursday.

Wayne School Scenes May Be Shown at Conference

Scenes of Wayne county schools and equipment may be displayed at the state rural educational conference to be held in June at Bloomington.

C. O. Williams, county superintendent, received a letter from L. N. Hines, state superintendent of public instruction, asking for pictures showing interior and exterior views of Wayne county buildings and picture of the motor school hacks and the various departments of the different schools.

Mr. Hines explained that he desired to use the pictures in an illustrated lecture to be given at the state conference at Bloomington next summer.

PUNCH LADLE USED BY WASHINGTON BRINGS \$100,000

(By Associated Press)

NEW YORK, Feb. 10.—A silver punch ladle used by George Washington while he was president was purchased for \$100,000 at a sale of Washington relics yesterday at the galleries of the American Art association.

The ladle was one of the pieces of silver presented to Washington by the citizens of New York and was used at the first inaugural reception here.

U. S. 40,000 NURSES SHORT

(By Associated Press)

NEW YORK, Feb. 10.—A shortage of 40,000 trained nurses exists in the United States, according to the National organization for public health nursing.

The organization, which provides information on courses in public health nursing, today started a campaign to interest young women in the profession in the hope of enrolling 60,000 workers.

Egypt Bursting With Cotton Wealth, Report

(By Associated Press)

LONDON, Feb. 9.—Egypt is "bursting with wealth" accumulated from cotton, says a correspondent of the Daily Express, in Cairo.

"Illiterate natives living in mud huts have made 200,000 pounds sterling out of cotton. Naturally there is an influx of new millionaires in Cairo, who are buying land at inflated prices and paying off mortgages which are regarded as family heirlooms."

Our British official says that the country has made at least 100,000,000 pounds. Naturally there is an influx of new millionaires in Cairo, with a huge demand for automobiles, jewelry, new houses and all kinds of luxuries, but in the provinces many of the newly rich have not changed their standard of living at all.

LEXINGTON ARMED CAMP; RIOT DEATH TOLL MOUNTS TO 5

(By Associated Press)

LEXINGTON, Ky., Feb. 10.—Today found Lexington an armed camp.

Squads of armed soldiers from Camp Taylor, who saw service at Chateau-Thierry, were patrolling the streets on guarding all approaches to the city to prevent a recurrence of yesterday's bloody mob violence that cost the lives of five persons and caused injury to a score of others.

William Lockett, negro slayer of 16-year-old Geneva Hardman, a school girl, was confined in a steel cage in the Fayette county court house here awaiting removal either to the state reformatory at Frankfort or to the prison at Eddyville.

Reports last night that 1,500 mountaineers were enroute to Lexington to lynch Lockett caused the commanding officer to throw cordons of troops across every road leading into the city and to place other detachments at every strategic point within the city. So extensive were the plans to prevent a further uprising at ten o'clock last night the brigadier general announced that the situation was under control and that no further trouble was expected. No attempt will be made by the authorities to remove Lockett from the steel cage until danger of further violence has passed, it was announced.

"I don't know why I did it" the negro is quoted as having said in the course of a statement prepared for submission to the jury which convicted him yesterday. Lockett threw himself on the mercy of the court. But one witness, a neighbor of the dead girl's father, was placed on the stand by the state. The witness identified the stone with which the girl's head had been crushed. The jurymen returned their verdict without leaving their seats.

Lockett is about 33 years old and came here from Henderson, Ky., seven years ago. He enlisted in the army and served for eleven months at Camp Taylor.

Business was being conducted as usual here today despite the presence of the troops.

Death last night of J. M. Rogers, 61 a farmer of near Versailles, Woodford county, shot during the rioting, brought the death toll to five.

Green Township Board Asked to Change Site For School Building

(By Associated Press)

Approval of the plan to circulate petitions in Green township asking the trustee and school advisory board to change the site and build a new high and junior high school, leaving the present building to be used for the grades, was made by the patrons of Green township schools who met in Williamsburg Monday night.

The meeting was called to discuss whether a new high school would be advisable or whether the plans calling for additions to the present building should be adopted.

In view of the fact that the present building has been remodeled three times those present decided that the most feasible plan would be to circulate petitions throughout the township favoring a new building. The petitions will be sent out immediately. County Superintendent Williams and Wilfred Jessup spoke at the meeting.

C. E. Werking, town architect, will present plans for the proposed new \$140,000 consolidated town and township school for Center township, at a meeting of the township trustees and advisory board, Tuesday night.

National Interchurch Conference Open in N. Y.

(By Associated Press)

NEW YORK, Feb. 10.—An immediate wide religious educational campaign was among the plans of the interchurch world movement conference which opened here today. In attendance were leaders in this country, of various protestant denominations.

At the conclusion of the conference, teams of speakers will be sent on a tour of state conferences to be held within the next four weeks. International and industrial and religious questions discussed at the interchurch conference will be explained by the team speakers.

ANARCHISTS AND SOCIALISTS ARE BARRED FROM MEXICO

(By Associated Press)

DOUGLAS, Ariz., Feb. 10.—Anarchists and Social agitators of every class are to be excluded from Mexico in the future according to instructions received here by Jose M. Arrendondo, Mexican consul.

