

TEACHERS' PENSION PLAN PRESENTED TO STATE AUTHORITIES

Wayne county and Richmond teachers were interested Tuesday in a skeleton plan for teachers' pensions, recommending a modification of the Indiana teachers' retirement fund law in order that contributions to it may be equitably proportioned; pensions payable from it may be properly distributed and the finances of the fund placed on a safe basis, which Monday was announced from the office of Governor Goodrich and the teachers' retirement fund board. S. Herbert Wolfe, a consulting actuary of national reputation, is the author of the plan.

The outline is to be taken up at a meeting of the board this week, and it will be used as a basis for reorganizing the teachers' pension system in Indiana. Copies of the report will be prepared for distribution soon.

Features Summarized.
Mr. Wolfe is the expert engaged some months ago by the governor and the board to make a detailed study of the Hoosier situation. With the assistance of information provided him by Bert Morgan, secretary of the board, and from the records of 20,000 Hoosier teachers, Mr. Wolfe prepared the report which is summarized into the following salient features:

The reorganized system should be state-wide.

Equal contributions should be made by the teacher and the taxing unit, the teacher under all conditions to receive amount contributed.

Teachers to pay until 62 years old, and then to be pensioned. Teachers may elect to retire after 25 years' service, if under 62, and may receive proportionate pension.

Like pensions should be provided for permanent total disability after 10 years of service, the amount of pension to be governed by years of service.

In event of death before reaching pension age all contributions plus 4 per cent interest are to be paid to the estate.

In event of death after pension has been started, and before the teacher has received a total equal to his contributions, the estate should receive the difference between the amount of the total contributions and the amount of pensions payments to teacher.

All contributions plus 4 per cent interest to be returned to a teacher dismissed or resigning after five years of service.

Teachers to have option of either contributing at age when the plan becomes operative or may pay at age when started teaching in Indiana, on payment of arrearages plus 4 per cent interest.

Teachers are to receive credit for all contributions made to present retirement fund.

"Owing to the well recognized fact that women annuitants live longer than men," the report says, rates for men and women teachers of the same age are different, the women's rates being slightly higher.

Example Rates.
Example rates, based on each \$100 of pension at age of 62, are as follows for the ages given: Age 20, woman teacher, \$4.30 a year; man teacher, \$3.85 a year. Age 25, woman, \$5.65; man, \$5.05. Age 30, woman, \$7.05; man, \$6.25. Age 35, woman, \$8.45; man, \$7.45. Age 40, woman, \$9.85; man, \$8.75. Age 45, woman, \$11.25; man, \$10.00. Age 50, woman, \$12.65; man, \$11.25. Age 55, woman, \$14.05; man, \$12.50. Age 60, woman, \$15.45; man, \$13.75. Payments may be made in installments.
