

"HOW DO WE VOTE?" QUESTION ANSWERED

Since the enactment of the first registration law in Indiana which became effective in 1912, the law has been changed or amended so much that the average voter sometimes becomes bewildered and does not know when or how often he must register to be entitled to cast his ballot.

Two years ago all voters were obligated to go to the court house to register or send their application to the county registration board. This method was very unpopular and many voters would not take the time to register. It was also expensive as four members of the registration board were paid \$5 per day for six months' service.

The general assembly of 1919 repealed the old registration law and enacted a new law of which the following is a brief synopsis.

Registration Board Named.
A registration board composed of one inspector and two clerks will be appointed by the county commissioners, the clerks from the two political parties that cast the highest and next highest vote at the last election. There will be one board for each precinct in the county and wherever possible the rooms for registration will be the same as those used on election day.

There will be two days for registration, Saturday, the 59th day before the election, and Monday, the 29th day before the election. This will give all voters who move from one precinct to another an opportunity to register.

All of the registration boards will be in session from 1 p. m. until 9 p. m., on each registration day, and after the time for receiving applications for registration is past the board will remain in session until all of the work is completed. The names of male and female voters will be recorded on separate pages on the registration record.

Must Sign Application.
Before the voter can be registered he must fill out and sign an application for registration.

Any person who is entitled to vote at the election and who from sickness or other cause cannot go in person before the registration board may mail or send his application by filling out the proper registration application which shall be sworn to before a notary public or witnessed by two voters of the precinct who shall certify that they are acquainted with the applicant and know that he is the person he represents himself to be and that his statements are true. Severe penalties are provided to prevent false registration.

All information will be furnished by the registration officials who will assist in filling out the applications on registration day but if every voter will provide himself with the proper blank and have it properly filled out it will save the registration officials much work. The important thing to remember is that no person can vote unless he registers. There will be only two registration days, the 59th and the 29th days before the election which are known as the September and October registrations.

Claim Ohio Tax Law Violated 14th Amendment

CLEVELAND, Ohio, March 23.—Holding that the new graduated horsepower license law passed by the last legislature is in conflict with the fourteenth amendment to the federal constitution, officers and trustees of the Ohio State Automobile association today unanimously voted to carry the case to the United States supreme court.

It was agreed unanimously that the measure not only discriminated and imposed double taxation on motorists, but that it would fall to increase revenues for highway and street maintenance and repair. It is charged that the law is imperfect and full of inconsistencies.

Among those at the meeting were Jacob L. Will, C. D. Saviers and C. C. Jones, of Columbus; Frank Colucci, Lima, and Rev. Joseph H. Dodson, Zanesville.

Zanesville was selected for the annual convention, May 28.

MOTHERHOOD WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind.—"I was in such a condition that I never expected to have children and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and restored a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard anyone coming my heart would beat fast and I wanted to run. So I took the Vegetable Compound again and it helped me wonderfully. You may publish my letter as the medicine is surely great."—MRS. I. V. BANTA, R. K. No. 4, Box 24, Washington, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published in these columns.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Secretary Colby Asks Publicity on Inquiry

WASHINGTON, March 24.—Bainbridge Colby, who became secretary of state today, has written a letter to Senator Lodge, chairman of the senate foreign relations committee, asking that the evidence taken by the committee on the subject of his confirmation be made public. It is in accordance with the usual practice. The text of the letter, as given out at the State Department, follows:

"Will you permit me to express to you my appreciation of the very courteous reception I had from you and the members of your committee on the occasion of my recent appearance before the committee?"

"I am hopeful that a way may be found to lift the secrecy which surrounds the evidence taken by the committee on the subject of my confirmation. While reluctant to make a request that may in any degree conflict with the usual practice of the committee, or anticipate its action, it would be very much appreciated by me if the whole record were given complete publicity."

Dr. Grant Will Head Earlham's Mathematics

Earlham college has obtained Dr. E. B. Grant of the Michigan School of Mines at Houghton, Mich., to head the mathematics department at the opening of the fall semester, Sept. 14. Dr. Grant was granted his Ph. D. by the University of Chicago. He will give a number of additional courses in applied mathematics at the college.

Miss Florence Long, who has been acting head of the department since the resignation in 1918 of Prof. Hadley, who is now at Purdue, will remain as assistant professor.

