

HAVE DANCED, NOW PAY FIDDLER, SAYS FARMER TO TOWNS

Opinions of farmers on the agricultural and industrial situation follow:
ROY E. SMELKER, New Paris, O.—I am one of the many farmers of this neighborhood that will be forced to decrease production of food supplies during the coming season, because of inability to get help. I believe I can make more clear money and do less work myself and not have to bother or worry about any hired help. A neighbor of mine tried this plan last year and it worked like a charm.

If city folks really realized the importance of agriculture, they would devote more time to the study of this subject than they do to Latin. They realized its importance when the German submarine peril was at its height. They will realize its importance more and more during the next few years.

Why is there a sugar shortage? Because the production of sugar cane and sugar beets has been a losing game for the farmers. Hundreds of Louisiana sugar cane planters went bankrupt early in Wilson's administration because of ruinous legislation.

Town Life Attracts.
For 20 years people have been leaving the country and going to town. They all go for the same reason: shorter hours and more money. This movement will continue until in a few years city folks go hungry and ragged, because there are too few producers on the farms.

A friend of mine planted an apple tree, cared and protected it for six years. Took the first bushel it produced to town and sold it to the grocer for \$2. The grocer retailed them in less than 24 hours for 10 cents a pound; \$4.50. The grocer made more profit off of that apple tree in one day than the farmer had in six years.

If the retailer earns the 10 and 15 cents a dozen he charges for handling eggs, the farmer ought to have at least \$2 a dozen, if he gets as well paid for his work.

Retailer Is Gouger.
The city retailer gouges the producer and bleeds the consumer. He refuses to handle many of the farmers' products, unless he can make at least 100% profit in a few hours time. At present he offers me eight cents a pound for popcorn that he retails at 24 cents.

A few years ago I lived in a city about half the size of Richmond. There wasn't a grocery in that town that would sell you an honest neck of potatoes and give you full weight that you were entitled to by law. One of the leading grocers of that city said that an honest man had no business trying to run a grocery store. That if, a grocery didn't get rich while the war was on, he never would.

On with the dance! You city folks enjoy life while you can, but remember those who dance must pay the fiddler.

Farmers Are Organizing.
The old line politicians in North Dakota have been kicked overboard and the farmers are running the state house, from tower to foundation stone. Coming over from here in Ohio the farmers have the balance of power in the state legislature and run the show to suit themselves.

The salvation of the farmer depends on his learning to scratch his ticket on election day. As long as he braces that he votes his ticket straight, he deserves no sympathy and will get no relief. There are plenty of farmers of both parties that would vote their ticket straight (and brag about it) even if there was nothing on them but yellow goods and billy goats.

Exchange Handshake for Knife.
Just before election the city politician comes out with a hearty handshake and a cheap cigar and then puts the knife into Friend Farmer during his entire term in office.

Organized labor is going into politics. Yes and organized farmers are going into politics. For every vote that Labor casts for many candidates, farmers will cast 10 against.

I have always been a Wilson man and am proud of it, but I believe that the farmers of good old United States of America will select and elect for the next president a man who understands that agriculture is the life blood of our nation, that without it the streets of your city

and all other cities would grow up in weeds or be covered with desert sands. Hats off! Governor Lowden, of Illinois, the next president.

**FATHER DIES; SIX CHILDREN
ARE SICK WITH INFLUENZA**
SULLIVAN, Ind., Feb. 24.—John Swanner, age 39, a farmer living three miles south of Sullivan, died Saturday of influenza. His six children are all critically ill with the disease and his mother, 80 years of age, is also a victim. The widow is attending the seven stricken members of the family. Many of the Swanners' neighbors are bedfast with the same disease.

EDWARDS INVADES U. S. FROM AUSTRALIA

Low Edwards, the lightweight champion of Australia, who is now in this country, intends to make searching inquiry into the matter of Benny Leonard's weight before he consents to meet the champion in the ring. Edwards is a small lightweight. He can do 130 pounds if necessary.
Benny Leonard may meet Mike O'Dowd, the middleweight champion. The ambition to fight Mike O'Dowd is not a new thing with Leonard. Long before he became champion Benny wanted to mix with bristling Mike. After he won the title he insisted that he could take Mike into camp.

W. R. Sheehan, representative of William Fox, movie producer, is on his way to Paris after the signature of Georges Carpentier to fight Jack Dempsey in the United States either July 4 or Labor day.
At Fox's office, it's said the European heavyweight champion has accepted the offer of \$250,000 and a split of the receipts.

Connie Mack's batterymen will head the parade of major league players to the training camps in Dixie. They will leave Philadelphia next Friday, Feb. 20, for Lake Charles, La. The regulars will follow a week later.
Al Demaree has discovered that the distance he must travel from the majors to the minors is quite a trip. Demaree goes from Boston to Seattle. Cleveland teams have trained at New Orleans in 14 of the last 18 years, and the 1920 team will also do its conditioning in the Crescent City. No other team has stuck to one training camp so consistently.
Ray Demmitt, one-time Yankee and a member of the St. Louis Browns for the past two seasons, is not to be a member of the St. Louis club in the coming campaign, according to reports from the Mound City.

**FRITZ IS BUSY FINDING
"WAR CRIMES" OF ENEMY**
(By Associated Press)
BERLIN, Feb. 24.—The Saxon demobilization bureau is engaged in a compilation of "enemy war crimes" and claims to possess much evidence bearing on occurrences at Dantzig, Belgium, in August, 1914, when the city was burned after alleged attacks upon Germans by Belgian snipers.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and sold by Conkey Drug Company and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health.

CAUTION:—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Advertisement.
