

MARTENS FAVORS PROLETARIAT RULE IN UNITED STATES

(By Associated Press)
WASHINGTON, Feb. 25.—Ludwig C. A. K. Martens, Russian soviet agent in the United States, told the Senate investigating committee today that he would like to see the "dictatorship of the proletariat" set up here.

"That is what I wish," he said, "not what I am working for."

He was given permission to qualify his statement made at a previous session that he was a revolutionist in the United States.

"I meant," he said, "that I have always worked for the revolution in Russia, not revolution elsewhere."

Wade Ellis, examiner for the committee, asked if a Lieut. Col. Beck was on the soviet bureau staff in New York, listed as "Military attaché." Martens identified him.

Introducing a cablegram addressed to M. Latvinoff, Soviet envoy in Scandinavia, Mr. Ellis said:

"Senate investigation progressing favorably. Transfer money to me in larger amount."

Under further questioning Martens said he did not know Emma Goldman, but has written her a letter, because "her feelings were hurt by reports that we had made statements about her."

"My country will be glad to offer an asylum to the first group of political refugees from the United States," the letter said.

Mr. Ellis asked if this statement was intended to "promote friendly relations between Russia and the U. S."

"The crimes for which many persons are given 10 to 15 years in prison in this country," Martens replied, "would never be touched upon in Russia."

Capt. Detzer Returns to Home; Threats Idle
PT. WAYNE, Ind., Feb. 25.—Captain Karl W. Detzer, son of Mr. and Mrs. August J. Detzer, of this city, who was acquitted in a court martial trial at Governor's island on a charge of mistreating American soldiers who had been imprisoned, is spending a few days with his parents.

Captain Detzer, a former Ft. Wayne newspaper man, has made no definite plans for the future, he says. He has just returned from a visit with friends in Indianapolis, Louisville, St. Louis, Alton, Ill., and Chicago. At each of these places, men of his old commands greeted him enthusiastically, he said. At Alton, 200 ex-servicemen gave a banquet in his honor.

Captain Detzer said that he experienced no trouble with any of his alleged enemies in the cities he visited. Letters threatening his life in the event he visited any of these places apparently were from harmless sources.

Franklin D. Olier, national commander of the American Legion, today issued the following comment with regard to women eligible to membership in the American Legion:

"All women nurses who served in the nursing corps of the United States army or navy are eligible to membership in the American Legion. The American Red Cross before and during the war recruited thousands of trained nurses, most of whom were later enlisted in the nursing corps of the army or navy, upon request made to the Red Cross nursing service. There were, however, many who went abroad under the direction and in the pay of the American Red Cross, who are not eligible to membership."

"All female members of the navy and marine corps who were regularly enlisted upon the same terms as the men in those branches of the service, are eligible to membership in the legion."

"Civilians who were simply civilian attaches of the military service and were not regularly enlisted personnel under commission or enlistment contracts, are not eligible to membership."

"The above applies to regular membership in the American Legion and should not be confused with the women's auxiliary of the American Legion, which was provided for in the constitution adopted at the Minneapolis convention and which makes provision for membership therein as follows:

"Membership in the auxiliary shall be limited to the mothers, wives, daughters and sisters of the members of the American Legion, and to the mothers, wives, daughters and sisters of all men and women who were in the military or naval service of the United States between April 6, 1917, and November 11, 1918, and died in line of duty or after honorable discharge and prior to November 11, 1919."

Caillaux Tried to Guard France's Interests He Says at Trial; Denies Treason

(By Associated Press)
PARIS, Feb. 25.—Former Premier Caillaux, being tried on the charge of having had treasonable dealings with the enemy, said he foresaw in 1916 the economic conditions that would prevail after the war.

He declared he had sought an economic alliance with Italy within the entente, so that Italy's and France's interests should be safeguarded, was there any question of politics or a peace of compromise.

Theodore Lescouvie, the state prosecutor, read a letter from the wise minister of justice, refusing to permit Chief of Police, Wettnier of Geneva and witness named de Rousen, to come to Paris to testify in the Caillaux case, which the minister classified as a political one. He said that he would allow the witnesses to come if needed in a civil or a criminal case.