REFUSE TO SIGN PETITION.
SHELBYVILLE, Ind., March 24.—Prosecutor George Tolen has refused to sign a petition for the release of Otto Price from the State Prison, when Mrs. Price came here from Indianapolis to ask him to sign the paper. Price was sentenced from this county for burglary from two to fourteen years, being one of the Price gang, at whose home valuable loot, which had been stolen in different parts of the county, was found. His father, Sam Price, and brother, Lee Price, were sentenced for grand larceny at the same time and have been paroled. Otto Price escaped at the time the other two members

DR. RICHARDS' WORDS SHOW WHY TRUTONA OVERCOMES BAD AFTER-EFFECT OF "FLU"

"An Appetizer, System Builder, Strengtheners and Real Nerve Tonic," Prominent Physician Declares of Perfect Preparation—What All "Flu" Victims Need.

"As an appetizer, strengthener, system builder and real nerve tonic, I can heartily recommend and commend Trutona."

Dr. J. Richards, the prominent Tennessee physician, in making the foregoing statement, has really pronounced Trutona a remarkable treatment for overcoming serious after-effects of influenza, pneumonia and the like.

Victims of these dreaded winter maladies, after "recovering" from an attack, almost invariably find themselves possessed of little or no appetite and their systems in a dreadfully weakened run-down and nervous state. Considering Dr. Richards' words it is easy to understand why Trutona has proved such a remarkable remedy for overcoming these bad after-effects. "An appetizer, strengthener, system builder and real nerve tonic"—these are the qualifications that have won for Trutona the unstinted praise of thousands of unfortunate influenza and pneumonia victims who have regained their health through the Perfect Tonic.

"What Others Say"
Mike Hamilton, a traction company employe and well-known Terre Haute,

Ind., man who lives at 418 South Pearl Street, enthusiastically praising the reconstructive powers of Trutona, says:

"I can hardly realize how much good Trutona's done for me in ridding my system of the after-effects of influenza. I certainly feel different nowadays and I can highly recommend Trutona, especially as an after-the-flu medicine."

Harry Lee, 1661 Gallagher street, Louisville, Ky., a sufferer from the after-effects of pneumonia, says: "I've gained twenty-eight pounds and feel fine now—just like a new man, since taking Trutona," all of which is surely conclusive proof of Trutona's merit.

"I've found Trutona to be very efficient in overcoming after-effects of influenza," declares Mr. Iva Gates, a well-known Peru, Ind., woman of 155 Canal Street.

There are scores of other similar statements and they prove conclusively that there is no better preparation for the treatment of after-effects of pneumonia, influenza, deep colds and the like than Trutona, the Perfect Tonic.

50 HENS LAY OVER 600 EGGS A MONTH

Henry J. Steinfurth, 2401 Parade Street, Erie, Pa., had used Pratt's Poultry Regulator for nearly 12 years, but was induced to try one of the highly advertised tonic tablets. Here's the result in his own words: "I used two packages, giving it a thorough trial, with very unsatisfactory results. I started using 'Pratts' again and in a short time my hens were laying 20 to 22 eggs every day. I will never again be induced by catchy advertisements, to use any other tonic than 'Pratts' because Pratt's Poultry Regulator has never failed me." A. G. Luken & Co., E. H. Stegman, Omar G. Stomach and Bowel Trouble The Cause of Most Other Diseases

Stuart's Pep Talenes Produce Quick Results and Permanent Relief Where Other Methods Fail

Nature has provided a wonderful blood purifier in the shape of the kidneys, those marvelous filtering organs which separate the liquid from the solid bodily refuse and rid the system of many poisonous wastes through the urine. Even the kidneys become clogged when the blood is fouled with an excess of poisonous matter, and their distress is made known by highly colored urine that at times deposits a brick-loke sediment and shows an enormous excess of foul matter as having been strained through the kidneys.

Leonard Ear Oil

Ninety Percent of the cases of Deafness and Head Noises are Catarrhal, due to Catarrh in the Eustachian Tubes and Air Passages which connect the ears and nose. In all such cases these Tubes become stopped up with Catarrhal mucus, and the Air Passages of the Head clogged, thus preventing the air from entering and circulating as nature intended, and the result is Deafness and a great variety of dreadful Head Noises. Catarrh causes Thickened, Sunken and Hardened Drums. Also, if the Natural Drum is perforated or completely destroyed the cold air enters through the perforation and a Catarrhal condition quickly arises. Therefore, before there can be any improvement in Hearing or Relief from the Head Noises it is absolutely necessary that the diseased condition in the Eustachian Tubes and Air Passages be relieved. By "Rubbing It In" and massaging Leonard Ear Oil as directed.
