

CARLANDER LEAVES TO BE SECRETARY OF FOND DU LAC "Y. M."

Lester W. Carlander, general secretary of the Richmond Y. M. C. A. since September, 1918, has tendered his resignation to the board of directors of the association, to take effect July 1. He will go to Fond du Lac, Wis., where he will take up the duties of general secretary of the association there.

Coming here shortly after Ellis M. Learner, former Y. M. C. A. secretary, had left, and L. A. Schwan was acting secretary, Mr. Carlander has worked with earnestness and spirit. He has not only been active in association work, but has also participated in most of the religious movements of the city and county.

Since coming here Mr. Carlander has done much for the betterment of the Y. M. C. A. The new and modern cafeteria equipment has materially helped in providing a revenue to help in maintenance.

As church federation secretary, his work as secretary of the church federation of Wayne county is well known. He was also superintendent of the First Baptist Sunday school for a short time.

Mr. Carlander was out of the city several weeks ago, in all six townships, in which he will commence work. At a meeting of the board of directors of that institution a few days ago, he was unanimously voted general secretary.

The city of Fond du Lac, including North Fond du Lac, has about 27,000 population, and offers a large field for association work.

Mr. Carlander expressed deep regret at leaving so many friends, and said that his work here with the citizens and officials of the Y. M. C. A. had been most delightful.

Farm Federation

The Farm Federation folks are making a drive for members in Union county this week. In all six townships, B. C. Julian, of Delphi, is leading the drive in four townships, the first meeting being held in Union township on Monday night, this followed by the soliciting committees on Tuesday. There will be a meeting on Tuesday night at Dunlapville; one on Wednesday night at Brownsville; the last of the series occurring at Liberty on Thursday evening.

"But one day is given to the drive in each township," said M. A. Nye, county agent, "and we shall be through Center township on Friday. The two remaining townships are running under their own steam, no imported lecturer taking a hand in the work." In

KREMER TO OPEN DEM CONVENTION

J. Bruce Kremer.

J. Bruce Kremer of Butte, Mont., will call the Democratic national convention to order at San Francisco, June 28. Mr. Kremer is first vice chairman of the Democratic national committee. He was selected, according to an announcement by the Democratic national committee, because it was thought fitting that a western man should open the first convention of the party to be held west of the Rocky mountains.

A conversation had some time ago Mr. Nye stated that it was his opinion that one-half of the farmers in Union county were then members of the Federation and this drive is being made to enroll as many of the balance as possible.

SCHOOL AT WILLIAMSPORT BURNS WITH \$50,000 LOSS
ATTICA, Ind., June 1.—Fire early Monday morning totally destroyed the high school and grade building at Williamsport, three miles west of this city. The fire is supposed to have been started by some boys who had been loitering around the building. The loss is estimated at \$50,000 with \$28,000 insurance.

The Farm and the Farmer

BY WILLIAM R. SANBORN

"Wheat has improved greatly around here, and very little of it was plowed up," according to Adam Eby of Boston township, who says it was mostly sown to clover and let stand to main-tain rotation. Mr. Eby said on Tuesday that he believed that all the corn was now in, and in fact many farmers were working their fields, not always because corn had reached that stage, but to kill the weeds: "For you can kill more weeds in two hours when the ground is dry than in 10 hours when it is wet," is his opinion.

Mr. Eby has 45 acres in corn and has already begun cultivation. He thinks we are to have a large crop of oats, in both Indiana and Michigan, having just returned from a trip up north. With reference to Michigan he said wheat looked better than he had expected, for the reason that only the good wheat has been left to stand, in so many instances.

There is considerable old wheat in Boston township, in Mr. Eby's view, in fact he places stocks at 5,000 bushels up as still in farmers' hands. As to hogs he thinks there are but 50 per cent of the normal number, and says too, that "nobody is feeding hogs; all being on grass."

The highest price paid for a cow at the recent W. D. Wilkinson sale of Jersey cattle at Noblesville, Indiana, was \$605 paid for a daughter of Golden Tycoon, here two others brought \$500 each. There were 48 head in the offering and a large crowd of Jersey fanciers attended the sale.

