

COUNTY LUTHERANS CALLED TO INDIANA CENTRAL MEETING

Richmond and Wayne county Lutherans received announcement Saturday calling them to a meeting of all counties in the state, Monday afternoon in the First Lutheran church at Indianapolis, to consider the World Service campaign of the church. The Rev. L. W. Sifford, of Logansport, state leader, issued the call.

The minimum amount which the Lutheran church proposes to raise for immediate application to relief work in Europe is \$1,500,000. It is believed that when the story of the real needs for the work reaches the people, the amount subscribed will be double the figure set.

Sifford to Preside.
The organization meeting will be presided over by state chairman, the Rev. Mr. Sifford. The Rev. Dr. Charles F. Laurer will present the cause, and following his address the state workers will go into conference on the work. District chairmen have been appointed, who will superintend the task in the various parts of the state.

Lutherans in Indiana expect to obtain the state quota, which is \$300,000. In its national campaign, which is planned on a widely comprehensive scale, the church hopes to reach its \$1,500,000 goal by the middle of May. The drive was outlined at a conference of more than 200 prominent Lutherans at Chicago, March 18 and 19, when commissioners who had recently returned from Europe spoke convincingly on the needs of the old world.

Young People's Program to Be Given by Orchestra

The appearance of the Minneapolis Symphony orchestra in this city in the Coliseum on the afternoon of May 7, will be marked by unusual features in the program, states Esther Griffin White, local manager, Saturday.

For the first time in the history of this city, a "Young People's Program" will be given here, these having proved popular and effective during the past few seasons when given by all the big orchestras. The program, however, is equally as attractive to the older people as it means that it is fuller of variety than an ordinary program arranged for an orchestra concert.

Miss White states that she expects to make the prices a dollar for grown-ups and fifty cents for children. The whole lower floor will be given over to the school children and as the seating capacity of this section of the Coliseum is 500, every seat, it is expected, will be filled.

DEMAND FOR SHELLAC.
During the war little shellac was imported by this country and the East India exporters controlled the small supply that reached this country. Because the market was caught short, the price was increased from sixteen to twenty cents a pound to \$1.10 and \$1.30 a pound at present.

JAP LACQUER WORK.

The finest lacquer work made in the world today comes from Japan. This although of Chinese origin, is one of the finest of arts in that country. Some of the work takes years to complete. Korin, the greatest exponent of the art in Japan during the seventeenth century, is a household word with the Japanese of today.

MAKES FOOD TASTE

Good—Hood's Sarsaparilla Creates an Appetite.
Aids digestion and promotes assimilation so that the body secures full nutritive value, thus naturally making the weak strong and giving the vitality of health. This great medicine enables the digestive organs to perform their functions easily, keeps the stomach sweet and relieves or prevents indigestion and other digestive troubles.

When your food does taste good it is a sign of good or returning health; shows that the blood is becoming richer, routing stiffness, eczema, rheumatism and other diseases, and that the system is being built up to overcome that tired feeling, and the prostration after influenza and fevers. The one medicine that can legitimately claim to do all this—is Hood's Sarsaparilla. If a mild laxative is needed, take Hood's Pills; an active cathartic, more Hood's Pills.—Advertisement.

American Legion

The American legion will open a membership drive throughout Indiana on April 12 with a goal of from 25,000 to 30,000 new members, it was announced Friday by L. Russell Newgent, state secretary.

There are now 30,000 legionnaires in Indiana, and the legion has been growing rapidly, Mr. Newgent said. The membership drive will continue until May 28.

The representation at the Vincennes state convention on June 28 will be based on the paid-up memberships reported to state officials on May 28.

Confident that the goal will be reached in the drive, Mr. Newgent is making plans for at least 1,000 delegates at the convention. "The most phenomenal growth of the Indiana department of the American legion in the last three months is gratifying to legion officials and attending members."

USL—A service of which the battery is but an essential part

Your Battery's Stamina

YOUR battery's stamina is the stamina of its plates. They do all the work; they settle whether your battery is sluggish or energetic and how long it will last.

Stamina is compressed into USL Machine-Pasted Plates. The machine has the advantage of all the power needed to force the plate material into a tenacious structure that "stands up" and lasts.

The USL Battery has everything in the way of improved jars, tops, separators and cases to make it a correct and dependable battery.

Our USL SERVICE supplements the USL Battery in its work for you. We keep you "battery-happy."

fords a wholesome moral aid to the state war memorial committee, charged with bringing about a special session of the legislature to act on a building which would memorialize the sons and daughters of Indiana who served in the world war," said Mr. Newgent.

"The committee, which is made up of representative citizens from every district in the state, feels that it has the support of practically every legionnaire because one of the essential features of the proposed memorial will be headquarters for the national offices of the American legion."
