

FOUR SCHOOLS OF COUNTY CENSORED IN HEALTH REPORT

Four schools in Wayne county, outside of Richmond, inspected recently by Dr. Helwig, of the state board of health, County Health Commissioner Building, and County Superintendent Williams, have been condemned in at least one respect in Dr. Helwig's report to the state board.

The schools include the Milton school, Washington township; Greensfork school in Clay township; Hagerstown school, in Hagerstown and the Pershing school, in Jackson township. The report in detail follows:

The school at Milton should be condemned for the following reasons: No ventilation, pupils in two of the rooms face windows; heating system is not adequate; crossed light in all rooms; insufficient lighting, and other conditions which cannot be remedied by remodeling the building.

Greensfork Building Crowded.
The building at Greensfork, Clay township, is a comparatively new building and could not be condemned but orders should be given to the trustee, Mr. Charles Bond, that the overcrowded condition be relieved by the beginning of the next school year. In the high school room of this building there is but 7-10 square feet per seat and 83 cubic feet per seat.

In room of this building, 14 square feet of floor space is found, also 171 cubic feet. "The crowded condition of the building makes it necessary to use two rooms in the basement for laboratory, recitation and domestic science purposes. This basement is eight feet four inches in the clear.

Another condition which I have ordered the trustee to attend to at once is in reference to the furnace. One furnace is immediately under the stairway and but a few inches exists between the stairway. The furnace has no provision for fire proofing as required by rule.

In all rooms crossed light is present but I have some doubt as to whether the side can be made blank and sufficient window space added to the other side to give sufficient glass area. I would recommend that the crowded rooms be closed at the end of this school year and their use prohibited until the crowded condition is relieved by additional building. The grounds at this school are ample to add any necessary additions.

Report on Hagerstown
The Hagerstown school is an old brick, two story and attic building. A basement was made in this building to accommodate the heating plant which is working very well, and heats all rooms uniformly. I find that in some of the rooms inside floor space, glass surface and cubic content. I found two portable buildings at this school, one of them being used for domestic science and physics laboratory, and commercial room. These rooms with the exception of the domestic science are heated by stove. The domestic science room is not provided with heat and it cannot be heated at that account during cold weather.

The portable building used for manual training is likewise heated by a stove. In all these buildings crossed light is present and at the expiration of the time limit for the use of portable buildings, I would recommend that these be ordered removed. I likewise recommend that the Hagerstown school be condemned.

The Pershing, Jackson Township school is a two-story brick building, surrounded by inadequate grounds with objectionable features contiguous thereto. The privies at this school are in a deplorable condition and nothing less than new ones will be satisfactory. The two rooms on the first floor of this building are the only ones in use, the second floor having been abandoned some time since.

Rooms are inadequate.
These rooms are inadequate in cubic content, glass surface and floor space. There is no ventilation except by windows. The rooms are heated by stoves and no remodeling or repairing could place this building in a condition for use. I therefore recommend that this building be condemned at the close of this school year.

There is no basement under this building, and a two-story school could not be operated and comply with the laws and rules and regulations in this building unless a basement were provided and to do that would entail an expense which is unjustified. Dr. A. E. Ehle, of Pershing, is trustee of Jackson township.

SECOND RICHEST WOMAN IN GERMANY TO WED KAISER'S FORMER PRIME MINISTER

The report, circulated a year ago, that Frau Anne von Fried-

lander, wealthy German woman, and Dr. Richard von Kuehlmann, formerly the kaiser's prime minister, are engaged to wed, has been revived again and with seeming authority.

Before the war Frau von Friedlander Fuld was regarded as the wealthiest woman in Germany with the exception of Bertha Krupp.

EXCHANGE DIPS UP SHARPLY AS FEATURE OF WEEK'S TRADING

(By Associated Press)
NEW YORK, March 6.—A sudden uprush in foreign exchange with the pound sterling some 50 cents over its low record of a month ago, and concurrent advances in rates to the other allied countries, were the foremost features of the week in the financial market.

The rise was attended by circumstantial reports of early gold imports on a huge scale from England, and possibly France, but these were almost discredited in high banking quarters.

International financiers are agreed that the foreign credit situation weighs heavily over the world's commerce but aver that the British trade balance is in process of rapid readjustment with marked betterment in the French situation.

There was a pronounced slackening of business in stocks which were irregular at best, save for resumption of pool operations in motors, oils and affiliated issues.

CHICAGO, March 6.—Reports of immense use of corn on farms have done much this week to force a lively ascent of the corn market. Compared with a week ago, corn quotations this morning showed a net gain of 5 1/2 to 6 1/2 cents; oats were up 2 1/2 to 3 1/2 cents, and provisions 25 to 82 cents.

