

UNIMPORTANT BILLS ARE MADE LAW BY GENERAL ASSEMBLY

INDIANAPOLIS, July 27.—Following objections by Governor Goodrich to a bill passed by the Indiana general assembly, providing for institution of the two platoon system in all organized fire departments of the state, a new bill was introduced in the senate today by Senator Alfred Hogston of Marion, providing for the system in cities having over 15,000 population. The bill was passed 35 to 1.

The house today accepted the conference committee's report on the bill which seeks to regulate coal and food prices. The report provides for investigation and regulation by the state board of accounts, of fuel and food prices, until March 31, 1921. The house would have provided a separate commission.

There was little change in the situation in the general assembly today. It seemed probable that the session would continue the greater part of the present week.

Until yesterday the Republicans in the senate stood firm for their amendments to the home rule bill, and declared they would hold the Kiper bill in the senate until the home rule measure was acted upon to their satisfaction.

At a caucus late yesterday, however, it was decided to send the Kiper bill back to the house and thus open the way for this subject to be put in the hands of a conference committee. The senators, through Lieutenant Governor Edgar D. Bush, declared they would continue their firm stand for their home rule bill.

The fate of both the home rule bill and the Kiper and Tuthill bills in conference committees is uncertain. The conference committee, which has the home rule bill, expected to meet today. The Kiper and Tuthill bills probably will be given to a conference committee today as soon as the house receives the Kiper bill.

When the tax legislation is disposed of the work of the special session will be almost completed.

SHAMROCK GETS WELL OUT IN FRONT TODAY

(By Associated Press)
SANDY HOOK, July 27.—Shamrock IV today led Resolute across the starting line in the final international yacht race to settle the destiny of the America's cup.

The official starting time was the same for both boats, at 2:17, because both had failed to cross within the two-minute handicap limit. Shamrock IV had worked still farther out to weather and was leading Resolute by several hundred yards when at 2:50 this afternoon the yacht had covered about six and a half miles.

GRAINS SMACK DOWN IN K. CITY MARKETS

(By Associated Press)
KANSAS CITY, Mo., July 27.—Wheat futures dropped 13 and 14 cents today and corn futures were down 5 cents a bushel at the close of the grain market. December wheat closed Monday at \$2.41½ a bushel and today at \$2.27; March closed Monday at \$2.43½ and today at \$2.28; corn ended Monday, September \$1.40½, December \$1.26½, while today's close was \$1.25 for September and \$1.21½ for December.

Will Elect Successor In Council to Von Pein

It is probable that when council meets next Monday the question of the election of a successor to Mathew VonPein, who is to resign his office as a councilman-at-large to accept appointment as president of the board of public works, will come up for consideration. Members of the council will elect Mr. VonPein's successor.

It is understood that there have been no announcements of candidates to fill the councilmanic vacancy but it is expected that the names of quite a few citizens will be placed in nomination.

Whether the citizens' committee of seven, recently appointed to assist stabilizing the municipal government will be called upon by the council members to recommend a successor to Mr. VonPein is not known. The citizens' committee had an active part in the selection of Mr. VonPein to fill the vacancy on the board of public works caused by the resignation of Harry W. Gilbert, board president.

NO TAKERS FOR BABY GIRL
AT \$250; MOTHER IS ILL
NEW YORK, July 27.—Baby Margaret McNulty, quoted at \$250, remained unsold today.

The wee, blue-eyed mite, with her sun colored hair and skin, who was put on the market through a newspaper advertisement, played about all day, serenely unconscious of the fact that a few hours ago she became a commercial commodity—and a low-priced commodity, as figures on babies go.

No more than four blocks due west from the third floor back room on Second avenue, where Baby McNulty lives, another baby was appraised not long ago, when his mother swore in court that his care was worth more than \$27,000 a year. But that was little John Jacob Astor, and he was not for sale at any price.

Mrs. Katherine McNulty, the babe's mother, cannot live, a physician told her, unless she gives up the care of her child.

"Some day, if I live through the next few months," she said today, "I may meet her again as my daughter, if the plan works out. Otherwise, the doctor says I shall be here only a little while. This way I can find the right one to take her; the other way she would be put in an institution."

SWIMMING SUITS AND BEACH CAPES FOR VACATION TIME

Here are three swimming or beach outfits of unusual design. The one at the left is a jersey featuring a richly colored robe. In the center is a black and white

striped taffeta suit made on very simple lines, while at the right is a black taffeta suit featuring an orange silk cape and novel hat. All three of these suits are novel

enough for the woman who has had been noticed on the beaches and yet all three are practical and comfortable for actual swimming.

STOCKS AND GRAIN SMASH DOWN AGAIN

(By Associated Press)
CHICAGO, July 27.—Sensational breaks in prices took place in the wheat market today and the finish showed losses of 11½c and 14c a bushel in addition to an extreme drop yesterday of eight cents. The new crash today was due chiefly to selling of stock, loss character by discouraged holders. March delivery closed at \$2.37 as against \$2.50 last night.

EW YORK, July 27.—Country wide credit strains and unfavorable industrial conditions causes extensive liquidation of stocks today.

Leaders of the steel, equipment, oil and motor groups as well as various miscellaneous issues, were two to five points under yesterday's closing at mid-day.

Ideal for Gardens

E. E. RICE, Garden Supervisor.
Ideal weather conditions have existed for home gardens this year, said E. E. Rice, home garden supervisor. A record potato crop is expected. Tomatoes look splendid. Several ambitious gardeners report ripe tomatoes, but the general ripening will not be until next week.

The army of worms, bugs and other underdoers of efforts of honest gardeners, are being met with destroying deluges of Paris Green and other choice poisons, says Rice.