"You are hereby directed to refuse the issuance or visa of passports to all persons with the exception of Mexican citizens, who intend to enter Mexican territory when such persons profess dissolvent principles or are anarchists, Social agitators or harmful elements of any kind" read the instructions.

DID NOT BELITTLE U. S. EFFORT IN WAR, SAYS ADMIRAL SIMS

(By Associated Press)

WASHINGTON, Feb. 10.—Rear Admiral William S. Sims denied today before the senate committee investigating naval awards, that in conversations with Representative Byrnes, South Carolina, and other members of congress, he had sought to belittle America's efforts in the war.

The admiral said Mr. Byrnes "must either have misunderstood me, or confused the remarks made to him by the many people he talked to in Europe." He added that he did attempt to correct the idea in the minds of American visitors that the United States forces were "winning the war, because this attitude was hurting us with our allies."

"They knew it was not true and they knew we knew it was not true," Admiral Sims declared.

"I am surprised that I should be quoted as saying the merchant marine should be left to Great Britain and the United States should not develop a merchant marine," he continued, "because I never held any opinion on that subject."

Senator Pittman, Democrat, Nevada, declared that Admiral Sims had left the impression in the minds of former Secretary of the Treasury Glass and Representative Byrnes, Democrat, South Carolina, in conversations with them abroad, and asked that they be called to testify before the subcommittee.

"I consider these charges very serious," the senator said, "and I think Admiral Sims should be given an opportunity to clear himself."

Chairman Hayle announced that Senator Glass and Representative Byrnes would be called before the committee later in the day.

Admiral Sims' testimony, probably will conclude the hearing as Secretary Daniels has announced that he would not care to appear again to answer any new statements that might be made by the admiral.

SPRONG HELD FOR ALLEGED SHORTAGE

Otto Sprong, for many years head of the finance department of the Richmond post office, is held by the federal authorities on a technical charge, arising out of a shortage of about \$4,000, it was learned today. He was taken to Indianapolis Tuesday afternoon. It was said, to be arraigned in the federal court.

Friends of Sprong said they believed the difficulty arose over a technicality as the accounts of the post office are very complicated. They believed he would be able to explain the alleged shortage.

Sprong has been with the post office about 20 years. The technical errors covered a period of about two years. Post office inspectors began going over his accounts late last week.

He is not a man of bad habits and has not lived extravagantly.

INDIANAPOLIS, Feb. 10.—A deputy United States marshal left here this afternoon for Richmond, where it was said at the federal building he would take into custody Otto Sprong. It was said Sprong was alleged to be short in his accounts. The amount was not known here.

FOREIGN COMMITTEE IS RID OF TREATY

(By Associated Press)

WASHINGTON, Feb. 10.—The peace treaty referred to the foreign relations committee yesterday to rid it of cloture, was reported back by the committee without debate and without a record vote.

Republican and Democratic leaders agreed, however, not to take it up in the senate until next week.

The committee's action was entirely perfunctory, the senate having given instructions that the treaty be reported out immediately, together with the Republican reservations adopted at the last session of congress.

The parliamentary result is to bring the treaty and reservations again to a state where amendments to either can be offered and discussed without any limitations on debate.

Mrs. Everard Knollenberg, Prominent Young Matron, Is Victim of Pneumonia

Mrs. Ada Louise Knollenberg, 35 years old, wife of Everard Knollenberg, local insurance man and notary public, died following a two weeks' illness from a severe bronchial cold, which later developed into pneumonia, at her home, 319 South B street, at 5 a. m., Tuesday.

She was born in Muncie, Indiana, and spent her early childhood in that city, graduating from the Muncie high school. Later she came to Richmond and was employed by the Dickinson Trust company for several years.

She married Mr. Knollenberg in October, 1914. Since marriage she has taken a prominent part in the activities of the First English Lutheran church. She was a member of the Ladies' Aid and Trifolium societies.

She is survived by her husband, Everard Knollenberg; one daughter, Ruth Ann; her parents, Mr. and Mrs. G. B. Ebenhaek; two sisters, Mrs. L. Verne Stansell, and Miss Gladys Ebenhaek, all of Coldwater, Mich. She is also survived by her grandmother, Mrs. Katherine Kendrick, of Coldwater, Mich., and one brother, Mr. O. C. Ebenhaek, of Pittsburg, Pa. Funeral services will be held at the home at 2 p. m. Thursday. Burial in Lutheran cemetery. The Rev. F. A. Dresel will officiate. The funeral will be private. Friends may call at the home Wednesday night and Thursday morning.

National Guard Given Right to Aerial Unit

(By Associated Press)

WASHINGTON, Feb. 10.—Authority to organize an aerial unit in each National Guard division was granted today by the War department. Owing to the limited number of experienced regular officers now available as instructors, however, only such units as can be trained with existing facilities will be formed.

Each unit will include an observation squadron, balloon company, photo section and intelligence branch. It is contemplated the department announced that similar units will be included in regular army divisions under new tables of organization to be prepared after enactment of army reorganization legislation.

