

INDIANAPOLIS FACES SHORTAGE OF GAS

INDIANAPOLIS, April 13.—Consumption of gas in Indianapolis must be cut in half to avoid exhaustion of the supply within a week, it was announced yesterday after a conference of Mayor Jewett, E. I. Lewis, chairman of the Public Service Commission; Charles P. Coffin, president of the Chamber of Commerce, and J. Dorsey Forrest, general manager of the Citizens' Gas company. By the strictest economy, the announcement said, the gas supply may be sufficient to last two weeks, but which time it is hoped the walkout of switchmen will be over, allowing the normal supply of coal and fuel oil necessary in the manufacture of gas, to be brought in.

With Big Four and other railroad officials announcing an increase in switching being done and members of the Indianapolis yardmen's association reiterating their determination not to return to work until their demands are complied with, the situation is being watched with interest. The Indianapolis yards remained practically unchanged. Developments the third day were:

1. Announcement by Big Four officials that all switchmen failing to return to work by 7 a. m. tomorrow will be considered permanently out of the company's service.

2. Claims made by the yardmen's Association that engineers and firemen of yard crews have joined the organization and that the membership now totals 2,300.

3. Indianapolis threatened by a gas famine within a week because of inability to get coal and fuel oil and the public warned that consumption of gas must be cut by half.

4. Officials of the two Indianapolis locals of the Brotherhood of Railroad Trainmen announced that they are not supporting the walkout and will do all in their power to uphold existing contracts with the railroad companies.

5. Shipment of fuel supplies in motor trucks arranged to begin today.

6. Announcement made by the Big Four of the resumption of 50 per cent of its normal switching service.

Hollarn on Trail Of Kids Who Are Carving Trees in South 7th Park

Ed Hollarn, city park superintendent, announced today that he would prosecute anybody found carving on the trees or in any other way mutilating the grounds of the South Seventh Street Park.

"If members of the South Side Improvement Society will report to me the names of children who have been carving on the trees, I will take the needed steps in their punishment," said Mr. Hollarn regarding the S. S. I. A. letter to the board of works in response to which he was ordered to investigate.

"It is very hard for me to find the guilty ones, but the people who live right down there ought to know what children are doing the damage," said the park superintendent.

Mr. Hollarn explained that the high cost of living is responsible for the vandalism being planned on the vacant lots formerly used for play grounds by the children. This has, of course, caused evacuation to whatever open space could be found. The park has therefore become a gathering place, and has suffered accordingly. The children can play there as long as they do not destroy the property, however.

Summer's Here! Glen Is To Open Soon—Hollarn

Summer's about at hand! Glen Park is to open the season officially the first warm day. Park Superintendent Hollarn has announced.

It can't be any too soon for the monkeys, which seem quite disposed to come out into the bright, warm sunshine, which, of course, is all a tremendous joke, as Hollarn explains to them, for the sun isn't warm and one night would end them all.

Nevertheless, the debut is close at hand, unless all custom fails, for the last of April always finds them in summer quarters.

The elks will come out within a few days probably. The buck elk, which kills a deer last fall, is now without horns and while he is harmless, precautions are to be taken for detaining him in an individual pen when the "vicious season" arrives.

Play ground apparatus and park benches will be put up during the week if the weather warms up Mr. Hollarn promised Tuesday.

Another Freeze Tonight, Warns Weatherman Moore

Another hard freeze is prophesied for Tuesday night by Weatherman Moore, but it will get warmer Wednesday, and continue that way until another Rocky Mountain storm, now forming, hits Indiana, he said.

The wind, blowing at times nearly a gale, drove a light snow into the faces of pedestrians Monday evening. Much of the snow remained on the ground Tuesday morning, and the ground was frozen in places. It began to melt early in the morning.

Nor is this the last cold weather, warned Moore. April is a fickle month, and almost anything may be expected.

MONTE MARTRE DISTRICT OF PARIS VOTES SELF FREE

(By Associated Press)
PARIS, April 13.—Monte Martre, the light hearted, is rejoicing in the possession of a separate government having repudiated all allegiance to all other administrations in France. The free commune of Monte Martre, as it calls itself, will continue however to pay taxes to France, being willing to meet even the higher rates to be voted soon by parliament.

