

## The Farm and The Farmer

By William R. Sanborn

"It is doubtful if we shall raise as many hogs this year as we did in 1919," said Frank M. Campbell, of College Corner. "In the first place some farmers wintered fewer brood sows, the outlook not being overly encouraging."

"There were a few losses of early pigs, perhaps, but these were not large enough to affect the situation, for the spring pig crop is still largely to come. Don't believe there is a general tendency to limit pork production around here, but at that feel sure that the entire country will market many less hogs than last year. Hogs must be pretty closely sold out in most sections."

"As to the future of prices, that isn't for me to judge, although every man has a guess coming. Personally, I am hoping for better price, along in the summer; believe they are due, but every feeder—as at sea, has no chart to steer by."

"Hardly think we can reasonably hope for any such figures as have been paid for hogs, but in view of the cost of feeds and other circumstances, we should certainly get more money for both hogs and cattle. As to spring planting I judge that our farmers will till all the land they can handle, though some may have to reduce their acreages for lack of help, and if so, this will develop later."

**An Undecided Feeder.**  
"Having bought a thousand bushels of corn on top of my own supply I am in doubt right now as to the best use to make of it—feed it or sell it," said Isaiah Fricker of Dublin. "I wintered more sows than I did last year, have a few spring pigs and a lot more to come, and had intended to buy shoats as usual. So far haven't bought any feeders, neither in the hog or cattle line, and may not do so."

"Have a small bunch of cattle of my own raising, but the outlook for cattle isn't a bit encouraging. No farmer knows where he stands in this feeding business; he has nothing on earth to tie to; not a thing to bank on, as I see it, and all we farmers are in the same boat."

"As to our spring planting I shall put in the usual acreage, and so, too, will most of my neighbors. You see the farmers up this way hire comparatively few men and manage to do their own farming to the extent that suits them, in the main."

"There were very few February pigs around here, these come along mostly in late March and April in this section, the cold weather crop not being in favor. The losses of early pigs was not large."

**Complains of Small Broods.**  
"Will we raise the usual number of hogs this year? Well, our trouble is in getting the pigs to raise," said Charles Steek of Lewisburg, O. On top of getting the smallest litters ever known, speaking in averages, is the fact that some of these youngsters don't pull through, one neighbor telling me today that he has so far lost all but four out of a bunch of 35 late arrivals."

"No one seems able to account for such small farrowings; they only know it to be a fact. No, I don't personally

know that there has been heavy losses of pigs, generally speaking, but some farmers tell discouraging stories. Can't say that I shall feed as heavy as I commonly do, but aim to feed from 50 to 100 for market. Farmers are preparing to take care of their regular rotations and we shall all be busy soon if the weather continues favorable. There is some anxiety now as to how the wheat will show up within the next few days."

## The Theatres

WASHINGTON.

At the Motion Picture Day and carnival of outdoor sports held in Los Angeles recently, for the benefit of the Actors' Fund of America, Clara Kimball Young was awarded the big silver trophy cup as the queen of beauty.

Miss Young was in competition with practically all of the motion picture stars of Southern California, and the award to her was both instant and popular.

Other great features of the day were automobile races driven by famous motion picture stars, in which Tom Mix won the Pacific Coast Amateur Championship under the rules of the Automobile Association of America, setting up a record of considerably better than a mile a minute over a twenty-five mile course at the Ascot Speedway, while Donald Crisp, Lambert Hillier and many others carried off trophy cups.

Miss Young is in Southern California working on her next big production, having just finished "Eyes of Youth," which is to be released in October, and which it is believed will be the best offering of her career.

"Eyes of Youth" is playing the last times today at the Washington. **MURRAY.**

In discussing "Tiger Rose," Willard Mack's greatest and latest effort, David Belasco, who personally owns and will present this charming play here Wednesday night, March 31, and who has spent thousands of dollars in staging the production, says:

"To me there is no form of production so absorbing as a great big throbbing story of primitive emotions such as Willard Mack tells in "Tiger Rose," which I am offering to play lovers here. And I am no different from my neighbor. What is true of me is in the main true of him, high or low, rich or poor, we enjoy the depiction of familiar emotions—that is what the whole world loves, melodrama. It is a form of play that is truest to the fact of existence and therefore I form that finds the most universal understanding and appreciation. Stage history proves this, beyond a shadow of a doubt, for plays come and plays go, but like Tennyson's brook, melodrama goes on forever. We have had cycles of all sorts of plays. There was a vogue some years back for problem plays, then came a perfect deluge of sex plays—nauseous discussions of the

White Slave traffic and frank exposures of sex education—each in turn enjoying a spasmodic popularity. But through them all, it has been the play dealing with primitive emotions, inherited in man, that has enjoyed a steady prosperity because it is familiar to every auditor."

Thursday, April 1.