BOLSHEVIKI TAKE SAKHALIN, REPORT

HONOLULU, Feb. 9.—Siberian Bolsheviks have captured Alexandrovsk, capital of Sakhalin, and fear is felt that the radical forces may enter Japan proper, according to a special cable despatch from the Tokyo correspondent of Nippu Jiji, Honolulu Japanese language newspaper.

Reports that the Russian Bolsheviks had made inroads on the island of Sakhalin reached this country on Monday but exact details of their operations were not known.

Alexandrovsk, the city said to be in the hands of Soviet forces, is located on the western side of the island and is the eastern terminus of a submarine cable connecting the island with the mainland of Siberia. It is the capital of the Russian section of the island.

The island is about 600 miles long and from 65 to 105 miles wide. It is separated from the Asiatic mainland by the Strait of Tartary and from the province of Yezo, Japan, by the strait of Feroze.

CONSTANTINOPLE, Monday, Feb. 9.—Anarchy prevails in Odessa recently captured by the Bolsheviks, according to advices received here. Street fighting occurred on Saturday between armed factions. Cable communication between here and Odessa is suspended. Three thousand refugees from Odessa arrived here yesterday.

DEFENSE WILL OPEN IN SOCIALIST CASE

(By Associated Press)

ALBANY, N. Y., Feb. 10.—The defense will open today in the trial before the assembly judiciary committee of the five suspended socialist assemblymen charged with disloyalty unless the prosecution meets unexpected opposition in introducing its last odds and ends of evidence.

Such opposition is not impossible. While the committee counsel announced before adjournment last Thursday that it would require "only about 10 minutes" to read into the record excerpts from the testimony of L. C. A. E. Martens, Russian Soviet "Ambassador" before the joint legislative committee investigating radicalism in this state, the counsel indicated that it would object to admission of such evidence unless it was allowed to read many other excerpts of its own choosing.

At least one new turbine of 3,000 K. W. capacity is needed now for the Municipal Light Plant as a protection to light and power consumers of Richmond. This unit would cost about \$175,000 installed, and yet the city has no money with which to buy this equipment, because no money has been accumulated for the day when the present machinery would not operate.

Through the action of the Public Service commission, the Municipal plant has only set aside a depreciation fund on its books of 3 percent for the entire plant, while it is admitted by engineers that such fund should not be less than 10 percent, and some engineers claim it should be 20 percent.

It is also admitted that the value of the plant today is considerably over a million dollars and that any depreciation should be based upon the valuation, making a minimum annual depreciation charge of \$100,000 while only \$21,000 was taken into account in 1919 as an operation cost.

Last year the plant was reported to have made \$62,000 while in reality and based upon business methods of any private manufacturing plant there was an actual minimum loss of \$10,000, added to this amount are all the increased costs of 1920 over 1919, which must be taken into consideration in determining the loss for this year.

The lowest rate, at which current is now being sold is .01293 cents per K. W. which is being paid by the Liberty Light and Power company and the rate which the Wayne Light and Power company propose to operate under.

It is true that a 3 percent depreciation fund has been set up on the books but the money has been used for other purposes and had it been maintained in the city treasury, it would still have been only one-third of the amount necessary to take care of the natural wear and tear on the machinery.

Irishmen Capture Police Station; Seize All Arms

(By Associated Press)

CORK, Ireland, Feb. 10.—After an attack lasting for some time with an exchange of rifle shots, 200 armed men last night captured the Castle Martyr police station. The temporarily made prisoner the five police-men who defended the station. The raiders seized arms and ammunition and decamped.

ARMY OFFICERS TESTIFY BEFORE SENATE COMMITTEE

(By Associated Press)

EL PASO, Tex., Feb. 10.—The senate foreign relations subcommittee here investigating the Mexican situation met in executive session this morning to receive testimony of a number of army officers and others concerning recent events along the border, details of which it was not deemed prudent to make public at this time.

The committee expects to remain here until late this week, it was announced, when it will leave for Arizona. Hearings are scheduled for Douglas, Nogales and possibly Tucson.

LIGHT PLANT OPERATING AT LOSS IN 1920

Rates Must Be Raised to Provide Sufficient Income for Operation and New Equipment.

NEED NEW MACHINERY

The application of the Wayne Light and Power Co. to buy electric current to supply the territory outside of Richmond has brought to light a serious situation in regard to the future of the Municipal light plant; namely, that unless the city materially increases both the power and light rates for current immediately, the municipal light plant will operate this year at an actual loss of from \$25,000 to \$50,000.

The rates now charged for both light and power are less than it costs to produce the current. With the increased cost of coal and labor in connection with the municipal plant some action must be taken immediately by the city officials to prevent a substantial deficit for this year.

Explains Request.

The reason for the request of the Wayne Light & Power company to buy current from the municipal light plant is now apparent, because what they would pay is much less than it would cost them to produce it, and it is less than it costs the city to produce it, the tax payers standing ready to make up the deficit for 1920.

Another serious situation and one which will vitally affect the development of the city is the fact that there is not now a sufficient surplus of machinery at the plant to protect the present consumers. The plant now has the following:

One 700 K. W. Turbine
One 2,000 K. W. Turbine
One 450 K. W. Engine