Invoking the principle of "self determination of free peoples," Monte Martre held an election on Sunday as a result of which Jules De Paquit, a cartoonist of local renown, was elected mayor.

Spuds and Sugar Sailing Together, High, In Air; Prices are Going Up

Sugar and "spuds" are in the same aldrup: Both these necessities of life are selling for high prices everywhere known here. Richmond wholesalers raised their prices and retailers were forced to ask 10 cents a pound, \$6 a bushel.

Sugar is a scarce article. Few retail groceries have a supply on hand, but report they soon will be exhausted. Richmond wholesalers say they are offering any price to eastern jobbers for sugar. The wholesalers also announce that they will not be surprised if the retail prices advance to 35 cents a pound within a month.

The high price of sugar is attributed to the fact that the Michigan beet sugar supply is exhausted, and only cane sugar from Louisiana or Cuba is to be had. Sugar brokers were forced to pay high prices for the Cuban product in order to outbid the French and English buyers.

J. M. Egemeyer, of the Bee Hive grocery, says that the present price of potatoes is the highest in the history of the grocery trade. He firmly says that there is no evidence of profiteering on the part of the wholesaler, but that the supply has been greatly diminished because of export. A crop considerably below normal was raised last fall.

"Lies" Say Creel of Smoot Fraud Charge

NEW YORK, April 13.—George Creel, who during the war headed the committee on public information, today denied a charge made by Senator Smoot that he had been guilty of fraud.

At the same time Mr. Creel made public a letter to Senator Reed Smoot of the joint committee, declaring that the joint committee "sneakingly worked in secret to frame the indictment against my testimony would have made absurd." He added that the senator, as much as any one else, was responsible for wiping out the Creel committee on June 30, 1919.

In his letter to Mr. Palmer, Mr. Creel said:

"Senator Smoot has filled the press with the statement that the government should take action against me for my proceedings in connection with the Official Bulletin. I insist that your office commence an instant investigation and put myself and every record at your disposal."

"I want to know from you also what protection if any a citizen has against the deliberate slanders of a member of congress. Not only are Senator Smoot's charges false in every particular, but he knew them to be lies when he uttered them."

POCKETBOOK IS FOUND, BUT \$1,175 IS MISSING
NOBLESVILLE, Ind., April 13.—The pocketbook of Mrs. Julia Rush, containing \$1,175, which she lost Saturday while coming to Noblesville from Indianapolis, was found in the south part of the city Monday evening. It contained only 1 cent and no other valuables.

The purse was found hanging on a picket of a fence by George Kinnaman. Mrs. Rush was bringing the money here from Indianapolis to deposit in a local bank.

REFUSE NOT TO PUBLISH OVERALL NEWS IN SOUTH

BIRMINGHAM, Ala., April 13.—Birmingham newspaper publishers have denied today the request of a committee of retail clothiers that news of the "overalls" movement throughout the South be suppressed on the ground that it was damaging the retail clothing business.

The publishers informed the clothiers committee that their papers would continue to report the overall movement which they considered legitimate news.

The "Tampa idea" of wearing overalls as a means of fighting the high cost of clothing, which originated in the city bearing its name, has spread to many cities in the South where the business and professional men, as well as other workers are going about in blue d'alm.

HOWAT DENOUNCES GOVERNOR AS SKUNK

GIRARD, Kas., April 13.—Alexander Howat, head of the Kansas coal miners' union, speaking by permission of the sheriff of Crawford county, denounced Governor Allen of Kansas as a skunk of a Governor, before a crowd of several thousand persons, mostly miners and their wives, gathered in front of the jail here yesterday.

Howat is in jail in contempt of court for refusing to testify before the state industrial court.

"We won't recognize this court," Howat said, referring to the court of industrial relations before which he refused to appear as witness. "It is composed of three corporation lawyers appointed by that skunk of a Governor, Allen."

Howat denounced over and over in the most bitter terms he could command the Governor and the legislature which enacted the law.

Howat also paid his respects to Judge Arthur C. Egan, the judge of the county district court who sentenced him to jail for contempt.

Judge Curran had been referred to in a newspaper story as a sturdy American. "They talk about sturdy Americans," Howat said, "sturdy Americans who send the judge who have committed no crime. The men and the women are going to attend to these sturdy Americans when they get the opportunity."
