Sixth district colored Republicans met in Connersville Thursday afternoon and night. Delegates from all the counties of the district were present. Many women attended.

The workers were addressed in the afternoon by Mrs. M. E. McCurdy, of Richmond, colored woman Republican organizer; Miss Katherine Smith, of Indianapolis, a member of the women's bureau, state Republican committee, and Cornelius R. Richardson, Richmond attorney, and a representative of the state committee. Supporters of various candidates for governor spoke.

Resolutions commanding the work of Cornelius R. Richardson, as a state committee representative; Walter Besser, as chairman of the sixth district and Edmund Waszmutz, state Republican chairman, were adopted.

A resolution giving support to Will H. Hayes, national chairman of the G. O. P. party, was indorsed. George E. Floyd, chairman of Republican work among colored voters of the Sixth district, presided at the night session.

Up, Up Climbs the Price of Lady Nicotine

Richmond followers of Lady Nicotine are now paying more for the pleasure of a "good smoke" than a month ago. The general increase in cigars within the last month has been one cent a cigar. The 12 cent cigar, however, has advanced to 15 cents straight. The most popular brands of cigarettes could be purchased for 18 cents a package a month ago; today they cost 20 cents. A popular 25 cent grade sold for 23 cents a month ago.

The worst, however, is that dealers predict a further increase and the day is not far off.

The Beginning of Spring

Winter has gone and long outdoor romps give the kiddies appetites like wolves.

Everything tastes good to them, but nothing quite so good as a big slice of crisp golden-crusted bread baked at home from Valier's Enterprise flour. That certainly hits the right spot.

It's as wholesome as it is delicious, too, and brings the roses to their cheeks. For such baking contains all the elements of a well rounded food.

Valier's Enterprise Flour

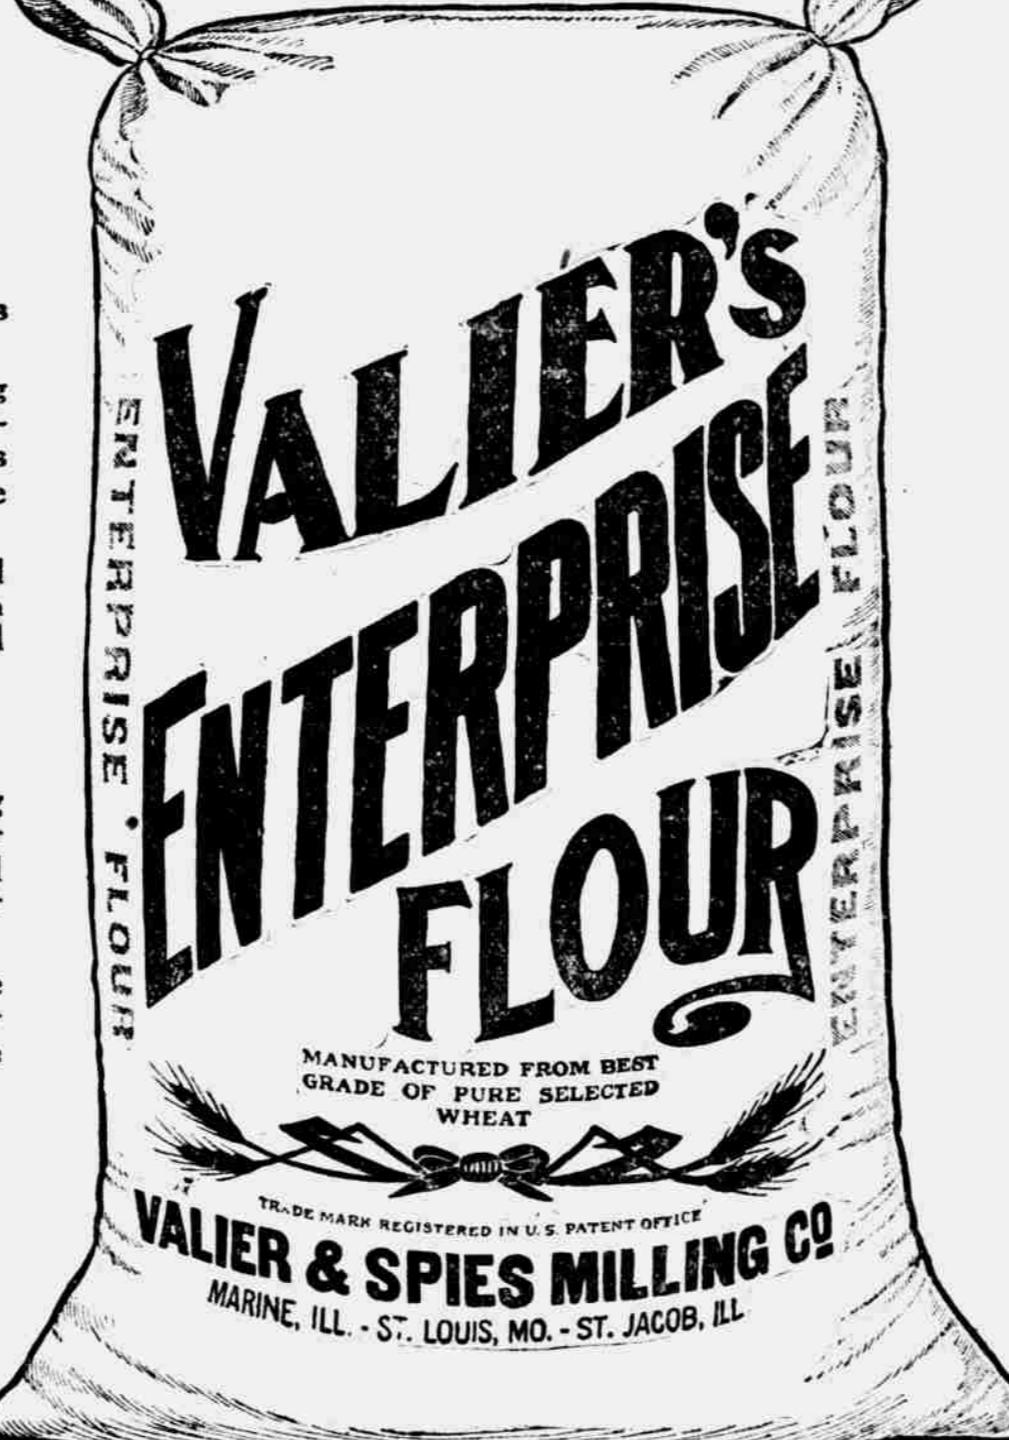

represents the pinnacle of modern milling skill. Ground from the finest hard winter wheat grown, rich in gluten and silk-sifted to remarkable fineness, it is unequalled for fine baking.

Of course such a flour costs slightly more in the sack, but the difference is really insurance. It protects you against expensive failures and assures you of

After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vick's Vapo-Rub usually helps to lessen the violence of the coughing, but it is during convalescence that Vick's is most valuable.

Because Vick's acts locally by stimulation thru the skin to