Soy Bean Culture.
According to the authorities at Purdue the soy bean is fast coming into favor and is destined to become one of Indiana's staple crops. The bean is said to have a number of commercial uses, for from it may be manufactured soy oil, for soap making and other uses, both milk and chocolate substitutes, a vanilla, also a breakfast food. Its most important use, however, is as concentrated food for cattle, sheep and hogs. Either the grain, the

hay or the green forage may be fed to advantage. The crop experts at Purdue say:

"One of the great advantages claimed for the soy bean is that it gathers its nitrogen from the air, like clover, and that it will grow where clover has failed, because it stands more drouth and soil acidity than clover. Hundreds of farmers have substituted soy in their rotations, in place of clover, with good results." The soy beans so far planted in the Richmond radius have usually been planted with corn and have been "hogged down," with satisfactory results, so farmers have reported.

BOY SCOUTS RAISE TENTS ON FULGHUM FARM HILL

The Walter B. Fulghum farm south-east of Centerville, was the scene of a Boy Scout "tent raising" on Monday, in which a number of happy youngsters participated and the friends of the family took part. It was a picnic occasion and a number of autos, and a truck with a camp outfit, reached the farm early in the forenoon.

The members of the party included N. B. Fulghum, mother, wife and family; W. J. Sanborn, Mrs. Sanborn and Mrs. Mary M. Douglass, her mother; David Spillman, wife and family; James Jones and family, Miss Leone Nuttall, Miss Helen Wickert, John Nuttall, Francis Robinson, Dudley Woodman and Omer Tillman.

CORN PLANTING PRACTICALLY IS COMPLETED IN COUNTY

The end of May sees the work of corn planting in Henry county practically completed. Such was the report made by farmers from all parts of the county.

The absence of rain has enabled the farmers to carry forward the work of planting practically uninterrupted. Here and there over the county there is a field that is not yet ready for planting, but all such are being made ready as fast as possible.

POOLING OF WOOL FAILS TO BRING PRICE EXPECTED

GREENSBURG, Ind., June 1.—The wool pool planned by the farmers of this county, together with those of

12 other counties, did not prove a success as the fleeces would not bring the price expected by the farmers. Representatives of large wool firms of Philadelphia and Louisville said that their houses had suffered from cancellations of orders from clothing manufacturers, and that they had been instructed to play safe on placing bids. Offers here Saturday ranged from 20 to 41 cents a pound for the entire crop of wool. All bids were rejected.

About 100 farmers were in the pool formed here under the supervision of the county agricultural agent, W. L. Ireland. It is estimated that there would have been 2,000 fleeces in the pool. Owing to the cold, backward summer only, a small portion of the crop has been clipped. Last year the pool was sold at 59½ cents a pound. Local buyers refuse to buy on account of the unsettled condition of the market, and Mr. Ireland has recommended that the farmers store their fleeces to await better conditions.

Profit-Sharing Body Adds Another Elevator

The Farmers' National Grain association, Inc., successor to the Buckeye Elevator & Grain Co., has taken over the elevator of W. D. Wilson & Co., at Fountain City. This makes the fourth elevator acquired by the Farmers' National Grain association. Three others are owned and operated respectively at Boston, Wits, and Kitchel.

The new organization has largely been financed by farmers of the communities in which elevators are operated. All the preferred stock of the concern is owned by farmers, who not only draw preferred dividends but also

HELPED MAN AND WIFE
Walter Farrand, 1093 Springfield Ave., Irvinston, N. J., writes: "My back ached continuously, as did my wife's. After taking Foley Kidney Pills we were surprised with the quick results. I recommend Foley Kidney Pills to any one who has kidney or bladder trouble. They help rid the blood of impurities that cause rheumatic pains, swollen, aching and stiff joints and muscles and other symptoms of kidney trouble. For sale by A. G. Luken & Co., 630 Main St.—Advertisement."

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmolested for one year? To rid the pesky bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants is to use the new discovery

Peaky Devils Quietus "P. D. Q." A 35c package of P. D. Q. makes a quart, enough to kill a million bedbugs, roaches, fleas and cockroaches and at the same time destroy their eggs. Impossible for them to exist when P. D. Q. is properly used. Free, patent apout in every package to get the pesky devils in the hard-to-get-at places and save the juice. Special Hospital and Hotel size \$2.50—makes five gallons of P. D. Q.—your druggist has it or can get it for you, or sent prepaid upon receipt of price by the Owl Chemical Co., Terre Haute, Ind. Success of P. D. Q. has caused imitations; genuine P. D. Q. is never peddled.
