

## JACK JOHNSON OFF FOR CHICAGO JAIL WITHOUT MANACLES

(By Associated Press)  
LOS ANGELES, July 22.—Jack Johnson, former world's champion heavyweight pugilist, was bound for Chicago today in the company of federal authorities after years of self-enforced exile from the United States following his disappearance while out on bail after convicted of violation of the Mann Act.

Johnson surrendered Tuesday at the Lower California border. He had been living at Tijuana, in sight of the international boundary, for some time.

Because of Johnson's expressed dismay at the prospect of traveling Texas and Louisiana, federal authorities said their original plans calling for transportation over a southern route, had been altered. The start was made over a northern route.

At no time since his surrender has Johnson been handcuffed. Federal officers said. Fear of being manacled had deterred Johnson's surrender several days, but no promise had been made that handcuffs would not be used the authorities said.

"If I had known all this trouble would have been brought upon me by defeating Jim Jeffries, I would have laid down in Reno just as I did to Willard in Havana," said Johnson while in jail. He won his championship by knocking out James Jeffries at Reno, Nev., in the fifteenth round on July 4, 1910. He held the title until knocked out in the twenty-sixth round by Jess Willard at Havana, Cuba, on April 5, 1915.

### Pennsy Drops Honors To Columbus Aggregation

The Richmond division baseball team did not go good against Columbus Wednesday. It received a 7 to 1 trimming.

Riner pitched fair ball for Richmond but ragged support let Columbus pile up a top-heavy score. Richmond's sluggers were helpless before the slants of Linson, Columbus hurler.

Columbus went to the top of the inter-divisional race by winning over Richmond, the latter dropping to second place. Cincinnati and Zanesville bring up the rear. The score of Wednesday's game:

R.H.E.			
Richmond	000	000	100—1 3 5
Columbus	200	101	123—7 11 2
Riner and Dunn; Linson and Ruhl.			

### Richmond Giants Play In Kentucky Next Week

The Thursday half-holiday granted employees by the Richmond business houses has made it possible for fans to witness snappy baseball.

Last week the Richmond and Zanesville division team got together. This week the Richmond Giants and Connersville Giants, touted as being among the contenders for colored championship of Middle West, will hook up at Exhibition Park.

The Giants will leave Monday for a week's stay at Richmond, Ky. The national convention of the colored K. of P. will be held there next week and the local Giants will play five game series with the Richmond Athletics as part of the entertainment.

BERNE, Switzerland.—M. Jules Bloch, a Swiss multi-millionaire company promoter, who made enormous profits during the war and declared only a portion for taxation, has been fined \$2,250,000. The case was pending since the armistice was signed.

## Summer SUITS That Keep their Style

the extra quality and tailoring in our Palm Beach and other Kool Kloth Suits will please you. Our suits retain their shape—other snap and style longer than most summer suits. Before you select your suit be sure to investigate these features of Fred's Clothes. They insure complete satisfaction and comfort for you.

\$15.00 to \$25.00

**Fred's Clothes Shop**  
210 MAIN ST. RICHMOND, IND.

## WHY NOT ANOTHER PARTY—A BASEBALL PRESIDENTIAL TICKET

Everybody is starting up his own little presidential campaign party these days. And so far not one of the parties has included a baseball plank in its platform.

So how about starting our own party, brother and sister fans? Babe Ruth for president and Nick Altrock for vice president! How does that sound? And if

Babe keeps on hitting homers a couple of seasons Ruppert of the Yanks will have all the money in the country, so we might as well make him secretary of treasury.

## SHAMROCK CLEANED FOR FRIDAY'S RACE

(By Associated Press)  
SANDY HOOK, N. J., July 22.—The cup challenger Shamrock IV, was towed to the Staten Island shipbuilding company plant early today to be dry docked, and have her underbody cleaned in preparation for the fourth race with the American defender Resolute tomorrow.

The contest yesterday in which the two sloops went over the 30 mile course in exactly the same elapsed time, has added marked interest to the contests to come.

Captain Burton, designer Nicholson and Navigator Claude Hickman, of the Shamrock, were especially pleased with what they agree was a wonderfully fine race yesterday even if the challenger lost it on time allowance.

Praises Resolute.  
"Resolute is a fine boat," said Mr. Nicholson "and Herreshoff has designed a craft that goes better to windward than Shamrock. On the run home before the wind yesterday the sloops raced along beam to beam as they had been locked together. It was a fine race even if we did lose it."

The race tomorrow will be over a triangular course ten miles to a leg, and it is this contest that Shamrock is expected to force the Resolute to the limit, as the legs of the race will be reached at which point of sailing the Lipton sloop has shown to her best advantage.

### Lots of Bang-up on Tap; But Who'll Be Winner?

A series of ten matches will decide the golf championship of the Richmond or Muncie Rotary clubs in the tourney at the Country Club links Thursday afternoon.

The Muncie team, ten strong, arrived in Richmond via auto from Muncie about noon. Richmond Rotarians have promised first to give the visitors a bang-up luncheon, then take 'em out to the links for a bang-up trimming.

Ten Richmond Rotary golfers will be notified Thursday noon to report to the Country Club to take on the visitors. Ten two some matches will be played. The side with the least number of strokes for the 90 holes will be declared Champ.

### Alfalfa Drills Capture Lead Among Harvesters

The Alfalfa Drills grabbed a firm hold on first place in the Harvester league by handing the third place Limesowers a 4 to 1 beating at Exhibition Park, Wednesday afternoon. The game was well played but for once was without any sensational features. Miller, hurling for the Alfalfas, fanned

seven men. Way, the opposition hurler whiffed six.

