

## TOBACCO PRODUCERS FIGHT LOW PRICES OF MANUFACTURERS

LOUISVILLE, Ky., March 3.—For the first time since the conflict that culminated in the "night rider" era in Kentucky, the tobacco growers and dealers in the state and the big tobacco manufacturers are on the verge of conflict because of the decline in the price of tobacco.

The growers and dealers say that the big manufacturers, refusing to engage in competitive bidding, have forced the prices down to less than the cost of production.

Tobacco Growers and Dealers' protective Association of Louisville, which is backed by the Louisville Tobacco Board of Trade, has appointed committees to go before the Kentucky legislature and congress with the tobacco growers' difficulties and has engaged legal aid.

In the official appeal to the growers of Kentucky, Tennessee, Ohio and Indiana to join in the fight the association says:

"The tobacco crop in the Carolinas was normal in size and quality. At opening sales prices were high, but prices continued to advance materially through the season. For instance, one broker reports that he started buying with a \$55 limit on a certain grade but before the season closed he was permitted to pay \$1.33 per pound for the same grade, but obtained little even at that figure.

"The burley tobacco crop, in Kentucky was short. In December the loose leaf market opened and high prices were paid for the better grades. Ever since the opening week prices have steadily declined in the face of a shortage of both quantity and quality. It is an actual fact that 70 per cent. of the 1919 crop of burley is being sold for less than the cost of production.

"Millions of pounds are selling below 4 cents a pound and the actual cost of producing tobacco is 18 cents a pound. Whole rows of basket tobacco are being sold on the loose leaf floors for an even lower figure than that which prevailed before the night riding days.

"Tobacco is produced for the benefit of the Trust. It is their positive duty to pay a fair and living price for the same. As they are delinquent in this

## TRouble OF A LIFETIME DISAPPEARS

This Woman Can Eat Anything She Wants Now Since She Gave Vola-Tonic a Trial.

### GETS APPETITE BACK

"I am glad to recommend Vola-Tonic to others because it proved to be just what I needed," said Mrs. Flossie White, 2726 Mead avenue, Cincinnati, O.

"All my life I have been troubled with my stomach," Mrs. White continued. "Everything I ate soured on my stomach and caused gas to form. I ate a little more than usual within twenty minutes I'd be in intense pain and often I couldn't keep food on my stomach at all. I acutely dreaded for meal-time to come because I knew I'd be in misery after eating. Finally, my appetite left me almost entirely and I didn't eat enough to keep a bird alive.

"I had spells of dizziness also and it would seem like everything was whirling around and around.

"Vola-Tonic was recommended so highly that I got a bottle and started taking it. Since then I have taken several bottles of Vola-Tonic and it has proved to be just what I needed.

"My appetite came back fine after I started taking Vola-Tonic and I am eating real meals now. My stomach is in excellent condition, too, and all the misery I had after meals is gone.

"I'm glad to recommend Vola-Tonic and hope others will try it."

Vola-Tonic, "Builder of Strength," has helped thousands of weakened, run-down men and women and it will do for YOU what it has done for others. Get a bottle of Vola-Tonic—TODAY!—at any of the five Quigley drug stores.—Advertisement.

respect and, as competition seems to be a thing of the past, the Tobacco Growers and Dealers association has determined to request the national and state authorities to investigate the present conditions of affairs and, if necessary, apply the laws both of state and nation.

We are informed that two of the Big Four are purchasing tobacco on various markets through the same agency and, if such is the case, the law is being clearly violated and we desire to seek legal redress."

**ILLINOIS CONGRESSMEN WILL NOT SUPPORT WOOD**

WASHINGTON, March 3.—The Illinois Republicans in congress joined in a message to the Leonard Wood campaign committee of that state, characterizing as "offensive" a telegraphic request from the committee that they support General Wood for the presidential nomination, or else name some one else in each district who would do so. The dispatch said:

"The delegation as a unit, wishes to express its firm belief that the state of Illinois is not in any sense of the word for Leonard Wood for president."

### NO CLUE OBTAINED IN SPICELAND BANK ROBBERY

NEWCASTLE, Ind., March 3.—No clew has been obtained to the mystery who last Thursday morning obtained \$15,000 from the Henry county bank, a private bank at Spiceland, but the large oxygen tank has been identified as the one stolen about 10 days ago from the Albertson machine shop in Knightstown.

On the same night the tank was taken from the machine shop, one of the main telephone cables in Knights-town was severed, and it is believed the men planned to rob one of the two banks.

**MUNCIE POWER COMPANY REQUESTS NEW SCHEDULE**

INDIANAPOLIS, March 3.—Applications for the establishment of a new schedule for power rates was filed with the public service commission today by the Indiana General Service company of Muncie, to apply to power consumers in Muncie, Normal City, Riverside City, Shideler, Eaton, Hartford City, Dunkirk and Redkey. The basis for computing the rates of the schedule requested has not been attempted in Indiana in the past, but

has been inaugurated by electric companies in Ohio, Pennsylvania and West Virginia, it is said.

## How Signs Of Old Age Creep Into Your System When The Iron In Your Blood Runs Low

For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy

### IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed worry, over-work, nervous strain, dissipation and occupational poisons to attack the iron in their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and steadily going downward to physical and mental decay while others at 50 are strong, active, alert and seemingly growing younger every year.

One class withers and dies like leaves in autumn while the other by keeping up a strong power of resistance against disease may pass the three score and ten mark with surprising health, strength and vigor.

But you cannot expect to look and feel young and vigorous unless you have plenty of iron in your blood, and physicians explain below why they prescribe organic iron—Nuxated Iron—to supply the iron deficiency in the weak, nervous, and run-down so as to build them up into stronger, healthier men and women.

Thousands are ageing and growing down in time when they should be enjoying perfect health because anaemia—lack of iron in the blood—has fastened its grip on them and is sapping their vitality and energy. But every opinion you can't make strong, keen, forceful men and healthy rosy-cheeked women by feeding them on metallic iron.
