Less You Wear Girls, More It'll Cost, It Seems Like

Consider the low neck, above-the-elbow sleeve, and mid-knee dresses, and how they sell, and forget not the short vamp French slipper, and you may begin to wonder where they get all this high-price-on-clothes proposition. Surely it isn't the amount of material used?

Certainly not, Clifford, we'd all be in the insane hospital if fabrics were their present price, and dame fashion called for voluminous costumes. That's one thing fortune has favored us in—we must look skimpy.

"It's a logical question: 'How can you expect women to wear many clothes when the price of cloth is so high?'"

The question is all right, but the answer is very bad. The reason is very little dress is worn to keep the price down, but to give it a chance for higher volition.

Madame Fashion says silk spring frocks must have very short sleeves, but how would one look in above-the-elbow sleeves and wrist length gloves? So, long gloves must be bought and paid for at the rate of \$15-\$18.50 per pair.

Skirts Slide Up Again. But we've only started. Skirts are going toward the knee again and that means more silk stockings and occasionally, at least, one must have a really good looking pair of stockings with at least a \$1 worth of embroidery—sold for \$8.50 and up—on them. Ye wearers of silk stockings know how they wear. Even the naughty tricotone does better.

Now the evening dress is exceedingly plain, except in a few places, and the foundation material must as a result, be very good. That is, anywhere from \$15 to \$40 or so a yard.

No wonder there isn't much of it when it's draped on the human figure. Sometimes it looks, in truth, as if the wearer had taken her last \$40 and stepped forth triumphantly arrayed in the one yard at \$40 per. And who can protest the extreme paucity of the garment which costs that much a yard? It's bad enough to spend the summer buying a pair of shoes!

But Future's Bright—Maybe! It is rumored, however, that there are to be no sleeves or shoulders in the gowns next year, so the need for gloves will doubtless be less. Now if they only don't demand kid bodices with the missing sleeves and shoulders!

And it is likewise rumored that socks are coming in strong again, and maybe that'll bring down the embroidery price. Maybe!

Before you know it, this will be an ideal world.

High School Orchestra to Give Concert for Orphans

League of Women Voters To Be Discussed Here

Whether Richmond women are entirely partisan, and whether there is a desire for the formation of a non-partisan League of Women voters, will be considered at the next meeting of the executive board of the Richmond Woman's Franchise league, which

Mrs. Harlow Lindley, president, will call soon. Members of the committee were approached Wednesday regarding the Women Voters league sentiment here, and generally said that "if Richmond women want the league, a branch will be organized here."

"But the question is do they want it or is the need of such an organization passed now that women have the right to be partisan?" said Mrs. Lindley, Wednesday. "The great difference of opinion at the Chicago convention of the National Woman's Franchise league was evidence that the question is not a cut and dried one," said she.

Plans are now under way for the reorganization of the Indianapolis branch of the Woman's Franchise league, into the new organization, and it is presupposed that state centers will await the initial step of the capital city women.

Stop and Think --- Health Depends Upon The Kidneys

Increasing Death Rate Each Year From Preventable Kidney Trouble

In our pursuit of the mighty dollar, we too often are absorbed in the topics of the day, pleasure, etc., to stop and consider our health. Stop now—think—kidney diseases caused 100,000 deaths last year. Are you going to be included in this year's toll? Why, you will exclaim, do so many die, why are the health authorities so concerned; the answer is, we bolt down our food, take no exercise, neglect our sleep and otherwise subject our system to all sorts of abuse. Is it any wonder then the kidneys become diseased and fail in their duties of poison elimination.

Poisons are constantly being created in our bodies and if the kidneys fail to carry them off they are absorbed by the blood causing ill health and misery in the form of headaches, backaches, tired feeling, indigestion, etc. You may avoid considerable suffering if you heed nature's warnings and assist the kidneys. Warner's Safe

Kidney and Liver Remedy is a reliable preparation made from herbs and other beneficial ingredients that has been used with excellent results for 40 years.
