

H. S. ORCHESTRA'S WORK ADMIRIED BY STATE MUSICIANS

By EMMA L. FETTA
It has not been left to Richmond to say her high school orchestra is a remarkable organization. Other cities have said it through the lips of their musicians who have heard the orchestra.

In the concert on the high school auditorium stage Thursday night closing the State Music Teachers' convention, the problem of losing the most experienced members out each year, and starting the next with comparative "rookies," was brought especially to mind.

No more singing ensemble, perfect tempo, nor was asked that the orchestra displayed in its favorite "Stars and Stripes Forever," by Sousa. The next number, "A Tone Poem," by Miles was done with the utmost piquancy clarity and expression. Next came the overture from Beethoven's "Café de Bagdad." Difficulties were overcome with charming sophistication in this attractive number.

Miss Mason Delightful.
Miss Louise Mason, a graduate of the Boston Conservatory of Music, played the piano with acute expression and excellent finger development. Miss Mason is the daughter of Arthur Mason of Columbus, Ind. Her principal number was Debussy's "Rhapsody in F sharp minor," which was a good frame for her accomplishment.

The orchestra then presented the andante from Haydn's "Surprise Symphony," composed for the benefit of a sleepy lord who was fain to dose during concerts. The overture from "La Barlesque" by Suppe, concluded the program at climax height.

Well modulated, artistic and fresh, was the interpretation of Paul Bliss's cantata, "Pan On a Summer Day," which the ladies' chorus of the music department of the Women's Club gave in connection with "Richmond Night." It preceded the high school orchestra concert.

Mrs. Lewis King, director of the women, had good voices to work with, and succeeded in obtaining a very graceful and intelligent effect.

Durst, Hoffman Appear.

Unfortunately the organist of the First M. E. church was disabled at the moment when Sidney Durst, organist of Cincinnati, was about to play Thursday morning. Nevertheless, Mr. Durst succeeded in giving a portion of his recital, and John Hoffman, tenor, of Cincinnati, appeared in a suite of French songs, following them by a charming suite of English numbers.

Mr. Hoffman is possessor of a fine voice and great technical ability. His French pronunciation is excellent.

Gas City Man Now Able to Work Was Idle All Winter

Suffered from Rheumatism,
Dizzy Spells, Constipation,
Backache and Kidney Disorder.

Declares Two Bottles of
Dreco Have Done Him
Worlds of Good and He is
Able to go to Work Again.

"I have not been able to do any work all winter, but I'm like a new man now and I will be on the job soon," are the happy words of that well known and respected carpenter, Mr. Lewis Long, of West Main St., Gas City, Ind., 5 miles from Marion. Mr. Long has lived in Grant Co. all his life and is known to thousands of people.

"I kept reading every day about what Dreco was doing for folks suffering exactly like myself, and as I couldn't get any in Gas City I went to Marion and got a bottle. I've suffered for years from constipation and took medicine all the time for this complaint. My liver was sluggish, giving me dizzy spells; my tongue was coated all the time and felt thick. I had severe pains in my back, directly over my kidneys, and it hurt me to bend over or stoop about."

"I've finished the second bottle of Dreco and I can't remember when I've felt so well. My system seems to have been cleaned out; it's the first time my tongue has been clean in months. I never have a dizzy spell and the pains have all been relieved. Dreco is one grand medicine and I strongly recommend it."

Dreco, the herbal remedy that did so much for this man, is a vegetable remedy, containing no iron, mercury, potash, nor any acids nor oils. It acts on the stomach to assist it to digest the food. Rouses a sluggish liver to full action; strengthens the kidneys; quiets the nerves; induces sound sleep; expels catarrh of the nose and stomach and rebuilds a run-down system.

Dreco is now sold by all progressive druggists and is being especially introduced in Richmond by Clem Thistlethwaite's Six Drug Stores—advertisement.

MUSTARD USED RIGHTLY IS PROMPT RELIEF FROM PAIN; IT DOES NOT BLISTER SKIN

Everybody knows the old mustard plaster was a great thing to relieve pain, but it blistered. Make a liniment out of mustard and it will not blister. A good mustard liniment is made by adding red pepper, menthol, amonia and oil of sassafras to ordinary table mustard. If you have rheumatism, neuralgia, lumbago, or muscular soreness, rub this liniment on the affected part when you go to bed and you will scarcely feel the pain in the morning. You can get this liniment already prepared, under the name of Peppen Liniment, at any first class drug store.

It can be used either internally or

externally. Internally, it is valuable for coughs and colds, but when taken internally it must be diluted with water. As a gargle, when mixed with warm water, it is a relief for sore throat and sore gums. Owing to its multitude of uses, it is one of the most universal of family remedies. For cuts, burns and sores, apply a small portion of the liniment and allow it to dry on the surface without rubbing. For headaches, rub on forehead, back of neck and on the temples. Don't forget the name. Ask for Peppen Liniment. You can be sure it is properly prepared.—Advertisement.

Does 3¢ = Americanism?

Did you know that 3c is MORE
than the churches average
from each member per day?

WE AMERICANS may be thoughtless. Sometimes we may appear selfish. But when a great need arises, no one can say that we have ever shirked.

Ask any son of France. Ask any soldier of Great Britain. Or ask any Armenian mother or a girl with a red cross on her sleeve or one with a tambourine in her hand.

And now the churches come to us for help—our churches. Not begging. Not asking alms. But with heads lifted high facing a task so worthy that we, as loyal Americans, ought to feel it a privilege to help.

Here is the Plain, Unvarnished Truth

We don't need to be told that the church is the heart of the Nation. We admit its influence for lasting good in our children. We see its stabilizing influence on our communities. We know a little of its great hospitals, its homes for children, its schools and colleges here and abroad.

But most of us do not realize how pitifully inadequate the support of the churches is when compared to the urgent needs.

Less than 3¢ a day!

In spite of the great tasks which we expect our churches to carry out, those of us who give to the church—and the number is all too few—are now giving an average of less than 3¢ a day for all church purposes.

Less than 3¢ a day.

Shall our churches go on? It is for you to say.

Without your help the work of your church must be just that much less.

Give—and give from your heart as well as from your pocketbook.

A World Survey Was Made

Our churches know the needs that must be met. They know exactly how every dollar—every penny—will be used for the greatest good without waste.

A world survey was made by the churches that astounds business men in its thoroughness. County after county was studied; the countries of the world were visited and reported in minute detail.

How the Interchurch World Movement Originated

Our churches said: "The task of meeting the urgent needs shown by the world survey is too great for us to do individually as denominations. We must do this work together."

So thirty great denominations are cooperating—each keeping its own purpose and identity—but all working together under the name of the Interchurch World Movement.

Because of this cooperation, it is estimated that over one million dollars will be saved alone in eliminating waste and duplication.