Recruiters Leave to Get Furloughed "Out"

The First Division army recruiting party, now stationed in Richmond, was cut from 17 men to eight men Saturday, following instructions received by Lieutenant Fred J. Coyne, Jr., in command of the party.

Nine non-commissioned officers were sent back to Camp Taylor, Ky., to be furloughed to the reserve, having served their active period. All the men were veterans of the world war and all saw over two years' service overseas.

Hight School Notes

Shannon Neff of the history department explained briefly the revisions which have been suggested by the Student Council for the constitution of that body, including the lowering of representation from about 50 to 20, through a system of class delegates instead of room delegates.

The Madrigal club at Earlham under the baton of Prof. Samuel L. Gorton, sang for the upper classmen's chapel at high school Friday morning. Girls of the senior class will meet next Monday night to decide upon appropriate dresses for their graduation. That caps and gowns are not to be worn was decided some time ago.

JEWISH WOMEN GIVEN VOTE IN PALESTINE

(By Associated Press)
NEW YORK, March 6.—Jewish women in Palestine have been granted the vote and will be eligible for election to the constituent assembly, according to a cable message received from London by the Zionist organization of America. The message from the international Zionist organization stated that the assembly would convene soon to formulate a constitution.

WEARY WILLIE HAS WENDED HIS WAY INTO NOWHERE

NEW YORK, March 6.—The hobo, whose labor was sought by farmers' character in America, according to the American Land service, which supplies seasonal workers from the city for farm work during the slack seasons.

Prosperity, prohibition and even the war time "work or fight" order are attributed by farmers as causes for the disappearance of "Weary Willie."

A FRIEND RECOMMENDED THEM

A person often does more good than he realizes when he tells a suffering friend how to get well. J. N. Smith, clerk Little Hotel, Evansville, Ind., writes: "For weeks I suffered constantly with pains in the muscles of my thigh. I was treated by the doctor for rheumatism but found no relief. A recommendation of a friend, I tried Foley Kidney Pills and began to get relief almost immediately. Good for backache, rheumatic pains, stiff joints. For sale by A. G. Luken & Co.—Advertisement."

County is 8 Teachers Short, Says Williams

Eight positions for teachers in county schools, outside of Richmond, are open. Three teachers are wanted in the high schools, one for English, one for Latin and one for English and Latin, said Superintendent Williams, Saturday. Instructors are wanted for the intermediate grades, one for a district school, and one for domestic science.

Several school rooms have been closed for over a month because of lack of teachers.

(By Associated Press)
NEW YORK, March 6.—Sale of Red Cross seal stamps in this country in 1919 totaled \$4,200,000, according to reports received today at headquarters of the National Tuberculosis association. This is more than double the last previous sale in 1917.

The largest sales thus far recorded are New Hampshire 14 cents per capita; Tennessee 9 1/2 cents, and Kentucky 7 cents.

PROSECUTION TO CLOSE IN SOCIALIST HEARING

(By Associated Press)
ALBANY, N. Y., March 6.—Investigation of the five suspended Socialist members of the state assembly will close next Tuesday, when Elton R. Brown, former state senator, will complete summing up for the prosecution before the judiciary committee of the assembly which has been conducting the hearings.

Seymour Stedman, of defense counsel, yesterday made the final plea for the seating of the five men who were suspended on Jan. 7, the opening day of the state legislature on charges of disloyalty. Briefs are to be filed by counsel of both sides with the committee next week.

PROPOSAL TO BUY ISLANDS ROUSES BRITISH OPPOSITION

(By Associated Press)
LONDON, March 6.—Neither the British government nor any one in official circles here is seriously considering the suggestion of the cession of British West Indian islands to the United States in payment of Great Britain's debt in America. The Daily Mail says the government does not intend either now or at any future date to enter into any negotiations on this subject. Members of parliament express objections of the strongest sentimental and practical character against the proposal.

EUROPEAN CREDIT BILL IS HELD UP

(By Associated Press)
WASHINGTON, March 6.—Holding that the United States grain corporation has sufficient authority to extend relief to central European nations, the house rules committee today decided against giving legislative preference to the \$50,000,000 credit extension bill. Chairman Campbell told the committee that necessity for legislation action had been removed by the decision of the grain corporation, announced to the committee yesterday by Julius H. Barnes, president to ship to Europe and sell on credit 5,000,000 barrels of soft wheat flour, should congress not act to permit sales for cash.

President Barnes told the committee that the corporation had found it impossible to sell the soft wheat flour in the United States.

THE FRANKLIN CAR

THE owner of a Franklin Car can cover greater distances in a day with comfort and safety than the owner of any other car.

That is because of the Franklin's riding comfort and ease of control, which allow it to hold the road at all speeds, cling to the turns, and smooth out the rough stretches. It can therefore maintain faster average road speed from point to point.
