

CITY LABOR FAVORS "RED" DEPORTATION

Unanimous vote of "Yes" in answer to the question, "Are You in Favor of Deporting the Reds?" asked all labor associations in the country by a publication, was made by the Central Labor Council Thursday night.

A resolution offering assistance in every way possible to push the movement to build a memorial building to soldiers of the world war was also adopted by the labor men.

The council noted that the building be centrally located and that provision be made for it to be a community building.

The motion to appoint a delegate to the first annual meeting of the State Federation of Labor in Indianapolis Friday, Saturday and Sunday was tabled indefinitely. The Indianapolis conference was called to organize a state labor party.

A resolution to petition the city labor council to pass a daylight saving ordinance was also adopted.

A COATED TONGUE? WHAT IT MEANS

A bad breath, coated tongue, bad taste in the mouth, languor and drowsiness usually signs that the liver is out of order. PROF. M. E. T. R. says: "The liver is an organ secondary in importance only to the heart." We can manufacture poisons within our own bodies which are as deadly as a snake's venom. The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

Dr. Pierce's Pleasant Pellets are made of May-apple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

Carter St.
