## GRAIN PRICES

CHICAGO, July 1.—The grain market rallied on comparatively steady cash grain, talk of small receipts, short deliveries, only 30,000 corn, short interest demand, and Goodman corn report. Early weather and crop news produced a break. Goodman's corn feature is the small gain of 1 percent in acreage. Corn crop start last year was 2,815 million. We believe the corn promise is near 2,900 million. Condition 87 per cent. Private oats guesses of 1,325 to 1,380 million are above bullish ideas. We have no immediate confidence in December corn near \$1.60. Overnight if a late dip would buy corn and oats. Unless sharp change in the news we do not think bulges will go very far.

## LEAGUE FIGHT

(Continued from Page One)

nomination of the former secretary of the treasury there would be disclosed another coalition which would produce a Wilson backed dark horse, who could make enough accessions to win. The name of Homer S. Cummings, chairman of the Democratic national committee, cropped out whenever the administration dark horses were being discussed. The name of Vice President Marshall was generally linked with that of Champ Clark, when combination candidates to break the McAdoo wave were being discussed among the old liners.

Claims of strength for the leaders ranged this way when the convention got ready for business today.

Irreconcilable opponents of McAdoo claimed a block of at least 400 bitter ends who would stand to the last and prevent his nomination. McAdoo leaders claimed to within 50 votes of the necessary two-thirds, and declared they were sure of accessions attracted by their showing of strength, which they were sure would stimulate a "bark" movement.

Claims 450 is McAdoo Limit.

In contrast to this the opposition to McAdoo claimed his vote never would exceed 450.

Talk on the presidential nominee was mixed with a current of discussion as to the vice presidency. Platform developments undoubtedly will influence that question but discussion turned toward picking a running mate for McAdoo, should he be "drafted" for service.

The name of Joseph E. Davies, former representative in congress from Wisconsin and first chairman of the federal trade commission, was suggested for a McAdoo ticket as was that of Secretary Meredith.

The name of Victor Murdock, of Nebraska, a leader in the Progressive revolt in congress, which opened the way for the Republican disaster in 1912, also bobbed up.

The discussion of second place with McAdoo continued to emphasize the name of Governor Cox.

A factor in the situation was the absence of agreement on the prohibition plank of the platform. The position of Mr. Bryan is tightly bound up in that issue.

Some say that if Mr. Bryan is successful in obtaining the plank he has introduced, he is the only man who could run on it.

## Mines Bill Passed By British Parliament

LONDON, July 1.—Representatives of British miners, from whom strenuous opposition to the mines bill had been expected, failed to make an impressive showing when the measure came up for second reading today. Rejection of the bill was moved by them, but it was carried by a large majority. This bill sets up a department for the better regulation of the coal trade and of miners' conditions.

The House of Lords today passed on third reading the official secrets bill. Amendments suggested by newspapers, which viewed some of the measure's provisions as likely to restrict the freedom of publication of official documents or reports of prosecutions, were not incorporated in the bill.

## DRY GOODS DULL; NO INTEREST IS SHOWN

NEW YORK, July 1.—The dullness in the dry goods market continues without much signs of letting up until after the holiday. Buyers are here in fair numbers and some are making engagements.

They will take on goods that show substantial reductions, and in a few cases they will buy those goods they know they will be given protection or in the event of lower prices being made before goods are shipped to them.

The actual buyers, as distinguished from the heads of houses, are optimistic concerning fall trade in their own territories. They say goods are not

congested; that staple high class merchandise is hard to get, and there is still a decidedly larger purchasing power in their territories than in normal times.

The interchurch survey reports that Colombia has no adequate working class.
