

## FRIENDS LAY PLANS TO TAKE OVER WORK IN GERMANY

All the child feeding operations in central Europe, now conducted by the American Relief Administration, will be taken over by the American service committee of Philadelphia, says an announcement from the central offices of the Friends here today.

Quakers have been doing the first of the year's work of distribution of the feeding, which is taken over by the Quakers, a special request of Mr. Hoover. Mr. Hoover has become a member of the service committee and chairman of the subcommittee feeding in Austria, Germany and land. American headquarters are retained at Philadelphia and the central offices will be established in Berlin.

A. G. Scattergood, assistant of the President Life Insurance company, now chief of the relief in Germany, will be the whole European work, assistant in each country.

**500,000 Meals Daily.** Child feeding operations conducted in the three countries on June 1, 1921. Children up to and nursing and expectant mothers will receive all, averaging 500,000 meals daily in the three countries.

More will be fed than funds are obtained by the three countries on an average of \$3,000,000 annually. Since 1920, \$3,000,000 worth of food shipped into Germany by the three countries.

Besides the feeding program in Poland, with Warsaw as the center, will consist of delousing, typhus medical relief, and be made to encourage and agricultural production. He of the transport division committee will be in Vienna, city market has been out of the municipal authorities to a garage. Eighteen work charge of the transport system.

**Wheat Cutting Start.** Henry With Pros Good Crops. Thursday morning the county's wheat was harvested by the first of next week, but in full swing over the thought.

J. B. Shively started the work Thursday, and it is several other farmers who will have their wheat cut by the last of this week.

The crop this year has been the best in many years, and was harvested about July 1st, and hot weather of the week have hurried the wheat deal and it is expected the wheat crop will be the first week of July.

Farmers say that the conditions of the last few years very favorable to wheat, and of the straw has been the heads have been with heavy grain. A number have exhibited grain in the county in several years.

Quality is the result in more grain, standing, and the quality is better. It is stated that much better than was anticipated, although it is much over a 50 per cent of the damage done to wheat and the small acre.

Oats, also, have been by the recent cool weather. July finds the community in fine shape, and the fact that a great deal of wheat was a little late, the growing corn as a vendid. The entire outlook for farmers is encouraging.

**MORE U. S. SMOKE SENT OVER OATH.** A growing forest for American cigarettes and cheroots is indicated by official government statistics the exports of tobacco for the month of April, 1920, with the corresponding year shipments of cigarettes \$91,032,000, or 128 Cigars and cheroots made \$69,000, or 87 per cent, and smoking tobacco, which sustained a decrease 247,850 pounds, or 41 per cent, 239,544 pounds, or 54 per cent. The total value of products.

**BACK HILL ALL TIME.** Mrs. Hill Says Pinkham's Vegetable Compound Removed it.

Knoxville, Tenn.—hurl me all the time, I was, could my head, all female I was a with me no my sis advised I took Pinkham's Compound. The Liver Pills and used Pinkham's Sanative Wash as well, can eat heartily and you my thanks for your gift. You may publish my will tell everyone what you did for me. Mrs. PEARL JACKSON, St. Knoxville, Tenn.

Hundreds of expressing gratitude for the E. Pinkham's Vegetable Compound are constantly received, proving the reliable old remedy.

If you are ill (along and continue to suffer) day out but at once take Pinkham's Vegetable Compound. A woman's remedy for women.

**THE FARM AND THE FARMER.** BY WILLIAM R. SANBORN

The manager of the elevator at Brownsville, Ind., began cutting wheat on Tuesday. He has 60 acres of wheat, which is said to be "very fair" and considerably better than expected. Mr. Cully, business man and farmer of Brownsville, Ind., is also interested in the Brownsville area, according to a report from the elevator. Mr. Cully is also interested in the Brownsville area, according to a report from the elevator. Mr. Cully is also interested in the Brownsville area, according to a report from the elevator.

**Dublin Harvests Next Week.** W. B. Woodward, grain man at Dublin, reported a "fine shower on Wednesday afternoon," but said that it did not do much more than to "catch up" the wheat. He said that the wheat was "very fair" and considerably better than expected. Mr. Cully, business man and farmer of Brownsville, Ind., is also interested in the Brownsville area, according to a report from the elevator.

**Cook Will Cut 100 Acres.** W. H. Cook, who has a farm on the Middleboro pike, says that he will have about 100 acres of wheat to cut, which will be ready some time next week. Mr. Cook states that none of it is very poor, nor is any of it extra good, "just fair." He says that his corn looks well and that corn will no doubt "catch up" even if it started late. "There is ample time to make a good crop."

**Never Had Better Corn Prospect.** Joseph Pardieck, living four miles out of Richmond on the Abington pike, said: "The binder is oiled up and ready for action and I expect to get into my wheat on Thursday afternoon. I have 20 acres that look mighty good and has not been hurt by any pest whatever."

"They expect to cut wheat on Herman Pardieck's farm, also, on Thursday afternoon, or at least make a start at it," said he. As to corn, Mr. Pardieck says that he "has 40 acres which couldn't possibly look better."

**Corn in Good Shape, Says Meteorologists' Report.** A summary of weather and crop conditions in Indiana for the week ending Tuesday, by J. H. Armstrong, of the Indianapolis weather bureau, follows: Some showers occurred during the first two days of the week, but the remainder of the period was dry, with bright sunshine. The cool weather which had been the rule during the previous week continued until Monday, when a warm wave set in. While the low temperatures did not promote the most rapid growth of corn, yet this crop advanced remarkably everywhere.

