## ANDERSON TELLS OF KIDNAPPING IN N. Y.

(By Associated Press) ROCHESTER, N. Y., May 25.—The mystery surrounding the fate of Francis Reed, 12 year old Rochester boy, who disappeared Feb. 5, 1919, was partly cleared up today when the police announced that William Anderson, 48, a negro now serving a life sentence in the Michigan City, Ind., state prison, for murder, had confessed to the authorities of that institution that he had kidnapped the boy.

The negro maintains that the boy is still alive.

William Anderson is the name of the negro run down and caught by Sheriff Carr and Dave Carr and Buck Wenger, of the Richmond police force last fall, after a gun night battle one night in the Economy railroad yards.

Anderson at that time had a 17-year-old white boy with him. He had just shot and killed a Muncie druggist, Clarence Benadum, and was sentenced to life imprisonment for this crime.

Carr said Tuesday he was certain Anderson is the man he captured.

### Attempt to Rob T. H. I. E.

### Fails Near Terre Haute

TERRE HAUTE, Ind., May 25.—An attempt Sunday night to hold up a northbound interurban car on the Terre Haute, Indianapolis and Eastern traction line was frustrated by Otis W. Scott, cashier of the State Bank at Scott, who was a passenger.

Two men headed the car toward south, near Allendale, which is six miles from this city. When N. J. Stubbins, the conductor, approached them to collect their fare, one of them thrust a revolver at him and ordered him to throw up his hands. In his surprise the conductor, to comply with the order of the passenger, snapped the revolver twice, but it failed to fire. Scott, who sat across the aisle, seized the weapon and wrestled with the holdup men, while the conductor jumped into the toilet, climbed through the window and held on with his hands until the car stopped as the result of an emergency call by one of the holdup men.

The bandit with the revolver ordered an employee of the company named Snyder, who was a passenger to pull the bell cord, and on Snyder failing to do so, he shot twice at the latter, neither shot taking effect. He then pulled the cord himself, and as the car slowed down, both men escaped.

## ECONOMY COMING INTO OWN, RESERVE REPORT INDICATES

(By Associated Press) CHICAGO, May 25.—A growing tendency toward thrift, a general revision downward of prices of all commodities except food, and improvement in the labor situation are three encouraging factors in the report of the seventh federal reserve district, issued today.

"A most encouraging development of the last month has been a growing tendency on the part of the general public toward thrift," says the report.

"Ever since the armistice was signed people have been indulging in a wild spending orgy, buying only the highest priced goods and satisfying extravagances almost to an extreme. This spending hysteria now seems to be waning, although the change is not yet pronounced."

Railroads Disturbing Element. The report refers to a "disturbing element" in the "almost demoralized condition of our railroads, transportation being on the verge of a breakdown, by reason of a shortage of freight cars and a serious congestion in all leading railroad centers caused by the strike of switchmen and other rail workers.

The credit supply still is restricted and the demand outstrips any previous total in the history of the world. Lastly, but by no means the least important there is the additional complication of growing signs of a general revision of price of all commodities with the trend in most cases downward.

The continued high prices of food is the most important exception, the review states, adding that "other living costs offer great encouragement, particularly the price of clothing."
