### To Wash Away Those Wrinkles and Crowsfeet

If your face is disfigured with wrinkles, no matter what the cause, you can quickly dispel every line, even the most obstinate, by using a simple, home-made wash lotion. Merely dissolve an ounce of powdered salicylic acid in a half pint of witch hazel—ingredients found in any drug store. Bathe the face in this, and—presto!—you scarcely believe your own eyes when you look into your mirror and behold the marvelous transformation!

The remarkable astringent action of the salicylic acid tightens the skin, wrinkles are literally pressed out. Best of all, this result is not purely temporary, for the lotion also has a healthful tonic action, which tends to strengthen and tone up the weakened tissue, and added benefit may be expected with continued use. Use this once a day for awhile; it cannot injure the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance.—Advertisement.

ALMOST IMPOSSIBLE TO SUPPLY ENORMOUS DEMAND FOR TANLAC

Although Huge Laboratories Turn Out 36,000 Bottles Daily Thousands of Dealers Cannot Be Supplied.

40 CARLOADS SOLD IN JANUARY ALONE

After Shipping 838,400 Bottles of Celebrated Medicine in One Month Factory is Still 380,000 Behind With Orders.

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a phenomenal increase in demand for this celebrated medicine.

During the first ten weeks of last year, One Million, Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all world's records for the sale of proprietary medicines up to that time.

However, as orders received during January alone of this year reached the astonishing total of One Million Two Hundred and Twenty Thousand bottles, showing an increase of approximately one hundred per cent over the corresponding time of 1919.

To say that Tanlac now has the largest sale of any medicine of its kind in the world expresses it mildly. It does not begin to tell the story—for no other preparation has even approached the phenomenal record that is now being made by Tanlac; and it is now conservatively estimated that the sales for the present year alone will amount to from seven to ten million bottles.

Of the orders received during January it was possible to ship only eight hundred and thirty-eight thousand bottles, and thousands of dealers scattered throughout the United States and Canada have been unable to obtain the medicine for weeks.

"Phenomenal and Bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac.

"We know that the day of miracles has passed, and we all know that there are no unfathomable mysteries in the drug business, but this Tanlac proposition smacks of both," writes another leading wholesale druggist whose firm has sold over 34 car loads, or an average of nearly one car load per month since they began handling Tanlac a few years ago. Thousands of similar letters and telegrams have been received, but for lack of space, they can only be referred to briefly.

Most proprietary medicines are sold by the dozen or by the gross; a few are bought by the trade in quantities of from ten to twenty gross; a very few are sold by the car load, and then only to the largest jobbers, covering extensive territories. The fact therefore that scores of jobbers in this country and Canada have a demand sufficient to justify them in ordering not one carload, but two or three car loads of Tanlac at a time makes Tanlac's pre-eminence in the field of medicine all the more noteworthy. It is the biggest thing of its kind in the

world and nothing like it has ever happened in the drug trade before.

Think of one retail firm selling one-third of a million bottles of any one medicine right over the counter direct to consumers in only two years' time! It seems incredible, but such is the record made by the Owl Drug Company, through their retail stores on the Pacific coast.

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles, an average of over two bottles for every family, in only four years' time! Such is the record of the Jacobs Pharmacy Company, of Atlanta.

Think of one retail firm giving a single order for the entire car load, twenty-three thousand and forty bottles, and agreeing to pay cash for the goods promptly on arrival. Such an order has been received from the Lewis K. Liggett company, of Winnipeg, Canada.

Another big Canadian retail firm, G. T. McNabb, Limited, Toronto, Canada, gave their order for one hundred gross, amounting to \$10,800.

Orders from retailers for from fifty to seventy-five gross are not uncommon, and practically all of the leading retail firms buy Tanlac in from ten to twenty-five gross lots to supply their normal demands.

When the magnificent new laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor capacity of seventy thousand square feet and a combined capacity of thirty-six thousand bottles, were completed, it was thought that the production would be sufficient to supply the demand for years to come. It is now apparent, however, that additional facilities must be provided if the supply is to keep pace with the demand. And this is true in spite of the fact that there are now on the market from fifty to one hundred preparations claiming similar therapeutic value.

Tanlac now has been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village, and hamlet on the American continent from Key West, Florida, to the northern wilds of Canada, where even the Indians and fur traders have learned of its wonderful powers as a medicine. Its enormous and ever increasing popularity is the one great outstanding proof of its wonderful merit.

No medicine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year, if it did not produce actual and positive results.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food and Health Laws, of both the United States and Canada, and although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have known what it is. Millions upon millions have used it and have told other millions what it has done for them.

That is why Tanlac has become the real sensation of the drug trade all over America.

Tanlac is sold in Richmond by Clem Thistlethwaite, in Greensfork by C. D. Corning, in Cambridge City by Mr. Dean House, in Pershing by Sourbeer & Rodenberg, in Centerville by Centerville Pharmacy, in Dublin, by E. R. Money, in Williamsburg by S. Meren Catey Co., and in Milton by W. L. Parkins.—Advertisement.