The crop, however, now needs rain generally in the western section of the state, especially in fields which were planted late. Rain is needed also in western counties for potatoes, young clover and most garden truck, but the condition of the soil with respect to moisture is better in most eastern sections. Wheat will be harvested in the southern counties and begun through the central part by July 3. Practically none of that harvested has been threshed, but it varies from average to very light. In a few northern localities, particularly, the crop is practically a failure. Oats will be ready to cut in the southern districts in about 10 days. Buckwheat seeding has begun. Northern cherries and southern peaches are reported a fine crop, but there are some complaints of apples dropping. Some damage from hail was reported from Randolph, Adams and Carroll counties.

There are more motors for hire than private cars in Japan.

**Low Summer Tourist Fares FROM RICHMOND**

**\$53.28** to Denver, Colorado Springs, Pueblo and return.

**\$63.28** to Estes—Rocky Mountain National Park and return.

## GRAIN MEN ASK U. S. TO KEEP HANDS OFF

Resolutions were adopted at the annual midsummer meeting of the Indiana Grain Dealers' association at Indianapolis Tuesday opposing further activities on the part of governmental agencies in connection with the business life of the country, especially "since such activities have largely been designed for and directed in favor of certain classes of our citizens and against the others (the middlemen). We cannot as American citizens, believing in the fundamentals of a government for the people and by the people think the highest aims and purposes of our government are accomplished by such activities."

The resolutions said: "We believe the patriotism and business sagacity, the sense sufficient to meet every economic condition and other emergency, independent of governmental agencies, and that all should be encouraged to go forward with the determination and purpose to fill their station in life without bitterness of spirit or feeling of dependence upon paternal government."

The grain dealers, declaring the grain exchange is necessary to the marketing of grain, adopted a resolution stating that the association favored the opening of all the grain exchanges of the country.

H. W. Reimann of Shelbyville, president of the association, presided at the meeting, which was followed by a dinner and a program of entertainment at the Athenaeum. Among the speakers at the day's session were Russell G. East, Shelby county agent; W. A. Ostrander of Purdue university; Andrew Smith, secretary of the Indiana Bankers' association; Fred Horner, president of the Illinois Grain Dealers' association; H. H. Potter, president of the Chicago Board of Trade; V. E. Butler, Indianapolis, and P. E. Goodrich, Winchester. Several Wayne county men attended.

**LIGHTNING INJURES WOMAN.** SEYMOUR, Ind., July 1.—Mrs. George Tabor was severely stunned and her home at Freetown was damaged Wednesday by lightning which came from a clear sky. Mrs. Tabor was rendered unconscious, but it is thought she will recover the shock. Mr. Tabor was shocked but not severely. The sun was shining brightly when the lightning flashed. Three doors in the house were splintered and the nails in the hinges were melted.

During a recent morning fog about 200 tons of solid matter was deposited on London.

**Too Fat?** EASY, HOME SELF TREATMENT

Overstoutness weakens, the liver becomes sluggish, fat accumulates, heart action becomes weak, energy fails, work is an effort and the beauty of the figure is destroyed.

Don't allow your health to be ruined through a burden of unhealthy fat. Become slender! Spend some time daily in the open air, breathe deeply. Get from any druggist a box of Korein and follow Korein system simple directions that come with it.

Weigh yourself and take your measurements every week. Continue reducing until you are down to normal. Korein system is absolutely harmless, is pleasant, and even a few days' treatment is likely to show a noticeable reduction. Lessons of testimonials.

Korein system (pronounced kore-in) has succeeded when other remedies etc., have failed. It is the delight of those who wish to improve their figure and to acquire a young, active appearance. \$100.00 guarantee that you reduce 10 to 60 pounds (whatever you need to or cost you nothing! Buy Korein at any busy pharmacy; follow directions. Show stout friends this advertisement.

**Eggplant and Peppers.** E. E. RICE, GARDEN SUPERVISOR.

The egg plant is one of the most desirable vegetables for the home garden. It is difficult to grow good plants to set out unless one has a greenhouse, as the seeds require a high temperature to germinate, and the seedlings grow slowly. Consequently, it is best for the average amateur to buy the potted plants ready to set out.

Buy a dozen or more pot-grown plants of one of these varieties: Black Beauty, New York Improved spineless. Set out in June, when ground has warmed up, in rich soil, two feet apart in the row. Wrap a cardboard around each stalk to prevent cutworm attack. Spray with arsenate of lead to prevent injury by flea beetles and potato beetles. Hoe soil surface often and bring some soil up around each plant, or mulch heavily with fresh grass or lawn trimmings. If any fruits touch the ground, tie stems with rags to small stakes. Cut fruits off carefully when matured.

Flea beetles and adult potato beetles attack eggplants persistently. Keep all surfaces of leaves and stems covered with arsenate of lead or Bordeaux arsenate from the hour the plants are set out.

**Sweet Peppers.** There are two groups of peppers—the sweet peppers or mangoes and the hot peppers or cayenne peppers. The sweet peppers are the more desirable for home gardens. Select one of these varieties: Pimento, Baby Bell, Ruby King. Pimento is the best variety.

The pepper is a warm-season crop, sensitive to frost. Good pot-grown plants are offered by the larger seed houses. Transplant the pepper plants in the garden. Line the rows eighteen inches apart and set the plants fifteen inches apart. Hoe once a week and mound a little soil around the base of each stem as the plant grows, to hold it erect. If the plants are in danger of blowing over, tie each with rags or raffia to a stake thrust into the ground beside the stem. Cut off the

## News of the Counties

CAMDEN, O.—Mrs. Richard Fornsell, who has been an invalid for several years, died at her home on North Liberty street Tuesday. She leaves a husband and two sons. Union services of the M. E. and Presbyterian churches will be held in the yard of the grade school building at twilight during July and August. The first service will be next Sunday evening.