D. W. Foster, one mile east of Richmond. General clean-up farm sale.

## LOCAL MAN RETURNS TO DAILY WORK

James Haner Says He is Gaining Strength All the Time Since Taking Vola-Tonic.

## HIGHLY INDORSES IT

Among the well known Richmond men and women who are taking Vola-Tonic, "Builder or Strength," is James Haner, 240 South Seventh street, a cement worker.

Mr. Haner recently suffered a severe attack of grip and was so weak when he got over it that he couldn't work, but he says Vola-Tonic has built him up and made him feel fine.

"I couldn't do anything when I got over the grip," Mr. Haner said. "For a period of about ten days I was so weak that all I did was lie around the house."

"I read about Vola-Tonic in the newspapers, and finally decided to go down to Quigley drug store at Eighth and Main streets and ask the druggists there about Vola-Tonic and see if they would recommend it."

"Well, the druggists at Quigley's store recommended Vola-Tonic to me and I got a bottle and started taking it. I am now on my second bottle of Vola-Tonic and it has proved to be all that is claimed."

"I have become stronger every day since I started taking Vola-Tonic and I am back at my work again and find that it grows easier and easier for me as the days pass. Vola-Tonic put my stomach and bowels in excellent condition and has brought me a fine appetite."

"I heartily recommend Vola-Tonic because of what it has done for me." People all over Richmond are taking Vola-Tonic, "Builder or Strength," and highly praise it for the results it is bringing. Vola-Tonic is an excellent strength-builder and helps health all over.

Vola-Tonic is being specially introduced in Richmond at the five Quigley drug stores.—Advertisement.

## SAYS TIP SHE GOT READING LOCAL NEWSPAPERS RESULTED IN GREAT PERSONAL BENEFIT

"I felt tired and weak all of the time," says Mrs. J. F. Noggle, 101 N. 9th street, Richmond. "I would frequently get up in the mornings feeling as tired as when I went to bed, and even more so, if such a thing is possible."

"I read about Pepsin in the Richmond newspapers and decided to try it. I procured a bottle at a local drug store and took it according to the directions on the label."

"The result is that I feel like a new woman. My stomach don't hurt me at all and I get up in the mornings feeling fine. My appetite has improved and I feel stronger in every way. I am very thankful to Pepsin for restoring my health."

Pepsin has so much merit, it is so

splendid a tonic for the stomach, nerves and liver that it has become a household medicine. Pepsin is an upbuilder, appetizer, invigorant, and revitalizer to relieve the weakness, illness and general depletion of the body force resulting from the breaking down of the digestive forces.

Pepsin is designed to aid assimilation so that food which is taken into the system will serve as fuel for the body to keep the human engine moving as it should. It has been said that Pepsin is like oil to machinery—it keeps the human engine moving smoothly and efficiently.

Pepsin can be obtained from any first-class drug store anywhere.—Advertisement.

## Farm Federation

The executive board of the Indiana association of farmers' federations has decided to increase the scope of its legislative committee by having four men from each district and four from each county, in addition to the central committee, composed of five members.

The district and county members will be composed of two from each party, one a man and one a woman. Questionnaires are to be sent to all leading candidates of both leading parties, asking their views on matters of interest to farmers.

These questionnaires are to be drafted by the central committee and sent out to the various county and district committee members, who, in turn, will see that they are turned over to the office seekers, including aspirants for seats in the next state legislature.

## NO HESITATION BY WELL KNOWN LADY OF KOKOMO

Comes Right Out and Says That the New Medicine Dreco Has Done Her a Lot of Good.

Relieved Constipation Says the Gas Does not Press Against Her Heart; Nerves Are Quiet and She Sleeps Sound Every Night.

"I don't mind telling anybody that the new medicine Dreco has done me a lot of good and I'm glad that I heard about it and bought a bottle," said Mrs. Maggie Rosey, of 709 South LaFontaine Street, Kokomo, Ind. "I've suffered an awful lot from constipation, nervousness, poor sleep, no appetite and gas in my stomach. This gas often got so bad that it pressed against my heart, causing shortness of breath and hard breathing. My kidneys often annoyed me and I'd have terrible backache so that I could hardly sweep up the house. I read what Dreco did for a lady here in town and got a bottle. It certainly was money well spent for my constipation is entirely relieved, no more gas forms in my stomach, nor presses against my heart. I have a good appetite, my nerves are quiet so that I sleep well, and the little catarrh that has bothered me is gone. Dreco has built me up and I'm feeling better than in years."

Dreco, the root and herb tonic acts on the bowels, overcoming constipation, rouses a lazy liver, strengthens weak kidneys, aids the stomach to digest the food, banishes catarrh and enriches the blood. All good druggists now sell Dreco and it is highly recommended in Richmond by Thistlethwaite's Drug Stores.—Advertisement.
