## RICHMOND CONSTABLE SERVES A HIGHLY IMPORTANT NOTICE ON THE PUBLIC IN GENERAL

### Makes Strong Appeal for Betterment of Health, Which Hits Popular Cord and Scores Hasten to Take Advantage of Opportunity

There may be some one in the Hoosier State who is better known than Ben N. Crump, who lives at 221 S. W. Second St., Richmond, but it is safe to say that Mr. Crump counts his friends by the thousands.

For twenty-eight years a hard worker in this city's welfare he is at present performing the duties of constable with headquarters on the second floor of a building at 6th and Main St.

Mr. Crump is a strong advocate of Peppen. In relating his experience with the medicine Mr. Crump says:

"Some time ago I had the gripe and after I had passed the acute stages I was in a much run-down condition. The ailment left me weak. I didn't seem to be able to regain my strength. My stomach was affected for I was not able to digest my food as formerly."

"One day, in a conversation with a well-known attorney, I happened to remark that I did not feel well. He told me that Peppen was a good tonic and builder."

"I tried Peppen with splendid results. It soon righted my stomach

and in a short time I regained former strength. I consider it a medicine of exceptional value and one that everybody should know about."

This highly important message from Mr. Crump has created a big interest among Richmond citizens as is shown by the scores who have already hastened to obtain Peppen in order to take advantage of the opportunity this medicine offers to regain strength.

To live it is necessary to have strength. Merely existing—breathing, eating, sleeping, working and dragging around from place to place without any real interest—is not living.

To live means to be thoroughly alive in every way—to hope happily and confidently and to have faith in one's fellow men and in one's self, to have a purpose and work constantly with joy to accomplish that purpose.

People without health cannot be thoroughly alive. A part of them is not alive. It may be energy that has passed away. It may be ambition that is dead, it may be hope that is asleep. It may be that health itself from which comes energy, strength and hope is stupefied. Such people to become

thoroughly alive must coax back health and keep it.

Peppen has helped hundreds of men and women to coax back health which they had thought lost to them forever, to coax back energy, strength, hope that is found only in people fairly bubbling over with health.

Peppen's popularity consisting of over 1,500 bottles sold right here in Richmond is explained in this statement. It has won the public endorsement and gratitude. It has aided many to be thoroughly alive with new health and strength.

Peppen coaxes health in a reasonable way. It is especially designed to cleanse while it strengthens sick, sore stomachs and thus build health through the digestive and eliminative organs.

Just as health is the source of energy, ambition and a sense of power that enables men and women to hope and work and win, so the digestive and eliminative organs are the source of health.

Peppen may be obtained at any first-class drug store anywhere.

## BIG HEART INTEREST THROBS THROUGH MRS. GERTRUDE HOLSPETER'S THRILLING STORY

To suffer with nervous dyspepsia, to experience the agony this dreaded ailment causes, to realize the tenuity of its endurance when once it has taken strong hold, and then to be rid of the ailment, almost over night, it would seem, is the thrilling experience of Mrs. Gertrude Holspeter, 184 North 9th St., Richmond. Mrs. Holspeter credits Peppen with this remarkable experience. Here is her story:

"I suffered with nervous dyspepsia and at times I had pains in my stomach that were almost unbearable. At such times I was compelled to go to bed and I could do nothing but roll and toss and moan. I often thought I could not stand the misery. Many nights my mother has sat up attending me."

"I discovered that rich foods made my trouble worse so I was careful what I ate. At Thistlethwaite's drug store on Main street they told me about Peppen. They said they had so many good reports about the medicine they thought it might help me. I tried it. It helped me. I am eating whatever I desire. I feel very thankful towards Peppen. It is wonderful to me to be able to eat a hearty meal, get a good night's rest and feel strong in general."

Peppen's aid to the people suffering with stomach, kidney and liver ills has been unusual. It has been simple and natural for Peppen is Nature's medicine for common everyday diseases which beset mankind, debilitate both men and women, deprive them of happiness and fullness of existence that ought to be right belong to everybody; impair the digestion, destroy the vital organs and thus by injury to the stomach, blood and nerves destroy vigor and ambition and the general health.

The fact that Peppen is sold and recommended by Clem Thistlethwaite

and other first-class druggists is in itself proof of its merit. Mr. Thistlethwaite is a friend and advisor of everyone of his customers. He says what he thinks is the truth about medicines. "Peppen gives universal satisfaction. I am glad to handle it because our customers realize its worth," is his usual commendation.

All over the country the druggists who recommend Peppen are the

best," is the remark many of them make. These druggists who so enthusiastically recommend Peppen have a good reason for so doing. They know that Peppen deserves to be recommended. Back of Peppen's triumphs in the drug stores is Peppen's triumphs in the homes.

Peppen has so much merit, it is so splendid a tonic for stomach, digestion, kidneys and liver, that it has become a household medicine. Peppen is an upbuilder, appetizer, invigorant and revitalizer to relieve the weakness, illness and general depletion of the body force resultant from the breaking down of the digestive processes.

