

ATTACK ON WOOD IS RENEWED BY BORAH; DEMANDS ACCOUNT

WASHINGTON, March 30.—Retter-ating his charges of excessive ex- penditures in the interest of Major- General Leonard Wood's candidacy for the Republican presidential nomina- tion, Senator Borah, Republican, of Idaho, telegraphed Gen. Wood Mon- day, declaring that unless the prac- tices of the Wood campaign were cor- rected they would "bring disgrace upon your name, upon your party and upon your country."

Information from various states, the message added, had convinced Sen- ator Borah that his previous state- ments about the Wood campaign ex- penditures "were modest."

The message follows:

"Press dispatches state you claim the attack upon you was to sway the voters of Michigan. You are in part correct."

"It was intended to sway the voters not only in Michigan, but in the United States. I know of no other tribunal to which to appeal to correct these practices. But is can only be effective provided the facts I stated are correct. It is within your power to give to the people of Michigan and other states a list of your subscribers, the amount you are expending, the amount which you did expend in South Dakota, the amount which you propose to expend for instance in Ohio and Illinois."

Wants Statement.

"If you will make a statement of these facts over your signature, I will correct any erroneous statements which I have heretofore made. The material which is coming from South Dakota, Illinois and Ohio convinces me that I was modest in my state- ments. General Wood, if you are not familiar with what is going on in your behalf, for the presidency, I take leave to assert that unless you familiarize yourself and correct it you will bring disgrace upon your name, upon your party and upon your country."

"It is up to you as a soldier and as a man to come out boldly and meet these facts and either show the public that they are unfounded or else re- pudiate the men who have manifested their determination to control the na- tion through the use of money."

Wayne's War Story to Appear in State Book

Plans for the immediate publication of a gold star book containing the names, pictures and biographical sketch of all Indiana soldiers, sailors, marines and war workers during the world war were put under way Tues- day by the Indiana historical commis- sion.

It has been recommended that the state provide a copy of the book for every family bereaved by the war.

Official records show that 3,246 men from Indiana were killed and 14 purses sacrificed their lives, and the plan is to place the data in the gold star book.

The counterfeit is printed on two sheets of paper of good quality, stuck together with silk threads between the sheets. The face of the bill is photo- graphed. The figures of the treasury number are made by hand and are well executed. The back of the bill is printed from an etched plate. It is a dangerous counterfeit and care should be exercised in handling bills of this denomination.

Small Boys of City Have Craze for Boots

Every class has its own fashions and to be socially elite among the male portion of Richmond, between 9 and 12 years of age, the aspirant has to wear rubber boots.

Boots are supposed to be worn only in stormy weather, but the school boy of today is wearing them all the time—rain or shine. The boots are worn in all sizes, shapes and colors. Boots that come half way between the ankle and the knee, and boots that extend above the knee. Red India rubber boots and those that are trimmed with patent leather edges.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backachy or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must re- lieve them like you relieve your bow- els; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the anal- els often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a table- spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water- drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Advertisement.

Five Minutes with Our Presidents

By JAMES MORGAN

VIII.—THE PEN OF THE REVOLUTION

THOMAS JEFFERSON

THOMAS JEFFERSON, as much as Abraham Lincoln, was nursed at the breast Of the unexhausted West.

At the time of his birth beneath one of its foothills, the Blue Ridge of Vir- ginia was the American frontier. The farm on which he was born had been cleared in the wild forest by his pioneer father when the smoke of a neigh- bor's chimney hardly could be seen from his cabin door.

Like both of his predecessors and so many of his successors in the Presi- dency, Jefferson was a widow's son. Losing his father at fourteen, as the eldest son he inherited the farm and

1743—April 13, born at Shadwell, Va.
1761.2—At William and Mary's College.
1765—Heard Patrick Henry.
1767—Admitted to the bar.
1769-74—Member House of Bur- gesses.
1770—Went to live at Monticello.
1772—Married Martha Wales Skel- ton.
1774—Member of Congress.

ed with a stranger's eyes upon the baronial pride and display of the old families who formed the vice regal court at Williamsburg. His light heart and his yet lighter feet made

him welcome at the balls in the Apollo room of the Raleigh Tavern. His already curious mind won for the mere lad the remarkable fortune of a place in a small group of learned and traveled men who regularly gathered at the dinner table of Governor Fau- quier to discuss the literature and music, the science and the philosophy of Europe.

