**New Garden Farmers**

**May Build Elevator**

Although no definite action on the proposed plan to purchase ground near Fountain City and erect a elevator for New Garden township farmers was taken, members of the New Garden Farmers' Federation, in session at Fountain City, Tuesday, expressed themselves in favor of such a project.

Ralph Test, Henry county agricultural agent, enlightened members of the federation on the matter of grain elevators, telling them of the success of such elevators in Henry county.

Theodore Davis, president of the county farmers' organization, and Gaar Eliason, of Center township, addressed the meeting on methods of organization for starting a community elevator.

E. F. Murray, county agent, spoke on a poultry culling demonstration, and the farmers decided to have Pur-

due experts visit the township in July and give demonstrations.

Wayne county ranks third in the state for the number of members of farmers' organizations, it was announced at the meeting. A musical program was given, in addition to the speeches. Eighty-two farmers attended.

**District Superintendent**

**at Church of Nazarene**

The Rev. J. W. Short, district superintendent, will have charge of the services at the Church of the Nazarene, on North Fifth street, Sunday, July 23, 1918; gassed October, 1918. The Rev. Short has been a successful pastor and also served as district superintendent of the Pittsburgh district at one time.

He is an able speaker, being called "the weeping prophet." This is his first visit to the Richmond church since he has been superintendent.

We want the people of Richmond to hear him Sunday, 10:30 a. m., 3 p. m., and 7:30 p. m. Special music. The public is urged to come early.

**N. J. Congressman Succumbs.**

WASHINGTON, March 25.—Representative W. J. Browning, of Camden, N. J., fell dead Wednesday, in the barber shop at the Capitol. Mr. Browning was about to step out of the barber chair when he was stricken with an attack of heart disease. He died before physicians could reach the shop.

Mr. Browning was born at Camden, N. J., seventy years ago. He had represented the first New Jersey district in congress since 1911, having been elected while serving as chief clerk of the house of representatives.

He was the ranking house member of the naval committee and handled the naval bill in the house, where it was passed yesterday.

Week is Anniversary of Great 1913 Flood

This week is the seventh anniversary of the great flood, which began May 25, 1913, in the middle west, when the Ohio, Indiana, Illinois and Wabash rivers went on the wildest rampage in history.

Richmond residents living here in 1913 well remember March 25, of that year, when the record rainfall in the city and county of nine inches, resulted in the most disastrous flood on the Whitewater river and its tributaries in history.

Residents of Happy Hollow, the section of the city suffering most, were rescued by policemen, firemen and numerous bands of volunteers, who narrowly escaped serious injuries.

Practically every home near the river was badly damaged by the

foods, which lasted for four days. The city was practically cut off.

## They Don't Clean Teeth

*In Your Way Now—Not the Men Who Know*

*All Statements Approved by High Dental Authorities*

### They Now Combat the Film

Dental science has found a new way to clean teeth—a way that combats the film.

Able authorities have proved it for years in clinical and laboratory tests. The facts are beyond any question. Leading dentists all over America now urge people to adopt it, and a million or more have done so.

This method, for home use, is embodied in a dentifrice called Pepsodent. And this week we offer, to every home in this city, enough for a ten-day test. For your own sake you should make that test.

### Why Teeth Discolor and Decay

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to the teeth, gets between the teeth, enters crevices and stays.

The tooth brush does not end it. The ordinary dentifrice does not dissolve it. So, night and day, that film may do ceaseless damage. And most tooth troubles are now traced to it.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

### You Must End It

Millions of people find that brushed teeth discolor and decay. Tartar forms and pyorrhea starts. Statistics show that, despite the tooth brush, tooth troubles have been constantly increasing.

The reason lies in that film. To prevent the troubles you must end the film. Let this ten-day test show you the way to do it.

### Now Millions of Teeth Are Kept Whiter

Pepsodent is now applied to millions of teeth every day. The result is seen everywhere in glistening teeth. Some of your friends can show them.

Those teeth glisten because they are clean. The film is kept removed. Now we ask you to see how your own teeth look after a ten-day use.

### Based on Pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed forbidden. It must be activated, and the usual method is an acid harmful to the teeth. What science has now found is a harmless activating method. Now pepsin can be applied twice daily—can be left between the teeth. And five years have proved that this discovery opens a new dental era.

### Look at Your Teeth in Ten Days

The results are easily shown and we urge you to see them. Read how they come about. Then decide for yourself what is best for your teeth and for your children's teeth.

Present the coupon for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare the results with your present methods. Remember that those whiter teeth mean cleaner teeth—teeth kept freer from film. Then decide for yourself about going back to former cleaning methods.

Make the test this week, while the 10-Day Tube is free. The result will be of lifetime importance to you. Cut out the coupon so you won't forget.

**STATISTICS** compiled by the Harvard University, covering 41 States, show that out of each dollar the grocer gets, he must first put aside 83-1/10 cents, the amount to be paid for the goods that cost the consumer \$1.00.

Out of the balance, 14-6/10 cents, he must then pay clerks and the

operating expenses of his business.

This leaves the grocer only 2-3/10 cents profit. Surely this frees the grocer from the slightest possibility of profiteering.

It pays to deal with the following reliable grocers, for then you know you are getting full value for every dollar you spend.
