

JOHNSON WILL NOT BOLT; FAMILY ROW, NOT DEATH QUARREL

CONCORD, N. H., May 24.—Senator Hiram W. Johnson, of California, declared in a political address here today that he would not "bolt" the Republican party at Chicago if he should not be chosen as the Republican presidential nominee there.

"I now am engaged in a family quarrel, wholly a family quarrel," Senator Johnson said, "and when the selection is made at Chicago in two weeks the quarrel will be ended."

Senator Johnson also spoke today at Greensboro, and will deliver several addresses in the state tomorrow. He told his audience at Greensboro that he came to North Carolina "fighting organized politics and organized wealth."

Major General Leonard Wood, another candidate for the Republican presidential nomination, will invade North Carolina tomorrow and will deliver speeches at Greensboro, Winston-

Salem and Asheville.

CHICAGO, May 28.—National committeemen who are gathering here for the opening of the hearing on contested Monday, received with interest today the reports of Senator Hiram Johnson's speech at Concord, N. H., in which he denied that he would "bolt" the convention if not nominated.

The probable attitude of the senator in case of defeat in the convention has been the source of speculation for weeks along "Presidential row," and his pronouncement on the subject was received with visible relief.

"I'm glad to hear that," said A. T. Hert, of Kentucky, chairman of the Convention Committee on Arrangements. "I have thought all along that would be Mr. Johnson's decision."

Senator Johnson also spoke today at Greensboro, and will deliver several addresses in the state tomorrow. He told his audience at Greensboro that he came to North Carolina "fighting organized politics and organized wealth."

Say City Passengers Hog Seats on T. H. I. & E. Cars; Greenfield Protests Rises

Alleged usurpation of seats by Indianapolis city passengers in the interurban cars of the Terre Haute, Indianapolis & Eastern Traction company was complained of by citizens of Greenfield Thursday before the public service commission in Indianapolis at hearing on a cross-petition filed in connection with the company's petition for increased rates. William A. Hughes, city attorney of Greenfield, brought out that Greenfield passengers are charged 18 cents for riding from the Indianapolis city limits to the traction station, while Indianapolis city passengers make the same trip for 5-cent fare.

It was brought out that the fare from Greenfield to the Indianapolis city limits is 46 cents, and from Greenfield to Indianapolis 64 cents, or 18 cents more for the trip inside of the city. Indianapolis citizens, particularly citizens of Irvington, who make use of the traction cars, make the same trip for 5-cent fare.

The Greenfield petitioners are asking that the rates for Indianapolis city passengers be changed. It was pointed out that the interurban companies en-

ter the city are under franchise to take city passengers for a 5-cent fare.

While there has been no complaint from Richmond or Wayne county persons, the condition complained of by Greenfield would of course, apply here.

VAPOR OIL STOVES

RED STAR

Detroit Vapor Oil Stove

*Get the Amazing Secret of Efficiency
and Economy in this Famous Stove*

Saturday and all next week our great Demonstration Sale of RED STAR OIL STOVES will be in progress.

Don't fail to come—and come early, too—as our quota of Red Star Ranges is positively limited by the factory. Come and see why the beautiful range is such a success, how it actually MAKES ITS OWN GAS from kerosene, and why it ends FOR ALL TIME the limitations of the ordinary oil stove. See why it permits you to roast, fry or bake ANYTHING as quickly and perfectly as any gas range. Lights, heats and operates as easily and quickly.

Mr. J. L. Snyder, the factory representative, will be here all week and will demonstrate every feature of this wonderful stove. Come in and see it; ask questions whether buying or not. Watch east window.

SEE THE "DOUBLE RING FLAME BURNER"
Notice the absence of wicks or asbestos rings. The burner is directly beneath your cooking utensil. The heavy cast-iron burner gets red-hot and gives perfect vaporization. Thus it positively prevents all smoke and odor, and increases heating efficiency by at least 30 per cent; in fact, you get 19 hours of perfect cooking and baking from one gallon of fuel—much cheaper than gas. Come and witness the demonstration and get our special terms on them for this week.
