

## FRIEND IN GERMANY SEES LASTING BENEFIT IN FEEDING CHILDREN

Extracts from a letter from Caroline Nicholson, daughter of S. E. Nicholson, of this city, dated Hamburg, June 20, 1920, have been received at the Friends Central offices. Miss Nicholson is doing Friends relief work in Germany. Several follow:

"In the stack of letters which we receive from parents and teachers and children, the following from a teacher is typical: 'The greatest effect of the feeding is seen in the spirits rather than in the bodies of the children. It is unanimously reported from all classes that the children who take part in the feeding show a much better intelligence, are more lively and take more interest in their work. It is a joy to see the children at the feeding.'

"One hundred children greet the appearance of the food with shouts, 100 pairs of eyes look on in suspense when the cover is lifted; expectant silence, then another shout when 'milk rice' appears. That is most loved by all the children. The mission may be assured that the milk rice does more to kill hate and to bring peace on earth than all the speeches and newspaper articles of the politicians put together."

Teachers Meet. Another portion read: "The other day we had a meeting of about 200 teachers to explain certain matters connected with the feeding. One of the city senators presided and in his speech he said: 'The Quakers have come as if sent from God, at a time when there was physical need and a great deal of selfishness. The food which they have brought has been a tremendous help and the spirit in which they came was of even more importance in helping to counteract this widespread self-seeking, etc. The teachers could not too much impress upon the children the spirit and message of the Quakers.'

"Mr. McMasters answered this, stating that most of the success of our work was due to the co-operation of the teachers. He ended by saying: 'When in the future someone says to these children, then grown, the people across the water are your enemies, they will say, 'No, they shared their bread with us when we were hungry and that is not the act of an enemy,' at which all the teachers shouted Bravo! Bravo!'

The following is an extract from a letter from one of the German children, sent to Miss Nicholson: "I can not express my thanks enough because the honorable ladies and gentlemen of the Quakers cannot imagine how nice it is to stand before the dish and think 'this lovely food is really for you.' I hope my letter will please you for without a letter of this kind I would not have been possible for me to go on and I have regarded this as my duty."