There over the roast and the pipes, the great world was opened to the silent, reflective youth. More than William and Mary's table of that unsuspecting royal Governor was the training school of the immortal rebel who indicted a King.

To support the large family of his mother on their too small farm, Jef- ferson turned to the law. In seven years at the bar he doubled his es- tate and increased his slaves to four hundred. Buying the little mountain at whose feet he was born, he built upon its summit from plans of his own drawing, with bricks of his own mak- ing, and with wood of his own cut- ting, the noblest house in all Vir- ginia. There at Monticello, he made his home ever after, and there at last, he died in sight of his birthplace, five hundred eighty feet below. To this eye- ring one wild, stormy winter's night he took his bride, the twenty-six-year- old became the responsible head of the family of eight children.

It was not a large estate, for the Jeffersons, like the Washingtons, be- longed more to the yeomanry than to the aristocracy who lorded it over the Tidewater Virginia. But Thomas Jefferson's mother was a Randolph and sprung from the class which found in her son the most unrelent- ing foe to its ancient privileges.

When he rode East, with his dar- ling fiddle under his arm, to be a student at William and Mary's Col- lege, the tall, slender, sandy haired, snub-nosed, freckled-faced seven- teen-year-old boy of the frontiersman never had seen a mansion, a church or a village of twenty houses, and he look- ed widow Skelton, who brought him one hundred thirty-five slaves and

been discarded if conservative mem- bers had foreseen what a blazing torch it was to become, lighting a civil war that freed the slaves and ever lead- ing men on along the endless road to justice and liberty.

A net profit of \$508,899.79 was made by the Y. M. C. A. canteens during the war.

Croup and Cold Troubles Are Best Treated Externally

COLDS are simply inflammation or congestion Of the mucous membrane, or lining of the respiratory organs — air passages and lungs. They should be treated just as surface inflammations, such as burns or bruises, are treated—that is, the medication should be applied directly to the in- flamed parts. But medication cannot be applied directly to the air passages and lungs except in the form of vapors that can be inhaled, and until the discovery of Vick's VapoRub, there was no efficient, economical method of supplying these vapors.

VICK'S VapoRub is the discovery of a North Carolina druggist, L. Richardson, who found a way to combine the standard, time-tested reme- dies—Menthol, Camphor, Turpentine, Eucalyptus, Thyme, Juniper, etc.—in salve form, so that when Vicks is applied to the body, these ingredients are vaporized by the body heat. These vapors, in- haled with each breath all night long, carry the medication direct to the affected parts. At the same time, Vicks is absorbed through and stimulates the skin, aiding the vapors inhaled to relieve the congestion.

Spasmodic Croup and Children's Colds

Vicks is particularly recommended to mothers with small children. It is externally applied and, therefore, can be used often and freely with perfect safety. Let the children run out-doors, even in Winter, and get their needed fresh air and exercise, and simply apply a little Vicks over the throat and chest at the first sign of a cold, covering with a hot flannel cloth. For spasmodic croup, rub Vicks freely over the throat and chest until the difficult breathing is relieved. One application is commonly sufficient, and an application at bed time usually prevents a night attack.

Head Colds, Asthma, Catarrh, Hay Fever

For these troubles, Vicks can be melted in a spoon and the vapors inhaled, or a little applied up the nostrils and snuffed back into the air passages. There is no "cure" for Asthma and Hay Fever—Vicks gives temporary relief in some cases.

Deep Chest Colds, Sore Throat, Bronchitis, Coughs

For inflammation of the respiratory organs where there is tightness or soreness, Vicks should be rubbed well over the throat and chest until the skin is red; then spread on thickly and covered with hot flannel cloths. The bed clothing should be arranged in the form of a funnel, so that the vapors arising may be freely inhaled.

In severe cases, hot, wet cloths should first be applied over the throat and chest to open the pores of the skin be- fore applying Vicks.

If the cough is annoying, small portions of Vicks, the size of a pea, can be swallowed every few hours.

Used as a Liniment, Salve, Poultice or Plaster

In addition to its vaporizing qualities, Vicks has also been found to be an excellent anti-inflammatory applica- tion. It makes a cooling, soothing dressing for such troubles as Bites, Burns, Bruises, Cuts, Frost Bite, Headache, Itch- ings, Poison Oak, Soreness, Sprains, Sunburn, etc.
