Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

**Banker Urges Loan
For Europe Before
Texas Bank Meeting**

(By Associated Press)

DALLAS, Tex., Feb. 11.—Financial aid for Europe and restriction of domestic bank loans so as to deny funds for speculation, was urged today by Henry A. Moehlenpah, member of the Federal reserve board in an address before the Dallas group of the Texas state bankers' association.

America's effort, Mr. Moehlenpah said, should be toward increased production and individual economy. Declaring that Europe's needs were food, raw material and credit, Mr. Moehlenpah said these must be furnished by America.

"Where else can our brothers get it?" he asked. "The kind of men to whom we shall extend credit is the treasury of France and Belgium, the kind of men who kept back the hordes of Germany. These people will pay their debts. Dare we forget them in their extremity?"

Mr. Moehlenpah, fearing that "the war, financial, has just begun" Mr. Moehlenpah urged a campaign of education "to stop the people in their debauch, their spite, their extravagant living and spending."

"This lesson must be put into practice behind the counters of every bank," he said. "Every loan should be scrutinized to the end that every dollar should count for production and a cent for speculation."

Although different plans to deflate credit are being advocated the speaker declared that increased production and conservative regulation of credits should be the present policy.

The Edge foreign finance law was praised by Mr. Moehlenpah who also urged entrance into the federal reserve system of eligible state banks.

This navy blue serge suit with its Spanish touches shown in the cutaway little bolero jacket and the brilliant hip cash is decidedly youthful in its appeal. It is in one of the advanced showings of new spring styles and will undoubtedly be a popular model. It features a full skirt with clusters of pleats at marked intervals.