Eating food is not enough to supply the body. Food taken into the stomach must be rendered into blood, bone and muscle. If the digestive organs are not ready to perform their functions the food becomes waste, sores, fermentations and creates poisons which are carried throughout the system.

Peppen is designed to aid assimilation so that food which is taken into the system will serve as fuel for the body to keep the human engine moving as it should. It has been said that Peppen is like oil to machinery—it keeps the human engine moving smoothly and efficiently.

Indigestion, dyspepsia, belching and bloating from gas, sourness and soreness of the stomach, inactive liver, biliousness, dizziness, kidney troubles, sharp, shooting pains in all parts of the body, rheumatism, loss of appetite, sleeplessness, nervousness, irritability, falling off of weight, foul breath, catarrhal conditions of the mucous membranes—these ailments Peppen was designed to relieve and thousands have testified that Peppen relieved them, made them feel well and strong again, fit once more for a day's work and a night's sleep.

Mrs. Gertrude Holspeter.

## EVEN SIGHT OF FOOD ALMOST MADE HER SICK SAYS WOMAN WHO NOW EATS HEARTY MEALS

Mrs. Anna C. Jones, 41 North 6th St., Richmond, says: "Oh, how thankful I am that I concluded to use Peppen, for now I feel well and sleep well."

"Before I took Peppen I had pains in my stomach. They seemed to move from one side of my stomach to the other and almost drew me double. Even the sight of food made me sick. My kidneys were badly deranged, too. It was often necessary for me to get up several times during the night."

"Now I have a good appetite and eat three hearty meals every day. My rest is not broken at night and my kidneys are acting normal. It is seldom that I have to get up before morning after I go to bed. I am glad to recommend Peppen for I think it is a wonderful medicine."

Peppen is a remedy for people who do not feel well and are wise enough to know the necessity of feeling well and keeping well. Peppen is a reconstructive remedy—a remedy designed to build health and strength through the source of the body's health and strength—through the stomach, blood and nerves.

Peppen is a stomach food and tonic which feeds while it heals sick, sore, starved stomachs. Peppen is delicately adapted to stomach needs; Peppen is purely vegetable, free from mineral taint.

Thousands of bottles of Peppen are being made every year because Peppen has proven its worth as a remedy for run-down, weak, nervous men and women.

## A MUSTARD BATH AIDS SORENESS

Everybody knows the old-fashioned mustard plaster was a good thing to relieve pain, but it blistered. Mustard should be used in the form of a liniment to get the best results. Mustard liniments penetrate without much rubbing, and impart a pleasant, soothing warmth to the skin without blistering.

A good liniment is made of mustard, red pepper, sassafras, menthol and ammonia. Apply it to the feet upon retiring and the soreness will be gone in the morning.

It is also a splendid external application in rheumatism, lumbago, muscular soreness, coughs, colds and pleurisy. It relieves pains and assists internal remedies to rid you of ailments.

The above prescription with added ingredients, already prepared, may be obtained under the name of Peppen Liniment from any first-class druggist in Richmond and nearby towns.

Peppen Liniment aids Peppen wherever there is pain.

## CHILDREN SHOULD BE WATCHED WITH VERY GREAT CARE

They Require Perfect Digestion, Otherwise Delicate Tissues Are Not Nourished.

One of the greatest mistakes a parent can make is to neglect looking after a child's digestion.

The tissues of a child's body are very delicate. They have not acquired the powers of endurance which older people possess. The greater portion of the food they eat is required for growth and development.

Together with the double strain of studying and growing, a child's digestion is taxed to the limit and parents should see that their children have prompt attention should stomach disorders occur.

Peppen has been a real help to many an anemic child because it puts blood of good, rich, red quality into their little veins and makes them want to laugh and play.

## RIDGE ST. GROCERYMAN FEELS LIKE BOY AGAIN; FORGETS AGE AND JOINS CHILDREN IN PLAY

"I have actually forgotten my physical troubles since I've been taking Peppen and am beginning to feel like a boy again," says J. N. Long, proprietor of a grocery, 1249 Ridge Street, Richmond.

"Before I took Peppen I had nervous stomach trouble. I had no appetite and nothing in the food line agreed with me. My nerves were very easily upset. I didn't seem to have any patience. The noise my children made in playing seemed to go through me like a knife and I often was compelled to ask them to play somewhere else than around me."

"But now, since taking Peppen, all is different. The more noise my little tots make the better I like it. It lets me know they are well and happy. My stomach doesn't hurt me any more. It pleases me to have a good romp with the children."

"My wife is taking Peppen, too. She was in a general run down condition

it has helped her. And besides she gives it to our children whenever they don't feel just right."

"We call Peppen our family tonic and it certainly deserves a place in everybody's home."

This is but one more family made happy by the use of Peppen. Everywhere the most prominent people are giving testimony in favor of Peppen out of gratitude for the relief they have experienced and because they believe it their duty to do so.

It is the humanitarian spirit to help the "other fellow" if you can that is the first thought of many men and women who voluntarily tell what Peppen has done for them.

While it is true the success of Peppen in Richmond has been so great as to amaze business men still, it really also, is true that Peppen is no more popular here than it is in other cities where it has been introduced.