The standing of the Harvester League:

Alfalfa Drills	3	0	1,000
Corn Drills	1	1	500
Limesowers	1	2	333
Wheat Drills	0	3	000

### Raise Right Wheat Crop Ostrander Tells Farmers

V. A. Ostrander, of the soils and crops department of Purdue university gave a valuable talk along soils and crops lines to the Harrison Township Farmers' Association last Thursday evening at Hanna's Creek. Mr. Ostrander emphasized the fact that farmers should stick to a variety of wheat that millers demand. White soft wheat and Red Wave are poor marketing varieties. Every farmer should make it his business to know how wheat should be graded.

The leading elevator men of every county wheat grade according to the national grain grading standards and every farmer has a right to this proper grading of the grain he sells. Mr. Ostrander explained in detail the proper grading of grains.

The sad lack of manure and clover on Indiana farms was discussed at length by Mr. Ostrander. The wisdom of buying high analysis fertilizer in comparison with low grade was also discussed. The man who buys a 1-1-1 fertilizer is paying out money foolishly for a lot of excess filler. "The higher the analysis the cheaper the individual plant food unit," said Mr. Ostrander. No fertilizer is high grade unless it contains at least 14 per cent of total analysis.

PARIS, France.—Never in their history have the Paris dressmaking establishments worked so much overtime as at present. The wealthy women of Paris, who seem twice as numerous now as before the war, are ordering the flimsiest summer dresses.

### Rich Farmer is True Title of County Agent

When Mr. Average Man gets a farm of 250 acres in Wayne county with horses, cows, buildings and implements as accessories, his neighbors say he is "well fixed." Perhaps he is, inasmuch as such an outfit would be worth about \$100,000.

But to a county agent 250 acres of \$200 land is only an item. Likewise 1,000 bushels of wheat, 200 head of cattle or 100 bushels of potatoes are matters of everyday appearance to a county agent.

A county agent counts his acres by thousands, his farms by hundreds, his poultry in droves—yet in a financial way they mean nothing to him. These riches accrue to him through his job. On behalf of the state he watches over the agricultural destinies of about 3,000 farmers in the county.

When Old Dobbin refuses to take nourishment, when the fruit trees get "scaly," when a patch of soil gets "thin," the agent is ready to advise. All the ailments that a farm is heir to are brought to his attention. He travels among the farmers helping them pitch hay or plow and offering the benefits of his bureau in correcting any mistakes he discovers.

### Japs Publish Text of Pact With E. Russia Government

(By Associated Press)  
TOKIO, July 22.—The war department has issued the text of the armistice agreement signed recently between the Japanese expeditionary force in Siberia and the far eastern Russian government. The agreement records the hope of the Russian and Japanese committee "for the establishment of a buffer state under the United governments, which, while democratic would not be communistic."

## REDUCTIONS

## ELEVATORS REPORT SMALL DELIVERIES OF WHEAT SO FAR

By WILLIAM R. SANBORN  
There is no pressure of wheat at the elevators as yet, because the grain has just begun to move. There is, however, considerable anxiety for the future, when filled to capacity.

Brownsville reports all the cars needed; Fountain City has one car in, and this is also the case at Williamsburg. Liberty says that they haven't a car ahead and the outlook is dubious. Preble county points are also "anxious" about cars, but it will take a few days to discover just how great the car shortage may develop to be.

Brownsville All-Set.  
The elevator at Brownsville reports a lot of wheat coming in, also that the second car on the crop was being loaded on Thursday morning. They say that the grain is running 59 and 60 pounds, is of good quality and that they have cars enough for the present.

The manager of the New Madison elevator says they had taken in about 4,000 bushels up to Thursday noon, but have received no cars so far, except those that come in loaded with feed.

Wheat is running at 15 to 18 bushels, mostly, with one crop making but 11 bushels. A small piece has been threshed that "ran 37 bushels, but there was but a few acres of it." They are paying \$2.55 for number 2 at New Madison.

Crop Light at Modoc.  
"We are paying \$2.52 this morning," was the word from Modoc, and the wheat so far in is of good quality, testing mostly 60 pounds. But our acreage is short; we shall not have a great crop to handle. We haven't a car to load in yet, but are hoping. Oats are almost ready to cut in this section."

The first wheat at Williamsburg came in on Tuesday, and Frank Dunham was the seller. It graded 60 pounds. Mr. Rosa said Thursday that he had a car on track ready to load, but that there was no telling when he would get another. Number 2 is worth \$2.50 at Williamsburg.

Receives 1,000 Bushels Daily.  
Frank Demott, manager of the Bath elevator near Liberty, said on Thursday: "We took in the first new wheat on Tuesday evening and it is coming in at the rate of 1,000 bushels a day, when with a good crop it should come five times faster. We have no cars ahead to load, and are told that the outlook isn't promising. In my opinion our wheat will not average over 15 bushels; some is running 10 and

other farms up to 20 bushels to the acre. The quality is good, mostly 55 to 60 pounds."

Frank Williams in First.  
The elevator at Fountain City began receiving new wheat Thursday morning, and the first load came from Frank Williams. There is a car of track ready to load. The wheat so far in is reported as being of prime quality. No number 1 wheat has shown up but number 2 is worth \$2.55 at Fountain City today.

### Farm Federation

The farmers of Abington township are to meet on Tuesday evening, July 27. E. L. Patterson, state speaker, is to be present and at farmers and their families are invited. There will be a mass meeting of Wayne farmers at the Richmond High school auditorium on Wednesday evening, July 28. This promises to be a very interesting meeting and two or three good speakers will enliven the proceedings. Considerable business of importance will be brought before the meeting by the directors of the local federation.

The enjoyment of beautiful flowers is common to all the inhabitants of Japan.
